Fire causes minor damage at theater

places and faces

RESTORATION of the historic Nankin Mill continues.

The Westland City Council last week approved a bid from the Foremost Development Corp. to replace the roof on the 120-yearold building with a new cedar shake covering.

The \$24,000 project will be paid for with part of a \$50,000 state grant that was obtained to restore the historic mill at Ann Arbor Trail and Farmington Road.

DON'T HAVE your property tax bill paid yet? Well, you've got another couple of weeks to scrape the money together.

Tuesday's deadline for payment without penalty has been extended to Thursday, Aug.

ATTENTION Franklin Junior High School students (and parents)!

We hate to interrupt your summer vacation with school news, but here goes:

Students enrolled at Franklin for the fall semester will schedule classes on Wednesday, Aug. 23, and Thursday, Aug. 24.

Ninth graders should report to the school cafeteria on Wednesday morning, eighth graders Wednesday afternoon and seventh graders Thursday morning. Make-ups for all three grade levels are Thursday

afternoon. Times are set alphabetically, by last name, so students or parents should call the school to find out exactly what time they will register for classes.

Also, students who have just moved into the Franklin attendance area should call the school, 595-2407, to make an appointment for registration.

DON SCHMIDT of Harlow Tire has been named employee of the month by the

Westland Chamber of Commerce. Schmidt was cited for helping local businessman Bruce Priestly change a flat tire after business hours on Friday, Aug. 4. Priestly pulled his car into the Harlow lot

as Schmidt was closing the store. Schmidt also gave his winnings from the chamber's monthly business card raffle back to the organization.

The chamber gives the award to a local employee or business that goes "beyond the call of duty" in servicing its customers. Nominations may be made by calling the chamber office, 326-

CITY COUNCIL meetings are bound to be a little shorter but not quite as entertaining now that longtime council watcher Mildred Evans has moved to Tennessee.

Evans' harangues against city spending policies or services perceived as inadequate were pretty much a regular feature.

She will be missed, although probably not by city officials.

VOLUNTEERS from Michigan United Conservation Clubs will be canvassing Westland neighborhoods through

The volunteers, who carry picture identification and travel door-to-door between 4 and 9. p.m., will explain MUCC campaigns on conservation of the environment, education and other issues.

THE WAYNE-Westland school board will meet at 7 p.m. today in the Dyer Center, on Marquette near Carlson. Agendas are available from the superintendent's office.

The show must go on.

Even fire and smoke couldn't stop Batman from foiling the Joker or Sally and Harry from getting together on screen Thursday at the Quo Vadis Theater on Wayne Road north __specifically how the fire started. of Warren.

A fire that started in a storage room containing a popcorn machine and popcorn filled the second floor with smoke and caused the opening of the theater to be postponed.

No one was injured. The shows had not yet started when an employee reported an obnoxious odor coming from a second-floor room. The building was evacuated and the fire department called."

Westland Fire Chief Larry Lane said the department has ruled the fire accidental, but doesn't know

THE STATE police fire marshal's office has been called in to help in the investigation, said Lane.

Lane said he is "definitely grateful" that the fire didn't start when customers were in the theater.

Although the adjacent room stores film, there was no film damage, said

Steve DeChambeau, the theater's managing director.

While several fire trucks and an emergency rescue vehicle were parked next to the theater, several cars drove up to the entrance and were told that the theater was temporarily closed

DeChambeau said the doors were reopened for the 7 p.m. shows.

A company which specializes in deodorizing interiors was called in to help eliminate the smoke odor, he said.

It was the first major fire in the theater, which opened nearly 25 years ago.

Fire Capt. Ed Ferguson inspects a room with a popcorn machine where a fire started Thursday.

Couple weds in historic home

By Leonard Poger staff writer

A Garden City man was married Saturday morning in a home that has personal and historical "significance.

Jeff Summers and Cheryl Sikora were married in the Westland Historical Museum, the first such ceremony in the city-owned building on Wayne Road.

The reason for the couple picking the 120-year structure as the site for their wedding was simple, Summers said.

His grandfather, Herschel Summers, owned the building and farmland behind it from 1939 until he died in the late 1960s.

The groom, who has lived in Garden City "on and off for 25 years," recalls he and his four older brothers spending most Sundays in the home, cutting the grass, accompanying their grandfather to the church nearby and watching him use a manual plow to farm crops on the five acres behind the house.

"CHERYL AND I agreed independently to have a small ceremony and be married in my grandfather's former house, Summers said.

"Cheryl liked the rustic atmosphere and the small size of the house," he added.

Summers, 31, said his grandfather willed the house to a son, John, Jeff's father.

"My father lived in the house from the age of 12 (he is now 66) until he entered the service in World War II," the younger Sum-

"After the war, he returned . home, married and then moved to

Summers and Sikora, 33, of Farmington Hills, were discussing getting married since last winter but he didn't propose until the Fourth of July weekend, he

sentenced to prison tor assault

A Westland man who confessed to sexually, molesting his 12-year-old stepson two years ago has been sentenced to 10 to 20 years in prison.

At the sentencing Thursday, Recorder's Court Judge Warfield Moore, Jr., criticized the defendant, David Hatfield, 35, and other relatives for allowing the boy to be molested and trying to cover it up.

Hatfield initially denied molesting the boy, and the victim this summer recanted his original statements that he was molested.

The defendant was then ordered to take a lie detector test but confessed. Tuesday before taking the test, said Westland police officer Laura

In a bench trial earlier this summer, Hatfield was convicted of two counts of first degree criminal sexual conduct. The judge had set a sentencing date when the boy said he wanted to recant his earlier testimo-

City police to hook up to television training

By Tedd Schneider staff writer

Westland police officers are going to be watching a lot of television this fall, but it won't be the new network shows drawing their attention.

. The Law Enforcement Televsion Network, a high-tech training tool being used by police departments across the country, has come to Westland.

The city council last week approved a police department request to hook up to the satellite service, which will offer 400 hours of televised courses each month on a 24hour schedule.

"It's something that will give all our officers the most up-to-date information without leaving the station," said executive Lt. Michael

The televised classes cover all phases of law enforcement and will allow officers to pursue college credit through an arrangement with the University of Louisville, he said.

The classes are generally 30 or 60 minutes long.

"WE'RE TALKING about training on all levels in a number of areas, from firearms procedures to new technology to command officer training techniques," Frayer said.

'We're talking about training on all levels in a number of areas, from firearms procedures to new technology to command officer training techniques. It's going to have an immediate impact in terms of how we do our jobs.'

— Lt. Michael Frayer

"It's going to have an immediate impact in terms of how we do our

The \$488 monthly subscription cost will come from money already budgeted for officer training, Frayer has become almost prohibitive for town Detroit.

agreement with the city, the Texas-said." based network will waive \$900 in installation charges.

Three television monitors will be installed at the police station, one each for the squad room, chief's office and conference room. A satellite dish will be mounted on the station

The network pays for routine equipment repairs and maintenance. Frayer said the system will even-

tually save the city money by the eliminating the cost of sending officers out of town for training.

sald. As part of the 12-month lease many suburban departments," he

Frayer said sending officers to seminars can cost anywhere from \$60 to \$500 per person; depending onthe length of the session and expenses for lodging and other inciden-:

Also, with the in-house, round-theclock courses, officers will be able to sit in at their convenience and be available in an emergency situation, Frayer said.

Other local departments receiving the network are West Bloomfield, Taylor, Warren and the Drug En-"The cost of (non-local) training forcement Agency office in down-

Education group off to solid start, chairman says

By Tedd Schneider staff writer

The Wayne-Westland Citizens for Education Committee is off to a promising start, its chairman said last week.

"There are a lot of people out there who don't feel represented by the school board or administration,' James Netter said. "I realized that when we had 35 people show up at the meeting."

The non-profit organization, formed last month as a forum for district residents, held its inaugural meeting July 28 at the Airport Hilton in Romulus.

A second meeting is scheduled for p.m. Friday, Sept. 15, at the hotel. Netter said issues discussed by the 'There are a lot of people out there who don't feel represented by the school board or administration.

— James Netter chair, Wayne-Westland Citizens for Education

group at the first meeting included two statewide November ballot proposals on school funding; finding qualified school board candidates who represent all communities served by the district; how a possible tax abatement for Ford Motor Co. at its Wayne Assembly plant will affect

Wayne-Westland schools; and legal costs incurred by the district in the recent adult education enrollment fraud case.

THE BALLOT proposals - which call for either a half-cent or 2-cent increase in the 4 percent sales tax to

provide an additional \$400-\$468 million annually for Michigan Public Schools — drew no support from the group, Netter said.

"If the proposals do pass, how do we know that's going to take care of the needs in individual districts," Netter said. "What's to prevent district's from getting additional money through a Headlee Override or some other measure?"

Another topic was the problem of 'equal representation" on the school board and possible candidates the group could support in 1990, Netter

Currently, six school board members live in Westland and one lives in Wayne. All board members are

The district also includes parts of Inkster, Canton Township and Romulus.

In addition to better geographical representation, Netter has said the board needs to more acurately reflect the racial makeup of the district. Some 11.29 percent, or about 1,900 of the 16,904 students in 1988-89 were non-white, according to the

Wayne County Intermediate School District.

Two black candidates ran well behind two incumbents in the June 12 school board election.

Former Inkster school board, member William Clark was mentioned as a possible candidate next year or in the near future. Netter

CITY OF GARDEN CITY NOTICE OF HEARING ON PROPOSED ORDINANCE

The following Ordinance (known as the Restaurant Regulations) amending the Code of the City of Garden City has been proposed. A Public Hearing has been scheduled for August, 21, 1939, at 6:15 P.M., in the council chambers of the City Hall, 6000 Middlebelt Road, to provide Public comments on the proposed

RONALD D. SHOWALTER

RESTAURANT REGULATIONS

For the purpose of this subchapter the following definitions shall apply unless the context clearly indicates or requires a different meaning.
"CARRY-OUT RESTAURANT." A structure which is maintained, operated, and/or advertised or held out.

to the public as a place where food, beverage, and/or desserts are served in disposable containers or wrappers from a serving counter for consumption exclusively off the premises.
"DRIVE IN RESTAURANT." A structure which is maintained, operated and/or advertised or held out to the public as a place where food, beverage and/or desserts are served to patrons while scated in their motor vehicles for consumption in motor vehicles while on the premises. It shall also include any establishment where the customers may serve themselves and are permitted to consume food and beverages in a motor vehicle parked on the premises or at other facilities which are provided for the use of the patron for

the purpose of consumption and which are located outside of the building or structures. This shall not include drive through facilities where patrons are served at a drive-through window.

"PAST-FOOD RESTAURANT." A structure which is maintained, operated, and advertised or held out to the public as a place where food, beverage, and/or desserts are served to customers from a serving counter in disposable (not reusable by the restaurant) containers or wrappers. Such food, beverage, and/or desserts may be consumed: inside the building, outside, at facilities provided, or "carried out" for consumption off

"STANDARD RESTAURANT." A structure which is maintained, operated, and advertised or held out to the public as a place where food and beverage are served, and consumed, primarily in non-disposable (reusable by the restaurant) containers. FREESTANDING RESTAURANT." Drive in, Fast Food and Standard Restaurants which are detached structures or a non-detached part of a building greater than 5,000 square feet which is occupied for a

commercial use other than an auto service station. 161.0(6 SITE DEVELOPMENT STANDARDS —(A) The following site development standards shall apply to freestanding restaurants within the city—minimum lot area, 20,000 square feet; minimum lot width, 150 feet.

(B) On corners, the frontage requirements shall apply to the major traffic road.

161.647 ZONING DISTRICTS AND PERMIT STATUS.

All restaurants defined in this subchapter shall meet the following zoning district guidelines

Restaurant Type Standard Restaurant

Zoning District

C-3 Fast-food Restaurant

C-2 Carry-out Restaurant C-3 161.048 TRAPPIC CIRCULATION

(A) For all freestanding restaurants, the minimum width of driveways at the property line shall be 24

(B) The minimum distance between driveways on the site of a freestanding restaurant shall be 65 feet measured from the two closest driveway curbs. (C) Vehicular ingress and egress for freestanding restaurants. Points of vehicular ingress and egress

shall be limited to the thoroughfare having business frontage only, and site plans shall be reviewed by the Building Department and the Planning Commission for location and design of curb cuts and driveways as well as for layout of parking lots.

For all freestanding restaurants, detailed site plans shall be submitted to the Planning Commission for approval or denial of the subject design. The Planning Commission shall review the site plans according to

(A) Consistency and compatibility with applicable elements of the city's Master Plans (B) Conceptual compatibility of design with the environment Immediate to the site; (C) The degree to which the design promotes harmonious transitions in scale and character in areas between differing designated land uses. The failure of such design to promote a harmonious transition between differing designated land uses shall be reason for denial,

(D) Compatibility with future development as conceived in the Master Plan and based upon the likelihood of such future land use for the site;

(E) The appropriateness of open space and landscaping, in terms of amount and arrangement, to the design and function of the structure. (Ord. 78 010, passed 4-3-78) 161.030 REVIEW AGENCY: APPLICABILITY OF REGULATIONS.

ment and/or the Planning Commission, or the City Council in a Planned Development District.

(B) The provisions of this subchapter shall apply to property presently soned or later re-scood within the following districts: C-2, C-3, and Planned Development, and used partially or solely for restaurant activitice as described in 181.145 through 161.148 and 181.185 through 161.188 where one of the following occurs:

(1) The construction or erection of any building or other structure upon an improved job;
(2) Additions or alterations to present structures or the erection or placement of an additional structure or structures upon the lot of nonsubdivided property resulting in a percentage for rease in the gross floor area exceeding 20% of the present structures. All soch additions, alterations, repairs, and additional structures shall be considered cumulative in determining the percentage increase beginning on April 3, (Ord. 78 010, passed 4-3-78)

141.031 LANDSCAPING PERFORMANCE STANDARDS. (A) As used in this section, the following definition shall apply.

"LANDSCAPE MATERIALS." Approved living trees, shrubs, vines, flowers, grasses, and ground covers, and may include water bodies, crushed rock, landscape furniture, and ornamental pieces. (A) Drive up Windows and Service facilities, as an accessory to Restaurants permitted in C-2 or C-3 Districts are allowed only after compliance with the Special Use Requirements of Section 161 022 and

(I) A restaurant with a drive-up window shall provide a separate customer ordering station

(4) A back-up or waiting space for drive-up windows or service facilities shall be procar spaces for each service window or facility. (5) A by pass lane or other sultable means of access to a public street shall be provided for vehicles that

Publish August 14, 1919

(B) Landscaping shall be determined and located as follows. The minimum required landscape area shall be that portion of land contiguous to a public street right-of-way, and extending to a depth of 25 feet. excluding vehicular accessways and walkways approved by the city. Through lots and corner lots shall provide landscaping along all contiguous public street right-of-ways, with the following exceptions

(1) On such sites where the geology, soils, drainage, topography, or other physical characteristics of the land would create a hardship in the development or maintenance of the landscaping, or where easemonis, podestrianways, trail systems, existing vegetation, continuity of design concepts within the district, parking design, emergency vehicle access, or other matters of public health, safety, or welfare would be promoted, the landscape area may be a portion located within the front setback, and having an area measurement not less than required by division (B), and shall comply with all other design standards and requirements of this division. Such changes in location are subject to the approval of the designated review

(2) On such sites where landscaping of the public right-of-way would comply with the general intent of this section, the transfer of the area requirements, or a portion thereof, from within the property line to the public right-of-way shall be approved by the designated review agency, provided that

(a) The area measurements shall not be less than that required by division (B) and shall comply with all other design standards and requirements of this section.

(b) The general planning of the city, with particular respect to the transportation system, will not be jeopardized. (C) The design standards and requirements for the landscape area shall be as follows (1) Water bodies, boolder grouping, wood chips, landscape furniture, and ornamental pieces, singly or in combination shall not account for more than 30% of the ground area to be landscaped at the time of

(2) At least one tree shall be provided for each 300 square feet, or portion thereof, of area to be (a) Each required tree shall have an expected height of 20 feet or more at maturity
(b) Each required tree shall have a caliper, measured at a distance of four feet from the ground level

of the tree or at least one and one-fourth inches when installed.

(3) No tree, as measured from its center, shall be located as follows

(a) Within ten feet of a public or private street or parking lot standard. (b) Within five feet of a fire hydrant;

(c) Within five feet of a vehicular accessway, (d) Within five feet of a public sidewalk.

(4) At least one shrub shall be provided for each 50 square feet, or portion thereof to be landscaped as

(a) Each required shrob shall have an area of at least 60 square inches, as determined by multiplying the height by the spread, when installed or thereafter. (b) No shrub, as measured from its perimeter, shall be located as follows -- 1- Within five feet of a fire hydrant --2 Within five feet of a vehicular accessway, if the planted or maintained height is greater than two

(5) No permanent impervious surfacing or subsurfacing shall be located around the base of any tree or shrub which may impede its growth.

(D) Screening to line buffers. The following standards shall apply to all restaurants.

(1) All restaurants shall provide landscape materials in tot line side yards equal to not less than three feet and not more than five feet in width, such side yards to be measured from the front property line to the rear property line of the subject lot except as provided in division (DX2) below.

(2) All restaurants whose rear yards or side yards about a residential district shall provide and maintain

at a minimum a four and one-half fool decorative wall between the commercial and residential district as defined elsewhere in this subchapter. 161.052 ABANDONED, VACATED, OR CONVERTED RESTAURANTS.

During the period when a restaurant is vacated, closed, or otherwise not opened for business for more than 30 consecutive days, the owner, franchise bolder, or lessee shall be subject to the following regula-

(A) Vehicular parking and storage shall be prohibited at all times anywhere on the premises, and the they remediate parking and storage shall be prohibited at all times anywhere on the premises, and the owner, franchise holder, or lessee shall post a sign or signs on the premises giving notice that all parked or stored vehicles are subject to ticketing and removal at the expense of the vehicle owner.

(B) The ground shall be kept free of rubbish and debris, and the grass, if any, shall be well kept and cut as necessary so as to present a neat and altractive appearance at all times.

(Ord. 78-010, passed \$-3-78)

161.051 shall not apply to Carry Out Restaurants as defined in Section 161.045 nor shall they apply to poo Freestanding Restaurants (restaurants that are a non detached part of a building of greater than 5,000

Hearing denied in dispute over mall book sale

Wednesday turned down a pro-life group's request for a show cause hearing to reinstate the group's Saturday, Aug. 12, used book sale at Westland Center.

Judge James Rashid's denial of the emergency hearing left Right To Life-Lifespan without a site for its fund-raising sale, which the mall cancelled 10 days before the scheduled event.

The Livonia-based pro-life group has filed a lawsuit against the mall and-its management-company, Genter Companies of Southfield, claiming that the last-minute cancellation was a breech of contract.

The suit, which will be heard next January by Judge Cynthia Stephens, accuses the mall of breaking its agreement to provide space for the sale after it received several telephone calls threatening boycotts and other disruptive actions by prochoice supporters.

It claims the mail is liable for "substantial profits being lost" from land and Macomb Countles.

A Wayne County Circuit judge the cancelled sale. No specific damage amount is listed.

> A spokeswoman for the mail declined last week declined comment on the lawsuit.

The spokeswoman said previously that the decsion to cancel the sale, originally slated for the shopping center's lower level, was due to "space and time limitations" created other planned weekend events at the mall.

The spokeswoman said that a 'mix-up'' led-to-the-mall-grantingpermission for the sale by telephone several months ago. There was no written contract, both partles said.

The spokeswoman denied Right To Life-Lifespan's claim that the mall received threatening telephone calls after advertising the sale on one of its marquèes.

The pro-life group said 2,000 books were donated for the sale. The group has 10,000 members in Wayne, Oak-

Doctor cited

Dr. Stanley J. Sczecienski of Westland was one of 96 U.S. physicians recently awarded a certificate of competence in sports medicine from the American Osteopathic Academy of Sports Medicine. The certificate is awarded to doctors who have successfully completed written and oral examinations given by the AOASM. Sczecienski is affillated with Nankin Family Physicians, Garden City Osteopathic Hospital and Annapolis Hospital. He is the team physician for John Glenn and Wayne Memorial High Schools.

Bluegrass coming to park

Roy Cobb and the Coachmen will perform "Flatt and Scruggs" bluegrass music at a free outdoor concert at 7 p.m. Wednesday in the Central City Park gazebo behind the Balley Recreation Center, on Ford near Carlson.

Jeff Branch, a spokesman for the group and the bass player, said the four-member band sticks to the upbeat, traditional bluegrass sound.

"It's what people remember blue-

employee of Gitfiddler Music in Northville.

"Think of Flatt and Scruggs. That's what we play. Bluegrass has it's own sound and we think it's important to preserve it."

Other performers will be Roy Cobb on the guitar and singing the lead vocals, Dana Cupp on banio and Jeff Tuttle on the mandolin.

The event is the fifth in the con-

by the Westland Cultural Society in cooperation with the Westland recreation department and sponsored by the Westland Rotary Club.

The next outdoor concert in the series will have "Chaser," a light rock band playing music from the 1950s and '60s, performing at 7 p.m., Sunday, Aug. 27, in Jaycees' Park, on Wildwood and Hunter.

While the concerts are free, patrons are asked to bring their own SCHOOL'S OUT, is in but the doctor is in

St. Mary Hospital

THOSE MATERIAL AND A STATE OF THE STATE OF T

... at St. Mary Hospital **Health Care Centers** So why wait until the last minute to

have your child's back-to-school physical? From now through September, our physicians will be offering special-rate physical examinations required for school, camp or sports.

Our physical exams are personalized and thorough. St. Mary physicians take the time to learn about your child, and give a physical exam so complete that even Mom will be satisfied.

FOR ONLY \$20, your child will receive:

- * A physical assessment by a personal physician.
- * An evaluation of growth and development. A medical history (be sure to bring all
- immunization records).
- * Vision screening * Basic urine tests

(Immunizations and additional lab tests if required will be an additional charge).

So now that school's out, it's time for your child's most important exam. It's a short trip to your St. Mary Hospital Health Care Center. Appointments can be made at your family's convenience at the location in your neighborhood:

St. Mary Hospital Family Medical Center 19335 Merriman, north of Seven Mile 474-2910 Hours: M.T.Th.F: 9-6 W: 10:30-6, Sat: 9-1

St. Mary Health Care Center - Livonia 9001 Middlebelt, north of Joy 421-1162 M-F, 9-6

St. Mary Health Care Center - Northville 42000 Six M#e west of Haggerty 347-1070 Hours: M: 9-8, T-Th: 9-5, W: 12-8, F: 12-5

Eclipse to star in sky theater

Think of the moon as a big movie screen in the sky.

Old Mother Earth lumbers into the celestial theater wearing a big hat, blocking the projector's sunny rays.

We're the audience in back of her yelling, "Hey, down in front!"

It may not sound very scientific, but that's one way of looking at the lunar eclipse on Wednesday night, according to Mike Best, astronomer and lecturer.

Best teaches astronomy at Schoolcraft College and in the Livonia school district, which includes the northern section of Westland.

"The Earth is going to move in between the sun and the moon," he explained. "We're the lady with the big hat."

Best, who helped organize the Astronomy Society of Michigan, will provide an armchair tour of the stars at the Troy Outdoor Education Center Oct. 18, when he teaches an introduction to the autumn sky. Information is available by calling 524-3567.

Celestial show Aug. 16

Skygazers won't have to sign up to see the eclipse, however, it's coming to them.

Viewers in southeast Michigan will see the Earth's shadow begin to creep over the moon about 9:21 p.m., completely obscuring the sun's rays between 10:30 p.m. and midnight.

The eclipse will hit its peak with the moon at its darkest' about 10:20, and the entire moon will be engulfed in shadow around 11:08. The show will be over about

11:56, with the moon back to normal shortly before 1 a.m. Thurs-

"As you're watching it, the shadow of the Earth and the moon will move up and to the right from the southeast," Best explained. "But we'll see the moon pass through the shadow from right to left."

THE CLOSER the moon is to

Earth, the longer the eclipse. The maximum duration of any eclipse is an hour and 45 minutes. The event Wednesday will last an hour and 37 minutes.

"The moon is closest to the Earth this month on August 19. If the eclipse had been three days later, we would have happened to get one of those super-duper ones that last a long time."

Earth's natural satellite will glow a coppery red, even when the shadow is at its darkest. That's because as sunlight enters the Earth's atmosphere, blue colors are absorbed and reds are refracted and projected on the moon like huge floodlights.

Despite the showy colors, Best says the eclipse is "about as exciting as watching you wash dishes.

"Lunar eclipses are not the brightest events. It just looks like it gets a little cloudy — that usually

means pollution around here," he

Solar eclipses are more spectacular because viewers see "a black line going right across" it's surface.

It's scarier too, because "everything gets dark." Birds stop chirping. Flower blossoms close.

And in the ancient Orient, "it was throught that dragons would start biting on the moon and sun and take chunks out," Best said.

According to Chinese legend, court astronomers Hsi and Ho were beheaded for failure to predict an eclipse.

BEST SAID the lunar event may not provide a spectacular show, but is worth watching because "it tells you what's really going on out there. It's good to know.'

He said a more exciting event will occur in November, when the Earth passes through the debris left by Halley's Comet. Stargazers will recognize the celestial garbage as a meteor shower.

Trial date set in teen deaths

By Kevin Brown staff writer

A November trial date has been set for the man charged with driving the car that struck and killed two Franklin High School seniors in March.

Francisco Canlaes, 31, of Altamonte Springs, Fla; faces trial Nov. 20 on felony charges including manslaughter while driving, stemming from the March 25 incident.

Killed were football quarterback Craig Allard, 18, and basketball cocaptain John Shea, 17, as they tried to cross a roadway in Orlando, Fla.

The two, who were best friends and popular with their classmates, had traveled to Florida with friends for spring break.

The trial date was set on Thursday during a pretrial exam.

Canales has been charged with two counts of vehicular homicide. two counts of manslaughter while driving under the influence of alcohol, leaving the scene of a fatality and driving while his license was revoked.

Wilson Green, who is trying the case for the Florida state attorney's office, said he plans to file a measure under state law to allow the

judge to declare Canales a habitual offender.

"The judge can impose a greater sentence by that finding," Green said. The case has been assigned to Orange County Circuit Judge Jeffords Miller.

CANALES REMAINED in the Orange County Jail on Friday, on \$10,000 bond, where he has been lodged since his arrest four hours after the incident in March.

A Florida Highway patrol spokeswoman said the car that struck the two Franklin students was speeding and being driven recklessly.

Police said the car was driven away after the two students were run over. Using information supplied by witnesses, police arrested Canales at 5:30 a.m.

Green said witnesses for the prosecution include a driver who said he was passed by the car that struck the two students. "He got a look at the person and saw the accident occur ahead of him," Green said.

Canales' attorney Jackie Geartner was unavailable for comment.

In April, several hundred students. friends and family of Allard and Shea attended services for the two athletes.

Talent agency has world view

By C.L. Rugenstein staff writer

Mention the words "Gail and Rice" and immediately people think of bands, singers, and fashion models. But that ain't necessarily so.

Gail and Rice, based in western Wayne County, doesn't just book bands - any more. Neither is their business limited to Michigan's bor-

Their clients frequently perform

for local benefits or parties. During the last three decades the business has become multidimen-- sional, reaching out to span the globe since Max Gail booked his first band

"We've done productions from Fiji to Switzerland," said Jeff Bouchard, general manager and one of three senior vice presidents of the company.

BOUCHARD IS also quick to point out that they are not - and never have been - a talent agency, which develops and manages artists exclusively.

"We've only done private or corporation productions," he said furnishing the talent or entertainment for conventions, auto shows, or private parties.

"Every production we do is custom made, not off the shelf. They're all created to fill a specific need for a specific client," said Bill Postelnik, another senior vice president in charge of video productions for the company.

Many of those productions are for the training and communications materials: video and audio cassettes, brochures and books.

They've done 3-D training films as well as a recent production in the form of a TV game show.

person with whom we can verify the

If you are submitting a photo for

That one, a product-knowledge incentive for salespeople, was beamed on closed circuit TV via satellite to 120 dealerships across the country.

Though they didn't originate the idea, Postelnik said they like to think they've "refined and taken the process further."

ONE THING Gail and Rice can take credit for is pioneering the use of entertainment at public auto shows - dancers, singers, comedi-

That was the brain child of Al Rice, who joined Gail in 1948, after playing in some of the bands Gail booked before World War II.

The idea for using entertainment, in addition to models who stood on the platform with cars, "was just laying there," Rice recalled. "If you had a sure-fire act that would go over - a juggler, impressionist, tap dancer — then integrate about four product," the audience would remember more, Rice said.

"If they're enjoying the act, there's greater retention value." He researched the idea for about five years, then took it to the auto companies.

The natural outgrowth of the idea's success was that "The auto companies looked to us for bigger things," Rice said.

In 1967 Rice bought control of the company, and Gail tapered off his business involvement. Rice expand-, ed their services to include audiovisual presentations and materials in

That's when he brought in Ed Faulkner, now vice-chairman at G&R. Faulkner had developed the use of audio-visuals at an auto company then gone into business for himself. In '76 Faulkner bought a minimum of Gail's shares in the company and became a partner.

"If there's any hallmark or method of operation in our business, it's that we're willing to go ahead when opportunity appears," Rice said.

PART OF that going ahead involved bringing in younger people to keep the company going when Rice and Faulkner retire.

They didn't have far to look. G & R has about 50 employees at the Livonia location, and of those, "10 percent are 'Rices, including me," Rice

His son-in-law, Mike Williams, is president and slated to become chairman when Rice steps down. Daughter Leslie is vice-president of administration, and sons 11m and minutes of salient points about the Mike Rice are senior vice president, and vice-president of live event productions, respectively.

"I've often said I don't believe in nepotism, unless you keep it in the family," Rice senior said with a laugh.

He's pleased that his family has come into the business?

A few years ago he tried to include a second generation Gail in the business, too, when he asked actor Max Gail, Jr. (remember officer "Wojo" from the "Barney Miller" TV show?) to join them.

But, according to Rice, the younger Gail declined, saying "I really love my dad but I don't think I could work with him."-

regular meeting of July 19, 1989; the full text of the minutes is on file in the office of the Superintendent, 15125 Farmington Road, Livonia, and in the principai's office of each school, and is available on request.

President Tancill convened the meeting at 8:05 p.m., in the Board Room, 15125 Farmington Road, Livonia. Present: Richard McKnight, Marjorie Roach, Patricia Sari, Carol Strom, Pat Tancill, Richard Thorderson, Absent: Joseph Laura (Out of Town) Communications: Letter from Mr. and Mrs. Don Runyan, Franklin High School

Levin: U.S. should avoid any ransom for hostages

By Wayne Peal staff writer

A military strike against the terrorists who killed Marine Lt. Col. William Higgins is appropriate, Sen. Carl Levin said, if those responsible can be clearly identified.

"If in the prompt time frame there was a clearly identified target of people responsible (for Higgins' death), I think the American people would have supported a strike of some kind against that target - and early campaign stop. I would have (too)," said Levin, D-Detroit.

A military strike would be inappropriate, Levin said, if the U.S. sponsible, or if idenfitication only combat drugs. came after a lengthy investigation.

rorist action, Levin said.

"WE DID a terrific job on Khadabombing of the cafe in Berlin. We money at any time." knew exactly what the role of the Liwhere to hit and we hit it hard."

In negotiating for remaining hostages, Levin said, the U.S. should avoid paying ransom.

Levin said he doubted whether U.S. officials were aware of where the hostages were being held at this time, but declined to answer questions on whether government offi-

cials ever knew their whereabouts. His comments came during a \$60,000 a year you're paying 33 per-

County's parks look for private, public aid

By Wayno Poal staff writer

Wayne County residents are increasingly "buying into" the county parks system. Now, county parks officials would like to see county government and businesses do the same.

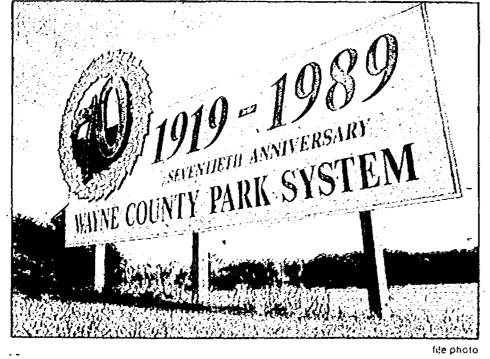

"Buying in" is county park system shorthand for revenue raising, with the nation's golf boom just a start.

More people are playing golf at Warren Valley Golf Course, according to just-released county figures. The Dearborn Heights course, a chief revenue producer for the county parks system, took in slightly more than \$1 million in revenue in 1988. The figure was approximately \$200,000 more than that raised in 1980 and 1981 combined.

Another revenue raiser, Elizabeth Park Marina in Trenton, took in \$108,927 in 1988 — a 62-percent increase in five years.

DESPITE THAT, and despite the fact that a second county golf course is scheduled to open this month, barks officials said the county system is far too small and understaffed to meet the needs of heavily populated Wayne County.

"I can tell you Belle Isle (in the city of Detroit) has more staff and a greater budget than we do," county parks director Hurley Coleman said.

After celebrating its 70th anniversary, Wayne County Parks is looking toward the future.

Under National Parks Service guidelines, officials said, the county needs to add 2,300 more acres of parkland to meet the needs of its residents.

At this time, however, county parks officials are more concerned with refurbishing what they have.

THE COUNTY is eligible for an

estimated \$487,500 a year in state money under a new voter-approved bond issue, officials said, provided county officials come up with an estimated \$162,500 in matching

That money is particularly valuable, officials said, because it would allow the county system to improve its current holdings, not just add new

Most of the county system's 40 buildings are lavatories. Many have

been shut since an early 1980s budg-The county is also eligible to share

in a \$1.3 million state waterfront bond program and a \$3 million "rails and trails" program, designed to boost tourism, provided the county comes up with matching grant mon-

"It would be a travesty if we did not come away with any of that money," parks design manager Nancy Watkins said.

GETTING CORPORATE sponsors to "buy into" the park is the second part of the system's revenue raisingstrategy.

Parks officials are stepping up efforts to lease parkland for corporate picnics and other events.

"What we're also looking at doing is have corporate sponsors offset the cost of some renovations," Coleman said. "So you'd see a sign: 'This is brought to you by so-and-so.'

sidered, Coleman said. COUNTY OFFICIALS acknowl-

A county park tax isn't being con-

edge the system is finding its place between surrounding communities'

smaller, well-organized parks and the much larger nearby Metroparks. "We have to create events that offer something different," recreation

manager Vic Chiasson said.

Parks officials made their presentation Thursday to members of the county commission's Committee on Roads, Airports and Public Services.

While members made no monetary pledges, committee chairman David Cavanagh "pledged to cooperate" with parks officials on their proposal.

The county is eligible --for an estimated \$487,500 a year in state" money under a new voter-approved bond issue, officials said, provided county officials come up with an estimated \$162,500 in matching grants.

S'craft sets sign-ups

Mail-in registration for continuing education services courses, seminars and workshops at Schoolcraft College will be conducted Aug. 14-26. CES classes are scheduled to begin Monday, Sept. 18.

New courses offered this fall include: leadership skills for managers, negotiating techniques, estimating home building costs, real estate appraisal, starting a business, interior design II, feathered star quilt, chemical dependency, home electrical repair, gardening and landscape design I, weather awareness and computers in the horse in-

For more information and a free copy of the fall schedule, call 462-4448. Schoolcraft is at 18600 Haggerty, between Six and Seven Mile roads, Livonia.

SC staffer is 'leader'

Noreen Thomas, assistant dean of continuing education services, is representing Schoolcraft College in the "Leaders" program, an international training session for female community college administrators.

Thomas recently attended the Leadership Institute, Albany, N.Y. She was selected to attend on the basis of proposed projects and interest in college administration.

The program is designed to enhance the skills participants need to assume decision-making roles, including human relations, planning and budgetary skills.

The program is sponsored by the League for Innovation in Community Colleges and the American Association of Women in Community and Junior Colleges.

Thomas is a Farmington Hills res-

Grants are available

Agencies providing food and shelter to needy area residents are encouraged to apply now for federal Emergency Food and Shelter Program (EFSP) grants.

Though final figures have yet to be announced, metropolitan Detroit is expected to share in \$134 million federal grant program.

To qualify, agencies must be nonprofit, audited annually and be nondiscriminatory. Agencies must also demonstrate their ability to deliver food or shelter. Private agencies applying for EFSP grants must also have a voluntary board of directors.

Organizations interested in applying for EFSP grants can call or write the United Community Service office in Romulus, 782-4030. The office is at 19101 Inkster Road.

GOP takes

GOP congressmen, led by manager Carl Pursell, defeated their Democratic counterparts, 8-2, in the annual Congressional Baseball Game, July 31, in Washington.

The seven-inning charity game raised more than \$10,000 for Ington Children's Hospital.

"The most important part of this game is that it provides a short distraction from our business on Capttol Hill and benefits a good cause." said Pursell, R-Plymouth.

Eclipse to star in sky theater

Think of the moon as a big movie screen in the sky.

Old Mother Earth lumbers into the celestial theater wearing a big hat, blocking the projector's sunny rays. We're the audience in back of her

yelling, "Hey, down in front!" It may not sound very scientific, but that's one way of looking at the lunar eclipse on Wednesday night, according to Mike Best, astronomer and occasional lecturer at the Troy

Outdoor Education Center. The Earth is going to move in between the sun and the moon," he explained. "We're the lady with the big

Besides lecturing in Troy, Best teaches astronomy at Schoolcraft College in Livonia. He also teaches astronomy in Livonia public schools.

Best, who helped organize the Astronomy Society of Michigan, will provide an armchair tour of the slars at the Troy Outdoor Education Center Oct. 18, when he teaches an introduction to the autumn sky. In- from right to left."

Celestial show Aug. 16

formation is available by calling

Skygazers won't have to sign up to see the eclipse, however, it's coming

Viewers in southeast Michigan will see the Earth's shadow begin to creep over the moon about 9:21 p.m., completely obscuring the sun's rays

between 10:30 p.m. and midnight. The eclipse will hit its peak with the moon at its darkest - about 10:20, and the entire moon will be. engulfed in shadow around 11:08.

The show will be over about 11:56. with the moon back to normal shortly before 1 a.m. Thursday.

"As you're watching it, the shadow of the earth and the moon will move up and to the right from the southeast," Best explained. "But we'll see the moon pass through the shadow

THE CLOSER the moon is to Earth, the longer the eclipse. The maximum duration of any eclipse is an hour and 45 minutes. The event Wedneşday will last an hour and 37 minutes.

"The moon is closest to the Earth this month on Aug. 19. If the eclipse had been three days later, we would have happened to get one of those super-duper ones that last a long

Earth's natural satellite will glow a coppery red, even when the shadow is at its darkest. That's because as sunlight enters the Earth's atmosphere, blue colors are absorbed and reds are refracted and projected on the moon like huge floodlights.

says the eclipse is "about as exciting as watching you wash dishes."

"Lunar eclipses are not the brightest events. It just looks like it gets a

Despite the showy colors, Best

little cloudy — that usuaully means pollution around here," he said.

Solar eclipses are more spectacular because viewers see "a black line going right across" it's surface.

It's scarler too, because "everything gets dark." Birds stop chirping. Flower blossoms close.

And in the ancient orient, "it was throught that dragons would start biting on the moon and sun and take chunks out," Best said.

According to Chinese legend, court astronomers Hsi and Ho were beheaded for failure to predict an

BEST SAID the lunar event may not provide a spectacular show, but is worth watching because "it tells you what's really going on out there. It's good to know.'

He said a more exciting event will occur in November, when the Earth passes through the debris left by Halley's Comet. Stargazers will recognize the celestial garbage as a meteor shower.

obituaries

FRANK MELEGI

Pick a rib that suits you best

With the summertime barbecue season in full swing, now is the time to enjoy barbecue ribs on the backyard grill.

Spareribs can be a source of confusion for the backyard barbecuer. Regular spareribs are from the from of the rib cage and are held together by the sternum bone, so most of the time they are difficult to cut and eat. A trip to the local meat market will find an assortment of ribs, ranging from babybacks, barbecue-style ribs and country ribs. What's the difference you ask?

Babyback ribs are cut from the rib side of the loin, are about two inches wide, and have more meat on them per polind than the barbecue style and country ribs.

Country ribs are really not ribs at all but are mainly the meaty section of the rib end that is split in half and then cut into chop-like strips. Barbecue ribs, the least expensive and most popular of the lot, are regular spareribs with the sternum sections of bone removed.

All the above-mentioned ribs are delicious, especially when finished with a lip-tangy sauce on the grill or barbecue. The lighter-weight ribs cut from smaller hogs have a tendency to be a bit more flavorful and tender, than the larger ribs.

FOR AVERAGE appetites, allow at least four ribs per person, with heartler appetites being allowed aimost a full slab. Generally speaking, two full racks of ribs should be enough for five to six people, especially when there is an ample amount of salads and starches to pass along with the

Many people parboil ribs to pre-cook them. This procedure makes them more tender and mouth-watering but, unfortunately, has a tendency to boil away a great deal of flavor. Yours truly personally thinks that a simple pre-roasting in a moderate (350-degree) oven for about 45 minutes is all that is needed to help leech out the flavor from the bones, cook off a majority of fat and still have the ribs maintain a juiciness and great taste we all enjoy.

After the pre-baking, a healthy slathering of sauce and an additional 30 minutes or so on a slow grill or the beauty is all that is needed for a great entree.

I have heard of many folks who

I have heard of many folks who prefer to skin their ribs prior to cooking. Removal, of the tough layer of skin that can usually be found on the becklides of the rib bones thematical is an easy procedure the house and accomplished by any the layer accomplished by accomplished by accomplished by accomplished by accomplished by accomplis

Another cooking practice widely used when preparing ribs is the pre-soaking in a vinegar-water bath. Advocates of this procedure say that pre-soaking with vinegar helps break down the skin and tenderize the meat. Accepted ratios of vinegar-to-water should be about one cup of vinegar to each quart of water, but the choice to pre-soak is entirely optional.

BECAUSE RIBS have a tendency to be fatty and can cause flare-ups easily on the grill, make sure you use only white-ash, well-heated coals. I keep a clean spray bottle filled with water, bouillon or cheap wine within arm's reach to immediately snuff out any flare-ups, which not only singe the ribs but impart a burnt taste

when left uncontrolled.
Cooking ribs on the barbecue can be an exciting and tasty experience. Try some today for a mouth-watering entree.

Strawberry sorbet garnished with Johnny-jump-ups (miniature pansies) is served with a fresh fruit plate of blueberries, strawberries and kiwi garnished with basil leaves.

SORBET-MCGE/CCC

Fresh, flavorful, low-cal

By Geri Rinschler special writer

HE ITALIANS call it granita, the French, sorbet, and some of us just call it flavored ice. No matter what you call it, these frozen delights never go out of style and, lucky for us, these low-calorie desserts are trendy

Most food historians tell us the Chinese are responsible for first having flavored ice. It is believed the first Italian ice was made at the court of the Roman Emperor, Nero. He demanded that snow be brought down from the mountain and then flavored it with fruit juice and honey. By the 16th century, ices and sherbets (which is a fruit ice with milk added) were popular in Italy and Spain.

Authors of the Better Homes and Gardens 'Heritage Cookbook' (Meredith Corp., 1975) tell us that American Indian women scooped up balls of snow and covered them with maple syrup long before the Mayflower landed.

But the one who gave international fame to ices or granitas and sorbets was a Sicilian nobleman, Procopio dei Coltelli. He went to Paris and opened a Venetian coffee shop and sold ices and sherbets. His Cafe Procope was extolled for its excellent frozen desserts.

GRANITAS AND sorbets are the simplest of frozen desserts. They usually consist of frozen fruit juice or fruit puree, a sugar syrup and other flavorings such as vanilla, spices or liqueurs.

Some restaurants around town offer sorbets made with smoked tea, wine or champagne as a palate cleanser after the entree is served. The technique used to prepare these more aromatic ices is the same as those used to make a fruit sorbet or

Almost any fruit or juice can be used to make a summer ice. Favorites are strawberry, raspberry, lemon, orange and grapefruit. When I was a young girl living in the New York metropolitan area, summer

wasn't summer without a weekly visit to a local Italian pastry shop for a chocolate or lemon granita.

To make the best Italian ice or sorbet, it's not necessary to use an ice cream maker. Actually, the Italian granita makers believe the best ices are made by hand, removing the ice from the freezer every hour and breaking up the crystals with a spoon, then returning the ice to the freezer and repeating this process three times before allowing the final freezing.

Whichever fruits you choose for your ice, make sure they are ripe. Making a simple sugar syrup is often the first step in the recipe. I prefer using a super fine sugar. It dissolves quickly and easily. If you can't find super fine sugar, traditional granulated cane sugar will be all right.

WHAT MAKES a sorbet or granita special? Most connoisseurs will tell you it must have a slightly grainy texture. Best way to achieve this is to first freeze the mixture without stirring. Then remove the ice when it

becomes firm and break up the ice crystals. This can be accomplished in one of many ways — either by hand with a spoon or fork, using an electric mixer or by tossing it in a food processor or blender.

If you are making large amounts, it will be easier and quicker to use the food processor. Placing the ingredients into an ice cream maker will result in a very smooth ice, which is not typical of granita but very suitable for a sorbet. All the recipes accompanying this article may be used with any ice cream maker. Just follow the manufacturer's instruction.

Serving any fruit ice should be done simply. The French love to serve their sorbets in a hollowed-out fruit shell such as oranges, lemons, limes or grapefruits. For a larger serving bowl, hollowed-out pineapples and melons are fun.

To prepare lemons and oranges, cut off the top 1/5 of the fruit and scoop out the fruit. Chill until ready to fill with the fruit ice. After filling re-freeze before serving and then garnish with a sprig of mint. Small bunches of mint and groups of fresh berries make an attractive garnish when serving individual scoops on a dessert plate.

Lighten up with ice cream

By Arlene Funke special writer

Are you a guilt-ridden ice cream freak who agonizes over each mouthful of the rich, fatty treat?

Well, dry those tears. There is no reason to deny yourself. Lowfat "light" ice creams and sweet, no cholesterol sorbets are as close as your supermarket freezer.

"It was brought about by customer demand," said Ron Larkin, 51, a sales manager for Stroh's Ice Cream in Detroit. "That seems to be the wave of the future."

This summer, Stroh's introduced several flavors of light, re-

duced-fat lee cream. The Farmington Hills-based Melody Farms has been marketing its "lite" line for about three years.

NEW LIGHT FLAVORS include the usual vanilla and neapolitan. But more voluptuous flavors are showing up too — peach

tan. But more voluptuous flavors are showing up too — peach almondine and chocolate raspberry. If you absolutely hate choicsterol, you might opt for a cherry sorbet from Savino Sorbet. The fruity, refreshing sorbet is totally fat-free.

Although there are slightly fewer calories in light ice creams,

"the blg difference is butterfat," said Stephen George, vice president of product development for the family-owned Melody Farms.

"The benefits will come from the lowered fat intake," said George, 40, a West Bloomfield resident. "There is a substantial difference in the fat, so cholesterol and fat would be lowered."

Regular ice cream contains hefty portions of cream, or half-andhalf, along with sugar and flavorings or nuts. U.S. government standards stipulate that Ice cream must contain at least 10 percent butterfat. Rich, premium Ice creams, such as Haagen Dazs, may contain up to 18 percent butterfat.

There are no specific government definitions of light ice cream, according to George. However, industry standards place light ice cream in the "ice milk" category, at around six percent butterfat or less

"Light is nothing more than ice milk," George said.

ACCORDING TO books in local county extension services, one cup (eight ounces) of vanilla ice cream contains 290 calories and 16 grams of fat. It also contains 30 grams of carbohydrates and almost six grams of protein.

Larkin said a four-ounce scoop of light ice cream contains from 100 to 130 calories, compared to 140 to 180 calories or more for regular ice cream. Stroh's offers eight flavors of light and Melody Farms has six.

Low-fat purists who turned up their noses at ice milk might be pleasantly suprised with the new light ice creams. Improvements have enhanced the flavor and texture, according to George. For example, non-fat dry milk is added to give the texture "chew," more closely resembling regular ice cream.

"Good quality ice cream has less air," George said. "They (ice milks) are formulated so there is less air, and it doesn't get so granulated. Nowadays people want exotic flavors, with less fat."

Please turn to Page 3

PINEAPPLE-ORANGE SORBET Serves 10

35 cup water 35 cup granulated sugar 1 pineapple or 1 20-ounce can crushed plneapple 2 cups orange juice 2 teaspoons grated orange rind

In a saucepan, combine water and sugar; simmer until sugar dissolves.

LIP-TINGLING BARBECUE

SAUCE FOR RIBS

35 cup brown sugar

4 tablespoons honey

14 cup vinegar 32 cup water

1/2 cup ketchup

2 cloves garlic, smashed

2 tablespoons Worcestershire

I teaspoon fresh-grated ginger

Chef Larry gives

rib sauce recipe

1 tablespoon lemon or lime juice

The first two recipes are taken Peel pineapple and cut into quarters; puree quarters or undrained pineapple in food processor.

In a bowl combine sugar syrup, orange juice, pineapple, rind and lemon juice. Freeze in an ice cream maker following manufacturer's instructions. Alternately, transfer to metal pan and freeze until barely

Then either process in food processor or beat with electric mixer until smooth. Transfer to freezer container and freeze until firm. To serve: 'remove from freezer 15-30 minutes before serving or until mixture is soft enough to scoop.

35 teaspoon dry mustard

Combine all ingredients in a

saucepan over low heat. Stir until it

begins to-gently bubble. Continue

cooking until the sauce coats the

back of a spoon, about 10 minutes.

Cool and store in a jar until needed.

dash salt

Serve on dessert plate surrounded with-fresh berries or in sherbet glasses, each garnished with its own fruit or fresh mint leaf.

> KIWI SORBET Serves 10

12 kiwi 1 cup granulated sugar 1 cup water 1 tablespoon lemon juice

Using a-sharp knife, peel kiwi; puree in food processor or pass through food mill and place in bowl.

In a saucepan bring sugar, water and lemon juice to boil, stirring occasionally until sugar has dissolved. Add to kiwi and mix well.

Freeze in ice cream maker following manufacturer's instruction. Alternately, transfer to metal pan and freeze until barely firm. Then either process in food processor or beat with electric mixer until smooth. Transfer to freezer container and freeze until firm.

To serve: remove from freezer 15-30 minutes before serving or until mixture is soft enough to scoop. Serve on dessert plate surrounded with fresh berries or in sherbet glasses, each garnished with its own fruit or fresh mint leaf.

> STRAWBERRY SORBET Serves 6-8

2 quarts or about 6 cups washed, hulled strawberries 135 cups superfine or granulated

sugar 1/2 cup water 15 cup orange juice

2 tablespoon Grand Marnier juice of 1 lemon 6 strawberries for garnish

In a bowl mix berries, sugar, juices, water. Puree in a blender. Add Grand Marnier. Pour into a metal pan or ice cube trays and freeze until almost firm. Remove

Melody Farms has a dairy in Lansing and a 250-employee plant in ing diehards who have to have the Livonia, where ice cream, cottage cheese and milk are packaged. Corporate offices are in Farmington

CUSTOMER RESPONSE has en- tion, is launching a line of frozen

couraged manufacturers to expand their choices of low-fat frozen desserts, but they certainly aren't ignor-

Stroh's Brewery, which began making ice cream during Prohibi-

lowfat yogurt this month. Melody Farms, which sells 18 regular ice cream flavors, now is touting its premium Prestige label. At 1232 percent butterfat, the Prestige line offers luxurious flavors such as white chocolate, raspberry fudge

and strawberry cheesecake sorbet. Light ice cream "can never dupli-

cate Haagen Dazs," George said. "In some cases, it's defeating the purpose."

Matching the enthusiasm of local ice cream manufacturers is Lou De-Cillis, owner of Savino Sorbet Inc.

Sorbet is a sweet, fruit-based dessert also know as Italian ice. Sorbet - unlike sherbert, which it resembles in texture — contains no milk, so is fat-free.

"When I first started, I would tell people that sorbet contains no fat and is cholesterol-free," said De-Cillis, 39, of Southfield, a chef and graduate of the prestigious Culinary Institute in New York.

"They would say, 'So what?' Now their eyes light up. Our time has juice and sugar, is a typical Italian confection. DeCillis, originally from New York, was a boy when he ate his first lemon ice from an Italian sweet shop in Brooklyn.

DE CILLIS savored that sweetbut-tangy, refreshing taste of sorbet. Around 10 years ago he came to Michigan and started his sorbet business. His recipes were tested by the HeartSmart program at Henry Ford Hospital's Heart and Vascular Insti-

Sorbet has around 160 calories per four-ounce scoop. Savino sorbets are available at several restaurants and ice cream parlors. Five flavors, sold in pint cartons, include lemon.

Sorbet, made from water, fruit or tangerine, Michigan cherry, chocolate and red raspberry.

Currently Savino ices are manufactured, packaged and distributed. by Stroh's. DeCillis has a sales office in Plymouth.

Savino ices have turned up on the tables of some pretty influential people. They were served to King Gustav of Sweden when he visited the Detroit area, and President George Bush sampled some on a local campaign stop.

Stroh's Ice Cream is available at' most major supermarket chains. Both Melody Farms and Saving-Sorbets are sold in larger independent food chains and special-

Soapwort — a weed with many benefits

As my daughter and I rode our bicycle along Farmington Road across from the Livonia Police Station, I noticed a cluster of wildflowers known as bouncing bet, or soapwort. They often grow in large patches in disturbed areas during the summer.

Though soapwort can be found throughout southeastern Michigan now, native Americans wouldn't have known about this flower in the 1700s. Soapwort is an alien. Not from outer space, but from Europe.

Many of our wildflowers, often known as weeds, grow in areas where man has disturbed the natural

soil and many were brought from Europe to serve a purpose. To get a rough idea of how many alien plants are found in eastern North America, I counted 53 alien plants out of 342. Though the sample is small, approximately 15 percent of the wildflowers we see today were brought from Europe, intentionally or unintentional-

Soapwort was brought over intentionally because of its long history of use. When the leaves are crushed in water and mixed, they produce a foamy lather. This soapy quality and its cleaning properties were known since the Middle Ages. It was brought from France and Germany to England by friars, who planted it near their monasterles and hospitals.

Textile mills used a soapwort so-

lution to whiten fabric before it was printed. It was also used to brighten china and glass. According to one source, a solution made from soapwort leaves is used for this purpose even today.

There are several other qualities of this plant which made it beneficial to man. It has a pleasant fragrance, which was used to cover up the stench of some of the English streets that had poor sanitation.

Modern research has discovered that some chemicals found in soapwort are useful in treating

syphillis, jaundice and liver problems. Though the plant is moderately poisonous, medieval brewers used it to help put a head on their steins of

Before the advent of modern synthetics, man had to use plants and animals for producing products which he wanted and needed for survival. Today, the natural world provided there is some remaining is still a rich source of potential for

The writer is a naturalist at Independence-Oaks Park in Oakland County. He lives in Livonia.

Exchange students need homes

Exchange students Nikodemus Asplund and Maria Berron are eager to become the newest young ambassadors from Sweden and Spain when they arrive in the Detroit area next month to attend high school for a

The two students were selected for an academic year abroad by Educational Foundation for Foreign Study, a non-profit student exchange program based in Cambridge, Mass. Local foundation International Exchange coordinator Bob Gurney has been working to find homes for Asplund and Berron.

"In addition to being a good representative of Sweden, Nikodemus is eager to learn about American customs and become fluent in English during his exchange year. He's an excellent sportsman and is especially interested in applying his skills to baseball and football next year. As a Stockholm native coming to spend a year in the Detroit area, he will also enjoy comparing daily life in both urban areas," Gurney said.

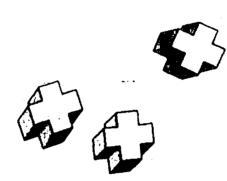

Seventeen-year-old exchange student Maria Berron said she is also going to take advantage of this opportunity and study and learn as much as possible while living with an area family.

Maria enjoys swimming, dancing and outdoors activities. With her interest in English and history, she hopes to work in an international office after graduation," he said.

Families interested providing a temporary home for Asplund or Berron can call Gurney at 895-0400.

GIVE BLOOD, PLEASE

Albertson returns to lead Churchill girls

By Steve Kowaiski staff writer

Don Albertson, the newly-appointed Livonia Churchill girls basketball coach, said he might hold a practice

Monday, August 14, 1989 O&E

today — and he might not. It depends on how many girls

"If there's not enough kids there I'll say 'Go home and bring your friends with you tomorrow," said Albertson, 46. "I already have some drills in mind but if you've got only five girls you have to do something

There are reasons behind Albertson's uncertainty.

ALBERTSON IS the third coach at Churchill in the last three years and he has had less than a week to prepare for practice, which officially begins today for fall sports.

have struggled recently, and interest in the program isn't high, anyway.

Albertson, a Canton resident, isn't a new face at Churchill. He coached the boys basketball team for eight years before resigning after the 1987-88 season, and he also coached the girls team earlier in the decade for five years.

Albertson replaces Dave VanWagoner, who last month resigned to become the boys basketball coach at Plymouth Canton. VanWagoner, in his only year at Churchill, guided the Chargers to an 8-13 record.

THAT WAS AN improvement on 1987, when Churchill finished 2-19, and lost to Farmington Hills Harrison, ending the Hawks 99-game losing streak.

Remember, too, the Churchill girls said. "For some of them it will be ic director Larry Joiner and princi-

'I feel for these girls. For some of them it will be their third coach in three years. Churchill has had a transient situation. Kind of like pop-in, pop-out sort of thing.'

> —Don Albertson new Churchill coach

their third coach in three years. Churchill has had a transient situation. Kind of like pop-in, pop-out sort of thing.

"I hayen't committed myself to 20 "I feel for these girls," Albertson years, but I sort of told-them (athlet-

pal Rod Hosman) that if things work out I would like to stay more than one year and give credence to the program."

Hosman said Albertson is the only Livonia Public School employee to have applied for the position.

A math and electronics teacher the last 17 years at Churchill, Albertson is scheduled to teach this fall at Riley Junior High.

Hosman said he also interviewed Lonnie Payne-Hines, who assisted VanWagoner last fall and was Churchill's junior varsity coach. He added that two others inquired about the position, but did not apply.

HOSMAN SAID Hines, who graduated in 1985 from Livonia Bentley, agreed to stay at Churchill in the same capacity as last fall.

"It was a real tough decision," Hosman said. "Lonnie's younger and has a little more spirit and Don has the experience. He's been a longtime girls and boys head coach and that's one of the things we looked at.

"He seemed to indicate a commitment to stay with the program for several years and try to make some stability for the program."

Albertson said the reason he resigned before last year as boys basketball coach was that he wanted to watch his son Mike play his senior year at Plymouth Salem.

"I WANTED to enjoy watching Mike play, and I couldn't do that coaching against him," Albertson said. "Both of my kids have left the nest, so to speak, and my wife works so what am I going to do from 3 to 6 every day, twiddle my thumbs? No. Go into coaching.

Albertson said he doesn't use a different approach in coaching girls.

"It will be the exact same situation," he said. "It's not a winning-atall-costs. I'm out there to teach the game of basketball and it's much like the game of life.

"I like to play a zone defense with girls with pressing. My teams will be organized.'

Wanna play?

Lack of entries threatens tourney

By C.J. Risak staff writer

Unless something dramatic happens between today and Wednesday, the last battle for supremacy in the womens Observer & Eccentric/ Whispering Willows Golf Tournament may have already been waged.

A year ago, it took a late surge of entries to save the annual tournament. It will take the same this time around; as of Friday, only eight players-were entered for the tourney, scheduled for Wednesday, Aug. 23.

Even with a late rally, there may not be much of a battle for top honors. The 1988 champion, Ann Lauer, originally from Birmingham but now living in Auburn Hills, returns to defend her title. However, her chief rival - Erica Zonder of Farmington Hills - won't be back.

Zonder is preparing for her sophomore year at University of Michigan. She was one of the Wolverines' top golfers last year, and has been working hard at getting even better.

"I've been playing a ton of golf all summer," she said. "I'm through now until school starts."

SHE'S NOT the only one who's been playing more and improving. What will no doubt be viewed with dismay by her challengers, Lauer has joined the Michigan Womens Publinx Association, and has trimmed her handicap from seven to

Lauer, who has played in the tournament since '83 and has won three titles, is hoping to get the chance to defend her title as best female golfer in the O&E area, although she's disappointed Zonder won't be entered.

"Everyone has a chance," said a philosophical Lauer. "But other than can be found in this section).

Erica, I just don't know who else there is. She was the No. 1 chal-

No one can give a single reason for slipping participation (35 or more every year until '88, when entries dipped to 22); rather, there of tournaments and leagues now available to women may be the big-

"Exactly," agreed Lauer, "There's more leagues, and there's definitely more tournaments. I would have had a problem if this tournament would have been on the 19th, because the State Publinx tournament is that

THEN THERE'S the increasing number of women in the work force, further reducing the field.

Lauer doesn't help, either. Other than Zonder and Geralyn Repasky of Livonia, who became a teaching proafter the '85 tournament and is ineligible, no one has been a serious threat to win the title.

"You get me and Ann out of there and it would probably be fairer for everyone else," said Zonder.

Several players complained about midday tee times last year, which meant players had to compete during the hottest, and slowest, part of the day. That should be less of a problem this year, with the tournament date changed from a Saturday to a Wednesday, a switch that was made in an effort to attract more

So far, the move hasn't worked. But there's still time; entries will be accepted until 6 p.m. Wednesday. Remember: Prizes will be awarded in three flights, and the \$22 fee includes a free lunch (an entry coupon

Ann Lauer, the defending O&E womens champion, plans on playing in this year's tournament — if there are enough chal-

GVSU picked to win GLIAC

By C.J. Risak staff writer

Everything concerning Grand Valley State's football team seemed healthy - until Wednes-

The Lakers were 7-4 in each of the past two seasons and went 3-2 in the Great Lakes Intercollegiate Athletic Conference last year. They return their top four ground gainers and their starting quarterback, and five of their top six receivers. Their defense, too, looks solid.

So what's to complain about? Because all coaches love to be ranked No. 1, but at the end of the season, not the beginning.

"It's the kiss of death," said GVSU coach Tom Beck after his team was picked to win the title at Wednesday's GLIAC media meeting in Lansing.

Not that the Lakers were runaway choices. The coaches figure the 1989 season, the last for GLIAC football (the six teams will merge with the five-team Heartland Conference next year to form the Midwest Intercollegiate Football Conference), to be a three, four or five team race, with only Wayne State not considered a serious threat.

GVSU got three first-place votes and totalled 22 points. Next was Northern Michigan with 21 points (one first-place vote), followed by defending GLIAC champ Hillsdale with 20 (two firsts). Saginaw Valley State was fourth (13), Ferris State was fifth (eight) and WSU sixth (six).

THE LAKERS solid corps of returnees made them the obvious choice, although Beck wasn't so sure his squad deserved the dubious honor.

"I really think it is an outstanding, well-balanced league," the GVSU coach sald. "We're nor over-

football

confident, that's for sure."

A couple of reasons Beck's team was selected No. 1 are sophomore tight end Bob Mitchell (6-foot-5, 235-pounds), from Bloomfield Hills (Birmingham Brother Rice), and junior tailback Ike Lipsey (6-0, 195), from Southfield (Southfield-Lathrup).

"He has an outstanding ability to catch the ball," said Beck of Mitchell, who tied for the team lead with. 35 receptions for 456 yards and one touchdown as a freshman. "Andhe's an excellent blocker. Our coaches think he could be starting at Michigan State. He's a pro pros-

Lipsey's statistics were glowing, too. He finished with a team-best 766 yards rushing on 133 carries (a 5.8 average), scoring three TDs. He also caught 11 passes for 83 yards.

IF GVSU, which returns sophomore quarterback Jack Hull (136 out of 261 for 1,869 yards, 52:1 percent, with 13 TDs and nine interceptions), has a weakness, it's depth everywhere on defense except at linebacker.

Having senior safety Mike Slazinski (6-4, 195), from Farmington Hills (Southfield-Lathrup), back after redshirting in '88 after a knee injury, will help.

"I know it's going to be a tough year," he continued. "I know our opponents will be tough, and I know this is a preseason poll, nothing more. We're taking nothing for i granted."

Please turn to Page 3

Walter's 1-1 in Johnstown Tourney

By Brad Emons staff writer

JOHNSTOWN, Pa. ,- Walter's Home Appliance manufactured three of its four runs Sunday, but Waterbury, Conn., produced an 8-4 victory over the Livonians in the second round of the All-American Amateur Baseball Association Tourna-

Walter's, however, still remains alive in the third round of doubleelimination play as a result of their tournament-opening 11-7 victory Saturday over Brooklyn, N.Y.

In the winner's bracket tussie Sunday at Conemaugh Valley High School, Waterbury overcame a 3-0 deficit, scoring six times in the sixth inning to pull out the victory.

Livonia answered with one in the seventh when Damian Hull raced home after slipping away from a rundown, but Walter's left the bases loaded as reliever George LaCapra got pinch hitter Rick Rutledge on

pop-out to third; ending the inning. Waterbury then scored a pair of insurance runs in the top of the ninth

to put the game away. "I thought we played good ball, but our pitchers just got a little behind on the hitters," said Walter's manager Mike Keller. "Even though we lost, we were moving the ball around and still working things that made us successful this season."

WALTER'S STARTER Derek Darkowski, a pickup from Livonia Colleglate Baseball League rival Hines Park Lincoln/Mercury, was plagued by control problems right from the

The Michigan State University left-hander worked out of a bases loaded jam in the first before settling down over the next four innings.

But in the sixth he encountered control problems again. (His only saving grace was a couple of nifty pickoff moves, one in the first and another in the fifth, to keep Waterbury at bay.)

Darkowski, who walked nine, issued free passes to the first three batters he faced in the sixth before Mike DesJardins tagged him for an RBI single, an 0-2 pitch to make it 3-

"Derek threw a lot of pitches," Keller said. "I think he got a little tired."

baseball

Darkowski was lifted in favor of rellever Steve Owens, who found the going just as tough.

OWENS GAVE UP a sacrifice fly, slicing the margin to 3-2, before allowing a costly a bloop single down the right field line to Waterbury's ninth hitter, Mike Deanzerls, leading to two more runs.

Jim Mrowka then tripled in a run and Ken Russo singled in another, glving Waterbury a three-run

"That 'Texas Leaguer' definitely hurt us," Keller sald, "The (final) outcome was a matter of a couple balls. The bloop single was one for sure."

Walter's, the LCBL's third place team which went on to win three straight in the playoffs, qualifying for Johnstown, worked their magle in the fourth, scoring twice.

Art George, the former Redford Thurston High product now playing for the University of Evansville, stoled home for the game's first run.

Joe Sturtz and Dave Houghtby each walked before Tim Crabtree, the catcher from MSU, delivered an RBI single.

In the fifth, George and Gotts each singled, executed a perfect hit-andrun play, followed by a double steal, making it 3-0.

But other than an unearned run in the seventh, Livonia was stymied by LaCapra, who worked the final three innings to pick up the save in relief of starter Dave Adams of Central Connecticut State.

"HE (LaCAPRA) has started and relleved, and done the job for us the last three weeks," said Waterbury coach Dick Yuskas. "He's not overpowering, but has a good breaking

Walter's got off to a winning start, clobbering Brooklyn, N.Y., 11-7, as Sturtz, the left fielder from North Farmington High, headed for Indiana University, had a big day. The right-handed slugger went 3-for-5 with five RBI. (The game was played at Highland Field.)

George added three hits and scored four runs, while Gotts, the Redford Catholic Central High grad now at Eastern Michigan University, added two hits.

Randy Buchler, the Walter's starter, was the winning pitcher. Staked to a 6-0 lead after three innings, Buchler worked five innings before giving way to Owens and Chris Kloc, the latter picking up a save, throwing 2% innings of scoreless relief.

DETROIT ADRAY APPLIANCE another team in Johnstown with area ties, also broke even (1-1) over the weekend.

On Saturday, Appliance, managed by former Redford Union High coaches Bob Atkins and Stu Rose, ripped Youngstown, Ohio in seven innings (mercy rule), 12-0.

Livonia Churchill High's Lance Sullivan, now at the University of Detroit, went 2-for-4 with three RBI. Teammate Rick Karcher, who went to North Farmington and now plays for Henry Ford Community College, also had three hits and homered.

Clint Straub (Westland John Glenn High) added a pinch-hit two-run single, while Mike Heard (Wayno Memorial High and Siena Helghts College) scored a pair of runs.

But Straub, the right-hander who recently dropped out of Western Michigan University to return home to Henry Ford CC, was knocked around on the mound in an 11-4 loss to perennial power New Orleans, the feature game Sunday afternoon at the downtown Point Stadium.

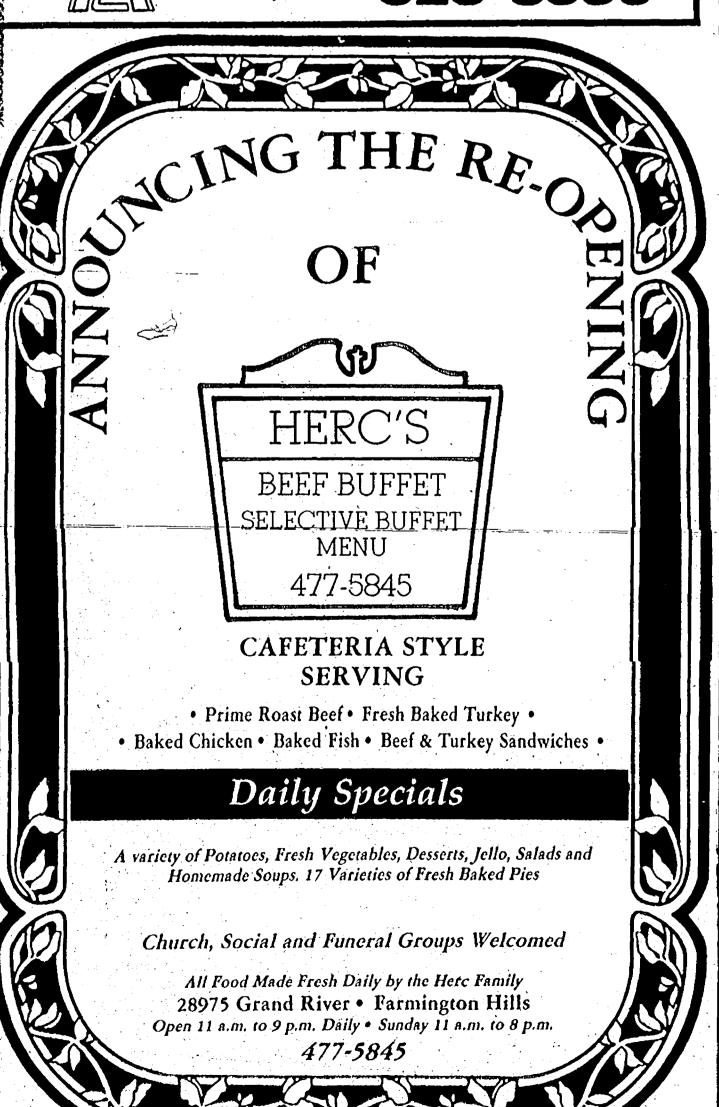

Straub gave up five quick runs in the first before being lifted. New Orleans increased its lead to 9-0 before Detroit was able to get on the score board.

WITH THE 22-TEAM field sliced. to 17 today, action finds Livonia meeting Youngstown, as right-hand. er Joe Macklewicz, the CC product. from Kalamazoo College, slated to. start at the 10,000-seat Point Stadium.

Detroit, meanwhile, will take on host Coca-Cola of Johnstown in a. game at Vo-Tech High School.

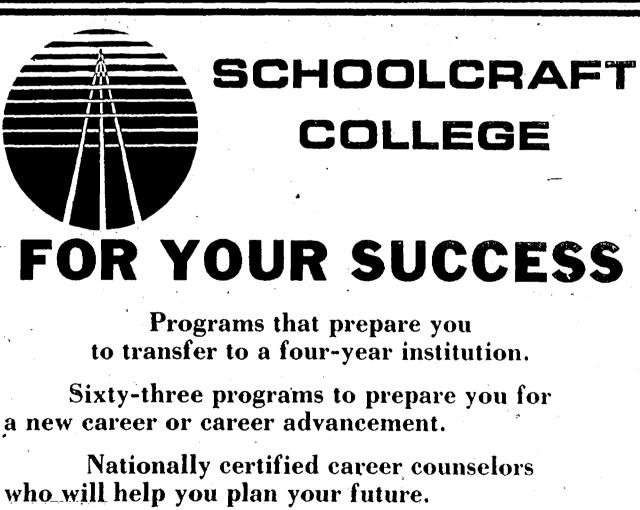

The AAABA is marking its 45th year of tournament play. The City of Johnstown is also commemorating the 100th year of the famous flood.

sports roundup

O ACES ALL

Matthew Ciampa of Livonia got more than he bargained for when he teed off at Livonia's Fox Creek Golf Course recently. Ciampa scored a hole-in-one, and with it qualified for the top prize in the 28th-annual Drambuie Rusty Nail Hole-in-One Sweepstakes, a national competition sponsored by Drambuie Liqueur Co. of Edinburgh, Scotland.

The prize Ciampa could win is a free trip for two to Scotland and \$1,000 in cash. He'll have to wait, however; the winner won't be announced until early next year, and more than 10,000 people record aces annually.

• Edward Gawronski, 51, of Livonia was another to get an ace. Gawronski got his at Idyl Wyld last Thursday evening, on the 123-yard 14th

O NEW COACH

During his playing days at Albion College, Steve O RUNNERS NEEDED Freier, from Garden City, earned four letters as a linebacker and was an all-Michigan Intercollegiate Athletic Association first-team selection as a

All of which made him a good choice to coach the outside linebackers at Muskingum College in New Concord, Ohio. Freier graduated from Albion last spring with a bachelor of arts degree in physical education and history

O SOCCER MVPS

Charlie Roberts and Steven Williford, both of Livonia, received most valuable player awards at the Michigan Soccer School of Excellence Camp. Roberts attends Frost Middle School; Williford is a student at Tyler Elementary School. They competed against 120 other campers.

O JUNIOR WORLD SERIES

Youngsters from all over the nation, and the O SOFTBALL TOURNEY world, will descend upon Taylor this week for the ninth-annual Junior League World Series, which

will feature eight teams in a double-elimination tournament starting today and continuing through Saturday at Taylor's Sheridan Community Center field (near North Line and Allen roads).

Last year, a team from Mexicali, Mexico claimed the tourney title; the year before, a squad from Rowland Heights, Calif., won. Thisk year, teams from Canada, Puerto Rico and Mexico will go against top teams from across the country and a Michigan representative.

Two games will be played today, the first featuring Mexico against a West representative at 5 p.m.,-with Puerto Rico going against Canada at 8 p.m. Two more games will be played Tuesday at 5 and 8 p.m., with four games Wednesday (11 a.m. and 2, 5 and 8 p.m.), three games Thursday (2, 5 and 8 p.m.) and two games Friday (5 and 8 p.m.).

Saturday's 5 p.m. game could be for the championship; if another game is necessary, it will be played at 8 p.m.

Admission is \$2 per car, per day.

The University of Detroit has financial aid athletic scholarships available for men's cross country runners in good academic standing for the upcoming school year.

Any interested runners should contact the U-D athletic department at 927-1700 or coach Earl Clark at 399-1848. The Titans are members of the Midwestern Collegiate Conference; their cross country season begins in September and lasts until November.

O GOLF FUND-RAISER

The Capuchins Retreat House's 3rd-Annual Charity Golf Outing is Friday, Aug. 18, at the St. Clair Golf Club. Golf fees and dinner cost \$50. Dinner only is \$25. Proceeds are used to sponsor retreats 10 months of the year for junior and senior high school students. For more information, call (313) 329-9011.

Men's and women's softball teams are being

sought for the 15th-annual Allen Park Labor Day Weekend Softball Tournament. The double-elimination tournament will be Sept. 2, 3 and 4 at Champaign Park in Allen Park.

Entree fee is \$65 per team, plus \$10 per game for umpires. Team and individual awards will be presented. Interested teams should contact Rick Sparks at 675-3219.

O SOCCER TRYOUTS

Practice for Redford Union High School's varsity boys soccer team begin Monday and continue throughout the week from 5:30-7 p.m. at Pearson Community Center on Beech Daly. Anyone interested in playing should attend. Call Al Burnham at 533-0288 for more information.

O GLENN GOLF MEETING

. A meeting regarding tryouts for the Westland John Glenn High boys golf team will be at 2 p.m. Wednesday in Room 188.

For more information, call coach Dan Burtka at 595-2357 or 981-1752.

O STEVENSON TENNIS

Practice for the girls tennis team at Livonia Stevenson High will begin at 9 a.m. Monday, Aug.

Information sheets and health forms are available at the school office.

O LADYWOOD TRYOUTS

Livonia Ladywood High School has announced its fall sports tryout schedule: varsity basketball, 9 to 11 a.m., Monday, Aug. 14 (gym); JV basketball, 11 a.m.-1 p.m., Monday, Aug. 14 (gym); freshman basketball, 1-3 p.m., Monday, Aug. 14 (gym); cross country, 4-6 p.m., Monday, Aug. 14 (at school); and tennis, 3-5 p.m., Thursday, Aug. 17 (Livonia, YMCA).

For more information, call athletic director Kim Linengér at 591-1544.

ers, 10-2 overall in '88 and 5-0 in the GLIAC, may have lost 24 lettermen rushing a game last fall. but hopes remain high.

better than that."

of his top six rushers and two of his three leading receivers. "I don't like to say we're rebuilding, but reloading," sald Lowry.

With five offensive and five defensive starters back, the early part of the schedule - they open with St. Francis at home, then go to Carson-Newman and NMU - could make or break the Chargers. One player Lowry will be depending on is senior last season and recovered a fumble. "Our defense has always been

Strong at Hillsdale," said Lowry. Defense will be a different story at SVSU. Coach George Ihler figures If his team can stop anybody, it can

"We have seven players with some starting experience back on defense, but it's an area we definitely have to work at," he said. "Our offense is going to have to carry us. We're ball games."

THE CARDINALS (4-5 overall, 2-3 15-of-21 in his career. in the GLIAC in '88) have their entire

junior guard Rick Forsythe (6-2, 242) from Detroit (Redford Catholic Cen-Including Hillsdale, which is in the tral) and junior center Don McAnelly title picture every year. The Charge (6-2, 245) from Troy (Athens). The pair helped SVSU gain 270 yards

Others who could have an impact "I like where we're picked," said for SVSU are sophomore cornerback coach Dick Lowry. "I like being Brian Tiller (5-8, 165), from Plympicked third, but, gosh, I hope we're outh (Salem), who had one interception last year in part-time duty, and a pair of redshirt freshmen from IF THEY are going to be, Lowry Livonia Clarenceville, Darin must replace his quarterback, three DeRoeck (6-1, 205) and Gregg Buell (6-3, 203). Both are challenging for the top kicking positions, DeRoeck as placekicker and Buell as punter.

FSU coach Keith Otterbein, a Southfield-Lathrup grad, was not at all pleased by his team's preseason ranking. "To me, the future is now," he said. "I was disappointed we didn't win more last year."

THE BULLDOGS finished with a putside linebacker Kurt Graves (6-1, 4-7 slate in '88, just 1-4 in the GLI-205) from Holly (Bloomfield Hills AC. With eight offensive and nine de-Cranbrook). Graves had 73 tackles fensive starters back, Otterbein is expecting much better.

One of his top offensive threats will be junior tailback Delbert Littlejohn (5-9, 170), from Rochester (Adams). Littlejohn gained 298 yards rushing on 57 carries (5.2 average), scoring four touchdowns. "Delbert Littlejohn is very capable at tailback," said Otterbein.

If the Bulldogs get close enough, junior placekicker Tony Svaluto, from Westland (John Glenn), will put going to have to score points to win points on the board. Svaluto hit eight-of-nine field goal tries in '88, scoring 31 points; he has converted

"I think we're ready," said Otoffensive line returning, including terbein. "I've very excited about our

SOLID WOODS

Oak, Cherry

and Birch

chances. Our goal is to win the GLI-AC, no matter where we're picked." At WSU, talk still centers around fund-raising (it is "now well-established," according to coach Joe

Horn, who almost had his program cancelled in his first season) and the impact television exposure - several WSU games will be televised on Channel 62 this fall — will have.

THE TARTARS, 2-8 overall and winless in five GLIAC games last season, return seven offensive and eight defensive starters. Also back, after missing a year due to academic deficiencies, is senior defensive end Tony Beaune (6-4, 270) from Livonia (Stevenson). Beaune was second team all-GLIAC in '87 and led his team in tackles.

Tony Beaune will be back to anchor our defensive line," said Horn. "And that will be the strongest part of our defense."

The line will also be the strength of the offense. Senior Chuck Crespi (6-2, 250), from Livonia (Catholic Central), switches back to guard after a year at center and is a key to the line play. The other guard spot will be filled by sophomore Todd Vydick (6-0, 230), from Auburn Hills (Avondale), a starting linebacker last season.

The receiving corps will depend on sophomore wide receiver Shannon Sparks (6-2, 170), a returning starter from Southfield (Lathrup) who caught eight passes for 88 yards in '88, and senior backup tight end John Jessing (6-5, 230), from Detroit (Troy Athens), who had three catches for 35 yards and a TD.

The battle for first-string punter is wide open, and freshman Joe Delfgauw, who averaged 40.6 yards a kick last year for Redford Union, has a shot at the stafting spot.

"We'll be a much better football team, that I can guarantee," said Horn. "But out schedule is much tougher.

"We're getting there, I know it."

CITY OF GARDEN CITY NOTICE OF HEARING ON PROPOSED ORDINANCE

The following Ordinance (known as the Wastewater Discharge Control Ordinance) amending the Code of the City of Garden City has been proposed. A Public Hearing has been scheduled for August, 21, 1959, at 6.30 P.M., in the Council Chambers of the City Hall, 6000 Middlebelt Road, to provide Public comments on the proposed ordinance.

RONALD D. SHOWALTER

THE CITY OF GARDEN CITY HEREBY ORDAINS:

Thai Section \$1.01 of Chapter \$1, Title V, of the Code of the City of Garden City be amended to read as

\$1.01 DEFINITIONS. For the purpose of this chapter the following definitions shall apply unless the context clearly indicates

or requires a different meaning. "BUILDING DRAIN." That part of the lowest borizontal piping of a drainage system which receives the discharge from soil,

waste, and other drainage pipes inside the walls of the building, and conveys it to the building sewer, beginning five feet outside the inner face of the building wall.
"BUILDING SEWER."

The extension from the building drain to the public sewer of other place of disposal. "COMBINED SEWER."

A sewer receiving both surface repost and sewage. "DEPARTHENT." The Department of Public Services of the City.

"DIRECTOR." The Director of Public Services.

Solid wastes from the preparation, cooking and dispensing of food, and from the handling, storage, and

"INDUSTRIAL WASTES." The liquid wastes from industrial processes, as distinct from sanifary sewage.

"NATURAL OUTLET." Any cutlet into a matercourse, pood, ditch, laké, or other body of maler; either surface or ground mater.

PROPERLY SHREDDED GARBAGE. The wastes from the preparation, cooking, and dispensing of food that have been cut or shredded to such a degree that all particles will be carried freely under flow cooditions normally prevailing in public sewers, with no particle greater than one-half inch in any dimension.

"PUBLIC SEWER." A sever in which all owners of abutting properties have equal rights, and is controlled by public

SANTTARY SEWER." A sewer which carries sewage, and to which storm, surface, and ground waters are not intentionally admitted.

"SEWAGE" A combination of the water-carried wastes from residences, business buildings, institutions, and industrial establishments.

A pipe or conduit for carrying sewage. "STORM SEWER" or "STORM DRAIN."

A seffer which carries storm and surface runoff waters and drainage, but excludes sewage and polluted

"WATERCOURSE." Any channel in which a flow of water occurs, either continuously or intermittently Except as berein modified, said ordinance shall remain in full force and effect.

This amendatory ordinance is declared to be effective upon publication as required by law.

WASTEWATER DISCHARGE CONTROL ORDINANCE

Sec. 54.01 PURPOSE

a) The purpose of this ordinance is to protect the Public Health and Safety by abating and preventing pollution through the regulation and control of the quantity and quality of wastes admitted to or discharged nto the wastewater collection and treatment system to the City of Garden City and the City of Detroit (POTW) and to enable the City of Garden City and the City of Detroit as control authority to ble State and Federal Laws required by the Federal Wa (33 U.S.C. 1251, ET SEQ.) and the General Pretreatment Regulations (40 CFR, Part 403). b) The Objectives of this ordinance are.

1)To prevent the introduction of pollutants into the POTW which will interfere with the operation of the system or contaminate the resulting sludge or will pose a hazard to the health or welfare of people or to employees of the City of Garden City or the City of Detroit Watr and Sewerage Department, 2) To prevent the introduction of pollutants into the POTW which will pass through the system inade-

quately treated and into the receiving waters, the atmosphere, the environment, or will otherwise be accompatible with the system; 3) To improve the opportunity to recycle or reclaim wastewaters or sludges from the system in an economical and advantageous manner, and

E Is provide for the recovery of costs from the users of the Detroit POTW sufficient to administer regulatory activities and meet the costs of the operation, maintenance, improvement, or replacement

c) LTR.s ordinance regulates the contributors to the Detroit POTW through the issuance of wastewater discharge permits to certain users and the enforcement of general requirements for all users, authorizes

monitoring and enforcement, and authorizes fees and penalties. See, \$1.02 AUTHORITY

By virtue of the obligations and authority placed upon the City of Garden City and the City of Detroit by the Federal Water Pollution Control Act, also known as the Clean Water Act, as amended (33 U.S.C. 1251, ET SEQ.); the Constitution of the State of Michigan; Michigan Public Act 245 of 1929, as amended; the Charter of the City of Garden City, the National Pollutant Discharge Elimination System (NPDES) permit for the City of Detroit POTW; the Federal District Court consent judgement pertaining to U.S. EPA V. CITY OF DETROIT, BT AL., C.A. NO. 77-1100, as amended; the Urban Cooperation Act of 1967, as amended; Public Act 35 of 1951, as amended; and existing or future contracts between the Board of Water Commissioners and the City of Garden City, or by virtue of common law usage of the system, this ordinance shall apply to every applicable user contributing, or causing to be contributed, pollutants or wastewater to the Detroit POTW within the Jurisdictional Boundaries of the City of Garden City.

Sec. 54.03 DEFINITIONS Unless the context specifically indicates otherwise, the following terms and phrases, as used in this ordinance, shall have the meanings bereinafter ascribed to them:

a) Act or The Act shall mean the Federal Water Pollution Control Act, also known as the Clean Water Act

of 1977, as amended, 33 U.S.C. 1251, ET SEQ. b) Authorized representative of industrial user shall refer to (1) a corporate officer, if the industrial user is a corporation; (2) a general partner or proprieto, if the industrial user is a partnership or proprietorship. respectively, or (3) a duly authorized representative of the individual designated in either of the above, if such representative is responsible for the overall operation of the facilities from which the indirect discharge originates or is the identified corporation, partnership, or proprietorship representative for

responding to such discharge inquires or action. c) Biochemical Oxygen Demand (BOD) shall mean the quantity of dissolved oxygen utilized in the blochemical exidation of organic mater under standard laboratory procedure five (5) days at 20 degree centi grade expressed in terms of weight and concentration (milligrams per Liter (mg/1) as measured by diBoard shall mean the Board of Water Commissioners of the City of Detroit.

e) City shall mean the City of Garden City or the City Concil of the City of Garden City or their authorized representatives or employees, unless otherwise specified.

f) Compatible Poliutant shall mean BOD (Biochemical Oxygen Demand), FOG (Fats, Oils or Grease), phosphorus, suspended solids, and fecal coliform bacteria, plus other pollutants which do not exceed the control Authority's interference or pass-through limitations or the limitations of this ordinance.

g) Composite sample shall mean a series of individual samples of equal volume or flow-proportioned volume taken over a specified time period at specified intervals which are combined into one sample or the equivalent of the foregoing as determined by the control authority. The arrangement of the sample series shall be tailored to the specific circumstances of the wastestream being tested and shall reason ably reflect the characteristics of the wastestream at the time of each individual sample.

h) Control authority shall mean the Detroit Water and Sewerage Department (DWSD) which has been officially designated as such by the State under the provisions of 40 CFR 403.12 or authorized reprsentatives or employees of the DWSD.

1) Cooling water shall mean the non-contact pater discharged from any use such as air conditioning, cooling, or refrigeration to which the only postutant added is heat.

1) Day's shall mean, for purpose of computing a period of time prescribed or allowed by this ordinance,

consecutive calendar days. h) Direct discharge shall mean the discharge of treated or untreated wastewater directly into the waters of

the State of Michigan. I) Director shall mean the Director of the Detroit Department of Water and Sewerage or the Director's

m) Environmental Protection Agency or EPA shall mean the United Staes Environmental Protection Agency or, where appropriate, the term may also be used as a designation for authorized representatives

or employees of the EPA. n) Fats; oil, or grease (FOG) shall mean hydrocarbons, fatty acids, soaps, fats, waxes, oils, and any other pon-volatile material of animal, vegetable, or mineral origin that is extractable by solvent in accordance with standard methods.

o) Flow proportional sample shall mean a composite sample taken with regard to the flow rate of the p) Grab sample shall mean a sample which is taken from a wastestream on a one-time basis without

regard to the variations in flow rate but which shall reasonably reflect the characteristics of the wastestream at the time of sampling. a) Indirect discharge shall mean the discharge or the Introduction of pollutants from any nondomestic source; regulated under section 307(b), (c) or (d) of the Act (33 U.S.C. 1317), into the POTW.

r) Industrial user shall mean a person who contributes, causes, or permits wastewater to be discharged into

the POTW from a place of business, endeavor, arts, trade, or commerce, whether public or private, commercial or charitable. Single Family and Multi-Family Residential dwellings are specifically exs) Industrial waste shall mean the discharge into the POTW of any liquid, solld, or gaseous waste or form of energy, or combination thereof, resulting from any processes of industry, manufacturing, business;

trade, or research, including the development, recovery, or processing of natural resources.

1) Interference shall mean a discharge by a usesr which, alone or in conjunction with discharges by other sources, inhibits or disrupts the POTW or its treatment processes or operations, or its sibdge processes, use, or disposal, and which causes a violation of any requirement of the POTW's NPDES permit (including an increase in the magnitude or duration of a violation) or of the prevention of sewag sludge use or disposal by the POTW in accordance with the following statutory provisions and regulations or permits issued thereunder (or more stringent state or local regulations): Section 405 of the Clean Watr Act; the Solid Waste Disposal Act (SWDA) (Including Title II, more commonly referred to as the Resource Conservation and Recovery Act (RCRA); and including state regulations contained in any state sludge managment plan prepared pursuant to sublitle D of the SWDA), the Clean Air Act, the Toxic Sustance

Control Act, and the Marine Protection Research and Sanctuaries Act. u) National Categorical Pretreatment Standard shall mean any regulation containing pollutant discharge limits promulgated by the EPA in accordance with Section 307(b) and (c) of the Act (33 U.S.C. 1317)

which applies to a specific class or category of industrial users.

v) National Poliutant Discharge Elimination System (NPDES) permit abalt mean a permit issued to a POTW pursuant to Section 402 of the Act (33 U.S.C. 1342).

w) New source shall mean any building, structure, facility, or installation from which there is or may be a discharge of pollulants, the construction of which is commenced after the publication of proposed National Categorical Pretreatment Standards under Section 207(c) of the Act which will be applicable to such source if such standards are thereafter promulgated in accordance with that section: n) Pass-through shall mean the discharge of pollutants through the POTW Into navigable waters in quanti-

ties or concentrations which, alone or in conjunction with discharges from other sources, is a cause of a violation of any requirement of the POTW's NPDES permit (including an increase in the magnitude or y) Person shall mean any individual, partnership, co-partnership, firm company, corporation, association,

joint stock company, trust, estate, unit of government, school district, or any other legal entity, or their legal representative, agent, or assigns.

a) off shall mean the intensity of the acid or base condition of a solution calculated by taking the negative base ten logarithm of the hydrogen ion activity. Activity is deemed to be equal to concentration in moles

aa) Pollutant shall mean any substance or energy added or induced into the user's water source.

bb) Polivilon shall mean the human made or human induced degragation or impairment of the chemical, physical, biological, or radiological integrity of water.

ce) Pretreatment shall mean the reduction of the amount of pollutants, the removal of pollutants, or the alteration of the nature of pollutant properties in wastewater to a less harmful state prior to or in tieu of discharging or otherwise introducing such pollutants into the POTW. The reduction, removal, or alteration may be attained by physical, chemical, or biological processes, or process changes by other means, except as prohibited by Federal, State, or Local Law, Rules, and Regulations.

dd) Pretreatment requirements shall mean any substantive or procedural requirements related to

ee) Public sewer shall mean a sewer of any type controlled by a governmental entity.

(f) Publicly owned treatment works (POTW) shall mean treatment works as defined by Section 212 of the Act (33 U.S.C. 1292), and as further defined herein. This definition includes any publicly owned sewers that convey wastewater to the Detroit POTW Treatment Plant.

gg) Publicly owned treatment works (POTW) treatment plant shall mean that portion of the POTW de-

pretreatment other than a National Categorical Pretreatment Standard imposed on an industrial user.

signed to provide treatment to wastewater including recycling and reclamation of wastewater. bh) Service area shall include any area from which the wastewater is treated at the City of Detroit POTW Treatment Plant

ii) Shall is mandatory, may is permissive. ji) Significant users shall mean any industrial user of the POTW as defined berein who (i) has a discharge flow of fifty thousand (\$0,000) gallons or more per average work day exclusive of stormwater and sanitary wastewater, or (ii) has discharges subject to the National Categorical Pretreatment Standards. or (iii) requires pretreatment to comply with the specific pollutant limitations of this ordinance, or (iv) has, in its discalarge, toxic pollutants as defined pursuant to Section 307 of the Act or other applicable Federal and State Laws and Regulations which are in concentrations and volumes that are subject to regulation under this ordinance as determined by the control authority, or (v) is required to obtain a permit for the treatment, storage, or disposal of hazardous waste pursuant to regulations adopted by the State or adopted under the Federal Solid Waste Disposal Act, as amended, by the Federal Resource Conservation and Recovery Act and any amendments thereto and who may or does contribute or allow waste or wastewater into the POTW including, but not limited to, leachate or runoff; or (vi) is found by the control authority to have significant impact, either singly or in combination with other contributing industries, on the POTW, the quality of sludge, the POTW's effluent quality, or air emissions generated

kk) Slug shall friean any pollutant released in a discharge at a flow rate and/or concentration which will cause interference or pass-through at the POTW as determined by the control authority.

II) Standard Industrial Classification (SIC) shall refer to a classification pursuant to the Standard Industrial Classification Manual Issued by the Executive Office of the President, Office of Management and Budget, 1972, as amended.

mm) Standard methods shall mean the labortaory procedures set forth in the latest edition, at the time of analysis, of Standard Methods Por The Examination Of Water And Wastewater prepared and published jointly by the American Public Health Association, the American Water Works Association, and the Water Pollution Control Federal, or methods set forth in 40 C.F.R. 138, "Guidelines For Establishing Test Procedures For Analysis Of-Pollutants." Where these two references are in disagreement on procedures for the analysis of a specific pollutant, the methods given in 40 C.F.E. 136 shall be followed.

nn) State shall mean the State of Michigan. oo) Stormwater shall mean any flow occurring during or following any form of natural precipitation and

resulting therefrom.

pp) Suspended Solids (TOTAL) shall mean the total suspended matter that floats on the surface of, or is suspended in, water, wastewater, or other liquids, and which is removable by laboratory filtration or as measured by standard methods.

(vi) Toxic Pollulant shall mean any pollulant or combination of pollulants designated as toxic in regula-tions promulgated by the Administrator of the U.S. Environmental Protection Agency under the provisions of Section 307(a) of the Clean Water Act, (33 U.S.C. 1317), or included in the Critical Materials Register promulgated by the Michigan Department of Natural Resources, or other Federal or State Laws, Rules and Regulations.

rr) Upset shall mean an exceptional incident in which there is unintentional and temporary noncompliance with limits imposed under this ordinance or with National Categorical Pretreatment Standards because of factors beyond the reasonable control of the industrial user. An usset does not include noncompliance to the extent caused by operational error, improperly designed treatment facilities, inadequate treat-

ment facilities, tack of preventative maintenance, or careless or improper operation. ss) User shall mean any person who contributes, causes, or permits the discharge of wastewater into the POTW as defined berein.

tt) Wastewater shall mean the liquid and water-carried industrial or domestic wastes of dwellings, commercial buildings, industrial facilities, and institutions, whether treated or untreated, which are contrib-uted to or permitted to enter the POTW. Wastewater may also contain infiltration and inflow waters and cooling water.

uu) Wastewater Discharge Permits are permits issued by the control authority or its designated representative as set forth in Sec. seven of this ordinance. vv) Waters of the State shall refer to all streams, lakes, poods, marshes, watercourses, waterways, wells,

springs, reservoirs, aquifiers, irrigation systems, drainage systems, and all other bodies or accumulations of water, surface or underground, natural or artificial, public or private, which are contained within, flow through, or border upon the State or any portion thereof.

THE FOLLOWING ABBREVIATIONS SHALL HAVE THE DESIGNATED MEANINGS:

BOD - Biochemical Oxygen Demand CFR - Code Of Federal Regulations EPA - Environmental Protection Agency

FOG - Fats, Oil or Grease

1 - Liter mg - Milligrams

mg/1 - Milligrams per Liter NPDES - National Pollutant Discharge Elimination System POTW - Publicly Owned Treatment Works

RCRA - Resource Conservation and Recovery Act

SIC - Standard Industrial Classification SWDA - Solid Waste Disposal Act, 42 U.S.C. 6901, ET SEQ

TSS - Total Suspended Solids USC - United States Code

Sec. 54.04 DELEGATION OF AUTHORITY

The City of Detroit Water and Sewerage Department, as the State approved control authority, is authorized to administer and enforce the provisions of this ordinance on behalf of the City. The City shall enter into a contract with the City of Detroit Water and Sewerage Department, which shall set forth the terms and cooditions of such delegated authority, consistent with this ordinance, and shall allow the City of Detroit Water and Sewerage Department to perform the specific responsibilities as control authority, pursuant to State and Federal Law. Sec. 51.05 DISCHARGE PROHIBITIONS

A) General Pollutant Prohibitions. No user shall contribute or cause to be contributed to the POTW, directly or indirectly, any pollutant or wastewater which will cause interference or pass-through. These general discharge prohibitions apply to all such users of the POTW whether or not the user is subject to National Categorical Pretreatment Standards or any other Federal, State, or local pretreatment standards or requirements. In addition, industrial users shall not contribute the following substances to the

interaction with other substances, to cause fire or explosion or be injurious in any other way to persons, the POTW, or the operation of the POTW:

2) Any solids or viscous substance, in concentrations or quantities which are sufficient to cause obstruction to the flow in a sewer or other encumbrance to the operation of the POTW, such as but not limited to: grease, animal guts or tissues, bones, bair, hides or fleshings, entrails, whole blood, feathers, ashes, cinders, sand, cement, spent time, stone or marble dust, metal, glass, straw, shavings, grass clippings, raga, stringa, fibera, spect grains, spect bops, wastepaper, wood, plastics, tar, asphalt residues, residoes from refining or processing of fuel or lubricating oil, mud or grass grinding or polishing wastes. or tumbling and deburing stones,

3) Unless more strictly limited in this ordinance, any wastewater having a pH less than 5.0 or more than 10.0 If the equivalent calcium carbonate alkalinity exceeds 300 mg/l or more than 10.5 if the equiva-lent calcium carbonate alkalinity is 300 mg/l or less. If an industrial user wisbes to have a pH limit of 10.5 they shall monitor both pH and alkalinity. 4) Any wastewater containing toxic pollutants in sufficient concentration or quantity either singly or by

interaction with other pollutants to cause interference or pass-through or constitute a hazard to 5) Any liquid, gas, or solid or form of energy which either singly or by interaction with other wastes is

sufficient to create a public nulsance or hazard to life or is sufficient to prevent entry into the sewers

for their maintenance and repair; 6) Any substance which is sufficient to cause the POTW's efficient or any other product of the POTW such as residues, sludges, or scurns, to be unsuitable for reclamation processing where the POTW is pursuing a reuse and reclamation program, in no case shall a substance discharged to the POTW cause the POTW to be in noncompliance with sludge use or disposal criteria guidelines or regulations developed under Section 405 of the Act, with criteria, guidelines, or regulations affecting studge use or disposal developed pursuant to the Solid Waste Disposal act, the Federal Clean Air Act, the Federal Toxic Substances Coolrol Act, or State criteria applicable to the sludge management method being

used; 7) Any substance which cause the POTW to violate the consent judgment in U.S. EPA V. City of Detroit, ET AL. C.A. No. 77-1100, or the City of Detroit's National Pollutant Discharge Elimination System 8) Any wastewater baving objectionable color not removed in the POTW treatment process, such as, but

not limited to, dye wastes and vegetable tanning solutions, 9) Any wastewater having a temperature which will inhibit biological activity in the POTW treatment plant resulting in interference, but in no case wastewater with a temperature at the introduction into a public sewer which exceeds 150 degree F (66 degree C) or which will cause the influent at the wastewater treatment plant to rise above 140 degrees F (40 degrees C); 10) Any pollutant which constitutes a slug-

11) Any wastewater containing any radioactive wastes or isotopes of such halflife or concentration as may exceed limits established in compliance with applicable State or Federal regulations; 12) Any floating fats, oil, or grease which are sufficient to cause interference with or pass through the

13) Any solid materials having a specific gravity greater than 1.2 or a cross-section dimension of oce-half loch (46.7) or greater which are sufficient to cause interference with the POTW. b) SPECIFIC POLLUTANT PROHIBITIONS. No industrial user shall discharge wastewater containing in excess of the following limitations: 1) Compatible Pollutants

a) Any Fats, Oil, or Grease (FOG) in coocentrations greater than 2000 mg/l based on the average of all samples collected within a twenty-four (24) bour period, b) Any Total Suspended Solids (TSS) in concentrations greater than 10,000 mg/l based on a composite

c) Any Biochemical Oxygen Demand (BOD) in concentrations greater than 10,000 mg/l based on a composite sample; d) Any phosphorus in concentrations greater than 500 mg/l based on a composite sample.

2) Non-compatible pollutants No industrial user shall discharge wastewater containing in excess of:

TOTAL ARSENIC (as)
TOTAL CADMIUM (Cd) 1.0 mg/l 2.0 mg/l TOTAL COPPER (Cv) 4.5 mg/l TOTAL CYANIDE (Co) 2.0 mg/ TOTAL LEAD (Pb) 1.0 mg/1 TOTAL MERCURY (Hg) 0005 mg/1 TOTAL NICKEL (Ni) 5.0 mg/l TOTAL SILVER (Ag)
TOTAL CHROMIUM (Cr) 2.0 mg/l 25.0 mg/ TOTAL 2INC (Za) 15.0 mg/l AROCLOR 1260 POLYCHLORINATED BIPHENYL (PCB)
PHENOLIC (4AAP) COMPOUNDS 0 0005 mg/l WHICH CANNOT BE REMOVED BY THE POTW TREATMENT PLANT AS DETERMINED BY THE EPA

AMENDMENTS THERETO. ALL LIMITATIONS ARE BASED ON COMPOSITE SAMPLES.

APPROVED METHOD OR

3) Commencing on or before July 1, 1988, no industrial user classified as a significant user shall discharge wastewater containing total from in excess of 1000 mg/l based on a composite sample. Industrial users having total from discharge concentrations greater than 1000 mg/l shall submit a compliance schedule by July 1, 1987, for achieving the 1000 mg/l limitation by July 1, 1988. This limitation shall not apply to the discharge of internal circulating water from heat exchangers during the cleaning cycle.

c) NATIONAL CATEGORICAL PRETREATMENT STANDARDS. National Categorical Pretreatment Standards and requirements promulgated pursuant to the Act by the effective date of this ordinance shall be met by affected dischargers provided, however, that if a more stringent standard or requirement is applicable pursuant to this ordinance, State law, or regulation, then the more stringent standard or requirement shall be controlling. The control authority may, by rule or regulation, require compliance with National Categorical Preireatment Standards and requirements promptgated after the effective date of this ordinance. Affected dischargers shall comply with the applicable reporting requirements under 40 CFR Section 403 and as established by the control authority.

1) INTAKE WATER ADJUSTMENT. Industrial users seeking adjustment of National Categorical Prefreatment Standards to reflect the presence of pollutants in their Intake water must comply with the requirements of 40 CFR 403.15. Upon polification of approval by the USEPA, the adjustment shall

be applied by modifying the permit accordingly.

2) MODIFICATION OF NATIONAL CATEGORICAL PRETREATMENT STANDARDS. The control authority may apply to the Michigan Department of Natural Resources, or the U.S. Environmental Protection Agency, whichever is applicable, for authorization to grant removal credits in accordance with the requirements and procedures of 403.7. Such authorization may only be granted when the POTW Treatment Plant can achieve consistent removal for each pollutant for which a removal credit is being sought rovided that any limitation on such pollutant(s) in the NPDES Permit are neither being exceeded nor pose the prospect of being exceeded as a result of the removal credit being granted. Should this authorization be given to the control authority, any industrial uses desiring to obtain such credit shall make an application to the control authority, consistent with the provisions of 40 CFR 403.7 and this ordinance. Any credits which may be granted under this provision may be subject to modification or revocation as specified in 40 CFR 403.7 or as determined by the control authority. A prerequisite to the granting of any removal credit may be that the industrial user pay a surcharge based on the amounts of such pollutants removed by the POTW, such surcharge being based on fees or rates which the Board may establish and, when appropriate, revise from time to time. Permits shall

reflect or be modified to reflect any credit granted pursuant to this section.

d) DILUTION PROHIBITED. No user shall increase the use of process water or, in any way, dilute or attempt to dilute a discharge as a partial or complete substitute for adequate treatment to achieve compliance with the limitations contained in the National Categorical Pretreatment Standards, or in any other pollulant-specific limitation or requirement imposed by this ordinance. Combining in-plant wastestreams or modulating the release of pollulants upstream of the sampling point prior to the point of discharge into the public sewer shall not be construed as dilution except as otherwise restricted by National Categorical Pretreatment Standards or requirements.

e) HAULED IN WASTEWATER. Unloading liquid or solid waste from hauling vehicles directly into the POTW with or without the benefit of pretreatment is prohibited unless the person proposing to unload such waste has applied for and received a permit from the control authority for infoading such waste in accordance with the Board's rules pertaining thereto. The discharger shall be subject to applicable terms, conditions, surcharges, fees or rates as established by the Board. The control authority may establish specific limitations for sludges from municipally owned or operated POTW treatment plants

which are different than the specific limitations in this ordinance ORIGHT OF REVISION. The City reserves the right to establish different or more stringent limitations or

requirements on discharges to the PUTW.

DISCHARGES. Each industrial user shall provide protection from accidental discharge of prohibited materials or other substances regulated by this ordinance. Facilities and measures to prevent and abate accidental discharges shall be provided and maintained at the owner's or industrial user's cost or expense. All significant users shall submit to the control authority detailed plans showing destinations. requirements on discharges to the POTW. facilities and operating procedures to provide protection against accidental discharges. All existing significant users shall complete and submit such a plan within one hundred eighty (189) days of the effective date of this ordinance. New significant users shall submit such a plan prior to the time they

b) NOTIFICATION REQUIREMENTS. Within one (i) bour of becoming aware of a discharge into the b) NOTIFICATION REQUIREMENTS. Within one (ii) bour of becoming aware of a discharge into the POTW which exceeds or does not conform with Federal, State, control authority, or City Laws, Rules, Regulations, or Permit requirements and the degree of exceedance appears to be more than twice the Regulations, or Permit requirements and the degree of exceedance appears to be more than twice the allowable concentration, the industrial user shall telephone the control authority at its control center allowable concentration, the industrial user shall telephone the control authority at its control center and notify the control authority of the discharge. The notification shall include the name of the caller, location and time of discharge, type of mastemater, estimated concentration of excessive or probibited pollutants and estimated volume. Within five (5) calendar days after the discharge, the industrial seems shall submit a detailed written report describing the cause of the discharge and the measures to be taken by the user to prevent similar future occurrences. When required by the control authority, the industrial users maximized discharge court shall be modified to include additional manner. taken by the user to prevent similar future occurrences. When required by the colition authority; the industrial user's wastewater discharge permit shall be modified to include additional measures to prevent such future occurrences. Such notification abell not relieve the industrial user of any expense, loss, damages, or other liability which may be incurred as a result of damage to the POTW, flish hills, or any other environmental impairment or any other damage to person or property. However, notification received pursuant to this paragraph or information obtained by the exploitation of such notification shall not be used against any individual in any criminal case, except a prosecution for perjury or for giving a false statement. Such immunity shall not but the criminal prosecution of non-natural persons nor shall it has the pursuit of administrative or civil remedies against any person.

3) NOTICE TO EACPLOYEES. A notice shall be permanently posted on the industrial user's bulletin board or other committed persons advising employees where to contact in the event of an actual or potential

or other prominent place advising employees whom to contact in the event of an actual or potential

excessive or probibited discharge

DRECOVERY OF COSTS. Any user discharging in violation of any of the provisions of this ordinance which produces a deposit or obstruction or causes damage to or impairs the POTW, or causes the City of Detroit to violate its NPDES permit, shall be liable for any expense, loss, damage, penalty, or fine Detroit to violate its NYDES permit, shall be made toriging expense, 1055, damage, penalty, or fine incurred because of said violation or discharge. Prior to assessing such costs, the control authority shall bottly the user of its determination that the user's discharge was the proximate cause of such damage, obstruction, impairment, or violation of the City of Detroit's NPDES permit and the intent to assess such costs to the user. Any such notice shall include written focumentation which substantiates the determinants. nation of proximate cause and a breakfown of cost estimates. Failure to pay the assessed costs shall constitute a violation of this ordinance. Such charge shall be in addition to, not in lieu of, any penalties or remedies provided upder this ordinance, other ordinances, statutes, regulations, or at law or in equity k). The Director may grant a variance from the limitations set forth in Sec. Pive (1)-(b) of this ordinane in accordance with rules adopted by the control authority which set forth the guidelines, standards, proce-

dures, fees, and charges by which a person may be granted such a variance. A variance shall not be granted to a user if it would result in a violation of an applicable National Categorical Pretreatment Standards or allow a prohibited discharge (violate 40 CFR 403 5) or cause the POTW to be in noncompliance with its NPDES permit. A user requiresting a variance shall have the burden of showing that any guidelines or standards adopted by the Board have been met before a variance may be granted. The Board may adopt fees or charges for reviewing a variance application which shall be paid by a user upon applying for a variance

Sec \$4.05 FEES a) It is the purpose of this section to provide for the recovery of costs from industrial users of the POTW The applicable charges or fees shall be sufficient to meet the costs of the operation, maintenance, improvement, or replacement of the system or as provided by law, contrctual agreement, or Board

b) Charges and Fees shall include but not be limited to 1) Fees for reimbursement of costs of establishing, operating, maintaining, or improving the control authority's industrial waste control and pretreatment programs, and

2) User Fees based on volume of waste and concentration or quantity of specific pollutants in the discharge, and 3) Other Fees deemed necessary to carry out the requirements contained berein or as may be required

Sec 54.07 WASTEWATER DISCHARGE PERMITS It shall be unlawful for significant users to discharge into the POTW without a Wastewater Discharge

Permit from the control authority except as authorited by the control authority or in accordance with the provisions of this ordinance a) Al significant users proposing to connect to or to contribute to the POTW shall apply for a wastewater discharge permit in accordance with the following proceedures before connecting to or contributing to the POTW Upon determination that a permit is required, no connection to the POTW shall be made and no discharge thereto shall occur until a permit is issued unless otherwise authorized by the control authority for a period not to exceed sixty (60) days. All existing significant users connected to or contributing to the POTW shall apply for a wastewater discharge permit in accordance with the following procedures. The control authority may require any non-domestic user to fill out a questionnaire and

submit it for the control authority's use in determining whether the industrial user is a potential significant user as well as to determine changes or lack of changes in the user's facilities.
b) PERMIT APPLICATION. The control authority may notify an industrial user of its belief that the industrial user is, or may be, a significant user. Upon such notification, the industrial user shall complete and submit an application for a wastewater discharge permit in the manner and form prescribed by the control authority. Failure of the control authority to so notify an industrial user shall not relieve

any significant user of a duly to obtain a permit as required by this ordinance Existing industrial users shall submit a completed application on the form provided by the control authority within sixty (60) days after being so directed and provided a form by the control authority. 2) Proposed new industrial users shall request an application form and submit the completed application

at least ninety (90) days prior to start up 3) An industrial user which becomes subject to a new or revised National Categorical Pretreatment Standard and which has not previously submitted an application for a Wastewater Discharge Permit as required by this ordinance shall apply for a Wastewater Discharge Permit within ninety (90) days after the promulgation of the applicable National Categorical Pretreatment Standard. The control authority may also initiate this action.

4) A separate application shall be required to each separate location c) APPLICATION INFORMATION. In suport of the application, the industrial user shall submit, in units and terms appropriate for evalutaion, the following information t) Corporate or Individual name, any assumed name(s). Federal Employer Identification number, ad-

dress, and location of the discharging feility. 2) Name and title of the authorized representative of the industrial user who shall have the authority to bind the industrial user financially and legally.

3) All SIC numbers of all processes at this location according to the Standard Industrial Classification.

Manual, issued by the Executive Office of the President, Office of Management and Budget, 1972 as 4) Actual or proposed wastewater constituents and characteristics for each parameter listed in the permit application form. Such parameters shall include those applicable pollutants baving numeric limitations and those pollutants limited by National Calegorical Pretreatment Standards or regulations for applicable industries. For each parameter, the expected or experienced maximum and average concentrations during a one (I) year period shall be provided. For industries subject to National Categorical Pretreatment Standards or requirements, the data requested herein shall be separately shown for each categorical process wastestream. Combined wastestreams proposed to be regulated by the combined wastestream formula shall also be identified. Sampling and analysis shall be performed in accordance with procedures established by the EPA pursuant to Section 304(g) of the Act and contained in 40 CFR; Part 135, as amended, (where 40 CFR, Part 136 does not include a sampling or analytical technique for the pollutant in question, sampling and analysis shall be per-formed in accordance with the procedures set forth in the EPA Publication, Sampling and Analysis Procedures For Screening Of Industrial Effluents For Priority Pollutants, April, 1977, and amend-

ments or revisions thereto) or with any other sampling and analytic procedures, where appropriate and applicable, approved by the EPA, the name and address of the laboratory performing the analytic 5) A listing and description of activities, facilities and plant processes on the premises. Those processes which are subject to National Categorical Pretreatment Standards or requirements shall be so designated. As pertains to (cx4) above, identify which pollutants are associated with each process,

6) Restricted to only those pollutants referred to in item (cx4) above, a listing of raw materials and chemicals that are either used in the manufacturing process or could yield the pollutants referred to in item (cx4) above. Any user claiming immunity from having to provide such information for reasons of National Security shall furnish acceptable proof of such immunity.

7) A description of typical daily and weekly operating cycles for each process in terms of starting and ending times for each of the seven (7) days of the week, 8) Average and maximum twenty-foor (24) hour wastewater flow rates, including daily, monthly and seasonal variations, if any, list each National Categorical process wastestream flow rate and the

cooling water, sanitary water and storm water flow rates separately for each connection to the POTW, list each combined wastestream. 9) A drawing showing all sewer connections and sampling manholes by the size, location, elevation and points or places of discharges into the POTW, also a flow schematic showing which connections receive each National Categorical process wastewtream and which connections receive storm water, sanitary water or cooling water, also show which lines handle each combined wastestream. This

schematic shall be cross-referenced to the information furnished in item (8) above.

10) Each product produced by type, amount, process, or processes and rate of production as pertains to processes subject to production based limits under the National Categorical Standards or require-11) A statement regarding whether or not the requirements of this ordinance and the National Categorical Pretreatment Standards and requirements are being met on a consistent basis and, if not, what additional operation and maintenance work and, or additional construction is required for the indus-

trial user to meet the applicable standards and requirements, 12) Basic information on the spill containment program and the program for the prevention of accidental discharges for each of the pollutants referred to in item (cx4) above. The information provided shall include the approximate average and maximum quantities of such substances kept on the premises in the form of raw materials, chemicals and/or wastes therefrom and the containment capacity for each. Only substances which are in a form which could readily be carried into the POTW and which constitute a concentration of five (5) percent or greater on a dry weight basis in the raw material, chemical solution or waste material are required to be reported. Volumes of less than fifty-five (55) gallons or the equivalent thereof need not be reported unless lesser quantities could cause pass-through or cause interference with

14) A schematic and description of each pretreatment facility identify whether each pretreatment facility is of the batch type or continuous process type.

15) If other than DWSD potable water, the industrial user's source of intake water together with the types of usage and disposal method of each water source and the estimated wastewater volumes from each

13) Proposed or actual hours of operation of each pretreatment system for each production process,

16) If additional construction and/or operation and maintenance procedures will be required to meet the requirements of this ordinance and the National Categorical Standards, the shortest schedule by which the user will provide such additional contruction and or implement the required operation and maintenance procedures. 17) Any other information as may reasonably be required to prepare and process a wastewater dis-

d) PERMIT ISSUANCE. Upon receipt of an application, the control authority shall review the application.

determine and so notify the industrial user of any of the following 1) The industrial user is not required to have a wastewater discharge permit, 2) The application is incomplete or the information only partially satisfies the information and data required by 40 CFR 403.12 (a) and (b) or the control authority and that additional information and data are

required which shall be promptly furnished.

3) The industrial user is required to have a wastewater discharge permit.

The control authority may withhold issuance of a permit to a significant user which has not submitted an adequate or timely report to the control authority in accordance with the baseline reporting requirements of 40 CFR 403 12 (a) and (b). If the control authority determines and industrial user is required to have a wastewater discharge permit and has evaluated and accepted the data furnished, the industrial user will be notified accordingly by certified mail. The notification shall contain a copy of the proposed permit, so marked, for the industrial user's review. An industrial user may contest the determination of the control authority, any term or condition of wastewater discharge permit including medifications the control authority, any term or condition of wastewater discharge permit including incompanion thereof, by filing a request for reconsideration in accordance with the procedures set forth in Sec. Thirteen of this ordinance. In the event of such request, the contesteed terms and conditions of the proposed permit shall be stayed pending the control authority's review of contested issues. If the permit is not contested or is the industrial user fails to respond within twenty old days after receipt of the proposed permit, the permit may be issued as proposed. A permit shall be issued upon resolution by the control authority of any contested terms or conditions. Only one facility location shall be included in

e) PERMIT CONDITIONS. Wastewater discharge permits shall be deemed to contain all provisions of this ordinance, other applicable laws, rules, regulations, user charges and fees established without repetition 1) Permits may also contain the following

A) Limits on the average and maximum wastewater constituents or characteristics if more restrictive than or supplemental to the numeric limits enumerated in Sec. Five of this ordinance or the applicable National Categorical Pretreatment Standards. B) Limits on average and maximum rate and time of discharge or requirements for flow regulation

C) Requirements for installation, operation and maintenance of discharge sampling manholes and monitoring facilities by the industrial user, D) Restrictions on which of the user's discharge wastestreams are to be allowed to be discharged at each point of connection to the POTW,

E) Specifications for industrial user monitoring programs which may include sampling lacations, frequency and type of sampling, number, types and standards for tests and reporting schedules, F) Requirements for the prevention of accidental discharges and the containment of spills:

G) Restrictions based on the information furnished in the application,

 (3) Restrictions based on the information turnished in the application.
 (3) Compliance schedules, the following conditions shall apply to these schedules.
 i) The schedules shall contain increments of progress in the form of dates for the commencement and completion of major events leading to the construction and operation of upgraded or additional pretreatment facilities or to the implementation of additional operation and misintenance. procedures required for the industrial user to meet the applicable pretreatment requirements and standards (E.O., hiring an ergineer, completing preliminary plana, completing final plana, executing contracts for major components, commencing contraction, completing construction, II) No increment referred to in Paragraph (a) shall exceed nine (a) months. lis) Not later than fourteen (14) days following each date in the schedule and the final date for

compliance, the industrial user shall submit a progress report to the control authority including, as a minimum, whether or not it complied with the increment of progress to be met on such date and, if not, the date on which it expects to comply with this increment of progress, the reason for delay, and the steps being taken by the industrial user to return to the established schedule. In no event shall more than seventy-five (75) days elapse between each such progress preports to the control authority.

Family, friends celebrate patient's 'miracle'

By C.L. Rugenstein staff writer

They had just about given up hope—two months in a coma. for 38-year-old Said Azzouz of Livonia.

parents Kamel and Nijmeh, brothers, sisters and three children met with Rev. George Shalhoub in Azzouz's room at Livonia's St. Mary Hospital, they prayed he would be spared further suffering.

Doctors had given him only a 1 percent chance of survival from the massive heart attack that felled him on Jan. 29 when his heart stopped beating for 20 minutes.

His father and ambulance attendants had given him CPR until his heart was jolted back to life at the hospital. But he was brain dead, the doctors said.

"They said if he survived, he ly was totally attentive." would be a vegetable," Azzouz's father recalled.

in his Livonia home, the only indication of his brush with death was a his wife and parents.

slight hesitation when he talked. There's nothing in his appearance ry day at least 60 to 70 came in," his

or movements to indicate he spent

"He's regained most of his memory, maybe about 80 percent," said In February, when wife Lillian, Azzous's father, "and he goes to speech and physical therapy three days a week.

> Azzous listened intently, eager to talk. His wife, three children and father sat around him protectively, a lot of times speaking for him.

> A lot of people believe it was the super support of his family that brought Azzouz back.

> "They tell me that at the hospital Lillian spent much time speaking to him, looking right into his eyes,"said Mary Martin, admissions director at University Convalescent and Nursing Home in Livonia. "She did a lot of caring for him - the whole fami-

From the time he collapsed at home, until he was discharged from University Convalescent, there was NOW, AS Azzouz greeted visitors a constant contingent of family aunts, uncles, cousins in addition to

City Clerk-Treasurer

"When he was in the hospital, evefather said. They'd stay five or six hours, even when he was in intensive care, talking and singing to him.

THE FAMILY chose the nursing home when doctors told them there was nothing more they could do for Azzouz.

There, the staff began to constant-, ly talk to him, too, Martin said.

"Within about a month of getting here, he began to open his eyes, and follow the nurses' movements," Mar-

Two nurses in particular, the daytime charge nurse Joan Vittraino, and night nurse Lynn Wilkes, took a special interest in Azzouz.

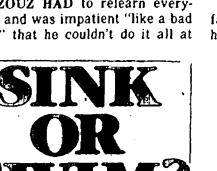

It was Vittraino's movements around the room that he began to follow. And, shortly after that he indicated that the breathing tube in his throat was bothering him. They took it out.

Then, "One night after the family had gone home, he looked up and said a whole sentence" while Wilkes was on duty. Martin said.

She immediately called the family and they all came back, even though It was 9:30 at night.

"After that his progress was constant," Martin said. "Once he started to speak there was no shutting him

AZZOUZ HAD to relearn everything, and was impatient "like a bad child," that he couldn't do it all at

CITY OF GARDEN CITY NOTICE OF PUBLIC HEARING August 21, 1989

NOTICE IS HEREBY GIVEN that the Mayor and Council of Garden City will bold a Public Hearing on August 21, 1989, at 6 15 P.M., in the Council Chambers, at the Civic Center, 6000 Middlebelt Road, Garden City, Michigan. On soliciting Public comments on the amendment to the City Code as it relates to the Restau-

rant Regulations Ordinance. NOTICE IS HEREBY GIVEN that the Mayor and Council of Garden City will hold a Public Hearing on August 21, 1989, at 6 30 P.M., in the Council Chambers, at the Civic Center, 6000 Middlebelt Road, Garden

City, Michigan. On soliciting Public comments on the amendment to the City Code as it relates to the Waste Water Ordinance

RONALD D. SHOWALTER,

Posted August 8, 1989

In April or May he got up and walked for the first time in five months, Martin said, and had progressed so much he was discharged from the nursing home in July.

The family, and some of the doctors believe Azzouz is a miracle.

"Even more of a miracle," said his father, "the doctors took a test of his heart and said there's no damage,

It's in good condition."

To celebrate, the family is having a party in August, and inviting a felv - about 400 or 500 - of their close family and friends.

It's a promise they're only too happy to keep.

Said Azzouz senior, "His mother had said if he makes it, she was going to have a big party for him."

Continued from Page 4

is: The compliance schedule embodied in an industrial user's wastewater discharge permit shall be binding until the expiration and fulfillment of the schedule or until such permit is modified Changes to the compliance schedule which are acceptable to the control performed in accordance with applicable regulations. Where 40 CFR, Part 135 does not include a sampling or analytical technique for the pollutant in question, sampling and analysis shall be performed in accordance with the procedures set forth in the EPA Publication, Sampling And Analysis Procedures For Screening Of Industrial Effluents For Priority Pollutants, April. 1977, and amendments and revisions thereto, or with any other sampling and analytical procedures approved by the EPA for these purposes. The report shall state whether the applicable pretreatment standands are being met on a consistent basis and if not, what additional operation and maintenance practices and or pretreatment controction is necessary to bring the industrial user into compli ance with the applicable pretreatment standards. This report shall be signed, dated and certified by anauthorized representative of the industrial user or a registered professional engineer.

Ji (their requirements reasonably necessary to ensure compliance with this ordinance; K: To the extent the control authority seeks to impose restrictions in a permit which are more restrictive than established in this ordinance, the control authority shall provide written documentation to substantiate the necessity hereinabove stated. New sources shall commence reporting at the time of initial discharge into the system. The reports shall be on a form prescribed by the control authority or on an approved alternative form and shall indicate the nature and concentration of all pollutants in the discharge from each rgulated process which are limited by National Categorical Pretreatment standards and the records of each day's flow for each process unit in the industrial user's facility which is regulated by such pretreatment satisfards. The combined wastestream formula may be used for reporting purposes after the initial information has been furhished to the control authority, provided there have been no changes to the elements composing the combined wastestream. These reports shall contain the results of sampling of the discharge and analysis of poliutants contained therein cross-referenced to the related flow or production and mass as required to determine compliance with the applicable National Categorical Pretreatment Standards. The frequency of monitoring shall be as prescribed in the applicable General Pretreatment Regulations (40 CFR 403) or by the control authority, whichever is more stringent. All sampling and analysis shall be of such greater restriction for protection against pass-through interference, or violation of the NPDES permit

f) PERMIT DURATION. Permits shall be issued for a specified time period, not to exceed five (5) years. A permit may be issued for a lesser period of time or may be stated to expire on a specific date; however, permits shall not be issued for a period less than one (1) year. Existing permittees shall apply for permit reissuance a minimum of minety (90) days prior to the expiration of existing permits on a form prescribed by the control authority. Upon timely application for reissuance of a permit in accordance with this paragraph by a permit holder, the expired permit shall be automatically extended until modified or

gi PERMIT MODIFICATION. The terms and conditions of the permit may be subject to modification by the control authority during the term of the permit as limitations or requirements as identified in Sec Five are amended or other just cause exists. Just cause for a permit modification includes, but shall not

It Material or substantial changes to an industrial user's facility or operation or changes in the characteristics of the industrial user's effluent. It shall be the industrial user's duty to request an application form and apply for a modification of the permit within thirty (30) calendar days of the change unchanged need not be resubmitted by the permittee. Failure of the industrial user to so apply shall be considered a violation of this ordinance. The control authority may also modify the permit of its own initiative based on its findings or reasonable belief of the above.

2) Change(s) in the City of Detroit's NPDES permit.

3) Embodiment of the provisions of a conciliation agreement, court settlement or order, 4) Any changes necessary to allow the City of Detroit to fulfill its role as control authority.

S) An industrial user's non-compliance with portions of an existing permit.

6: A change of conditions within the POTW,

7) A finding of interference or pass-through attributable to the industrial user. 8) Amendments to, or promulgation of, National Categorical Pretreatment Standards or requirements Permittees shall request an application form and apply to the control authority for a modified permit within didety (90) days after the promulgation of a new or revised National Categorical Pretreatment Standard to which the industrial user shall be subject. Information submitted pursuant to this paragraph shall be confined to that information related to the newly promulgated or amended National Categorical Pretreatment Standard or requirement. However, information previously submitted need not be duplicated, insofar as the previously submitted information continues to be current and applicable. The control authority may also initiate this action. The industrial user shall be informed of any proposed change in its permit at least sixty (60) days prior to the proposed effective date of the change for any change initiated by the control authority, unless such change is the result of any enforcement action taken pursuant to this ordinance

by PERMIT CUSTODY AND TRANSFER. Wastewater discharge permits are issued to a specific person as defined herein for a specific discharge. A wastewater discharge permit shall not be reassigned or transferred or sold to a different person, new owner, new industrial user, different premises, or a new or changed operation without the written approval of the control authority. It shall be the permit holder's duty to notify the control authority of any such change within thirty (30) days of the change. The control authority may revode a permit if it determines that an unreported change has occurred. The control authority may require the application for a new or modified permit if a change takes place. Any succeeding person shall comply with the terms and conditions of any existing permit which the control uthority allows to be retained

i) SMALL QUANTITY DISCHARGERS. Industrial users whose maximum daily discharge on any day does not contain more than the following quantitites of the listed pollutants, as expressed to pounds, may on a pollutant-by-pollutant basis apply to the control authority for an exemption from the concentration limitations set forth in Sec. Five (b) and (c) of this ordinance for each such pollutant, Industrial users granted such an exemption shall comply with the below-Listed poundage limitations. DAILY POUND LIMIT POLLUTANT

0.001 0 003 0.00002 0 007 0.009 0.03

Upon application by an industrial user who has obtained approval to discharge under the foregoing poundage limitations, the control authority may on a pollutant-by pollutant basis grant an exemption from various wastewater discharge permit requirements described in Sec. Seven of this ordinance. No exemptions may be granted to industrial users subject to National Categorical Pretreatments Standards or

Significant users shall provide, operate, and maintain at their own expense a sampling manhole or special structure to facilitate monitoring, inspection, sampling, and flow measurement of their discharge by the control authority and the Industrial user and to enable the control authority to conduct such other monitor ing and sampling as required for determining compliance with discharge requirements, limits, and standards as provided by this ordinance. The sampling manhole should be situated on the industrial user's premises in a location readily accessible to the control authority. It shall be the responsibility of the industrial user to obtain any necessary approvals from the City or other government entities which may be required by the location and contraction of monitoring facilities in the public street or sidewalk area. Such construction shall only occur when another location whould be impractical or cause undue hardship upon the industrial users. In no case shall the location be obstructed by landscaping or parked rehicles. There shall be ample room in or near such sampling or monitoring manhole or facility to allow accurate sampling and preparation of samples for analysis. The facility and and permanently installed sampling and measuring equipment shall be maintained at all times in a safe and proper operating condition at the expense of the industrial user. Whether constructed on public or private property, the sampling and monitoring facilities shall be provided in accordance with the control authority's requirements and all applicable local contruction standards and specifications.

Sec. 54 09 INSPECTION, SAMPLING, AND RECORD REPING For purposes of administering and enforcing this ordinance, the control authority may inspect the establishment, facility, or other premises of the industrial user. The control authority shall he ready access to the industrial user's premises to engage in inspection, sampling, compliance monitoring and/or metering activities. Each such inspection activity shall be commenced and completed at reasonable times, within reasonable limits, and in a reasonable manner. The control authority shall, upon arrival at the lodustrial user's premises, inform the industrial user or the industrial user's employees that sampling and/or inspection is commencing and that the industrial user has the right to observe the inspection and/or sampling While performing work on private properties, the control authority and the City shall observe all reasonable safety, scurlly and other rasonable rules applicable to the premises established by the industrial user.
Representatives of the control authority shall bear proper credentials and identification and shall be accompanied by a representative of the industrial user, at the industrial user's option. The control authority shall have no authority to inquire into any process beyond that point having a direct bearing on the kind of and source of discharge to the POTW. However, such employees or representatives shall not be restricted from viewing any of the facility site. The control authority may take photographs of facilities subject to this ordinance unless specifically prohibited by the industrial user upon request to be permitted to take photographs, where an industrial user has accurity measures in force, the industrial user shall make prompt and necessary arrangements with the accurity personnel so that upon presentation of appropriate credentials, the control authority will be permitted to enter immediately for the purposes of performing their specific responsibilities. Significant users shall sample and analyze their discharges in accordance with authority shall be incorporated into the wastewater discharge permit by modification thereof. Any deviations from the compliance schedule may result in the industrial user being found in violation of this

I) REPORTING REQUIREMENTS; IN ADDITION TO THE ABOVE

i) All permittees shall submit a report to the control authority in the prescribed form, or an alternative approved form indicating the status of compliance with all cooditions enumerated or referred to in the wastewater discharge permit or made applicable to the permit by this aordinance. The reports shall be submitted at six (6) month intervals, unless required more frequently, on a schedule to be established by the control authority for each permittee. Except for permittees subject to National Categorical Pretreatment standards or requirements, a permittee, who has demontrated consistent compliance with a permit for a period of one (1) year or more (which contains no compliance schedule), may request in writing to be excused from submitting the required reports at the required interval. Upon review and acceptance of the request, the control authority may grant a less frequent reporting interval. The reports shall state whether all requirements of the permit are being made on work under compliance schedules. The report shall also contain projections of compliance for the next six (6) months. At a minimum, the report shall also contain a dated and signed analytical report of at least one (1) representative discharge sample taken during the period since the last report. If the control authority has sampled the permittee's effluent since the last report, the control authority's analytical report may be substituted for that of the permittee. The analytical report shall show the concentration of each substance for which there is a specific limitation in the permit. The report shall be signed and dated by the authorized representative of the industrial user,

iii Permittees subject to National Categorical Pretreatment Standard or requirements shall submit compliance reports at the times and intervals specified by the Federal regulations and the control authority. Compliance reports shall be submitted to the control authority no later than ninety (90) days following the final combpiance date for a standard and at six (6) mooth intervals thereafter on the schedule established by the control authority for ecd permittee as the provisions of their permits. The control authority may request such samples to be split for the control authority's independent analysis. Industrial users shall maintain records of all information from monitoring activities required by this ordinance or by 40 CFR 403 12(a). Industrial users shall maintain the records for no less than three (3) years. This period of record retention shall be extended during the course of any unresolved litigation regarding the discharge of pollutants by the industrial user or the operation of the City of Detroit's industrial pretreatment program or when requested by the control authority, EPA, or the State. Industrial users shall, upon the request of the control authority, furnish information and records relating to discharges to the POTW Industrial users shall make such records readily accessible at all reasonable times, and allow the control authority to copy such records. In the event the control authority obtains samples, and analyses are made of such samples, a copy of the results of such analyses shall be promptly furnished to the owner, operator, or agent in charge of the premises upon written request by the industrial user's authorized representative. When requested by the Industrial user, the control authority shall leave a portion of any sample of the user's discharge taken from any sampling point on or adjacent to the premises for the user's independent analysis. In cases of disputes arising over shared samples, the portion taken and analyzed by the control authority shall be controlling unless proved invalid. In the event a grab sample of the industrial user's discharge is obtained and analyzed by the control authority and found to contain concentrations of pollutants which are two or more times greater than the numeric limitations for composite samples as listed in Sec. Five (b) of this ordinance, the industrial user shall be reugized to provide a written report describing the cause of greater concentration and a description of the means by which such concentration may be held to values of less than two times the composite sample

concentration limitation in the future. Sec. 54.10 CONFIDENTIAL INFORMATION a) Information and data on an industrial user obtained from written reports, questionnaires, permit applications, permits and monitoring programs and from inspections shall be available to the public or other governmental agencies without restriction unless the industrial user specifically requests and is able to demonstrate to the satisfaction of the control authority that the release of such information would divulge information processes or methods of production entitled to protection as trade secrets of the industrial user. All claimed confidential information must be clearly marked "Confidential" When requested by the person furnishing the report, the portions of a report which disclose trade secrets or secret processes shall not be made available for inspection by the public, but shall be made available upon written request to governmental agencies for uses related to this ordinance, the National Pollutant Discharge Elimination System (NPDES) permit, State Disposal System Permit and/or the pretreatment programs provided, however, that such portions of a report shall be available for use by any local, State, or Federal agency in judicial review or enforcement proceedings involving the person furnishing the report. Wastewater constituents and characteristics will not be recognized as confidential information

Information accepted by the control authority as confidential shall not be transmitted to any governmental agency until and unless a ten (10) day notification of intent to transmit is first given to the b) All information with respect to an industrial user on file with the control authority shall be made available upon request by that user or the user's authorized representative during normal business bours.

Sec. 54.11 STATUTES, LAWS, AND REGULATIONS Unless otherwise provided, any reference in this ordinance to a code, standard, rule, regulation, or law enacted, adopted, established, or promulgated by any private organization, or any element or organization of government other than the City shall be construed to apply only to such code, standard, rule, regulation, or law in effect or existence upon the date of enactment of this ordinance

Sec. 54.12 ENFORCEMENT a) VIOLATIONS. It shall be a violation of this ordinance for any user to:

1) Fail to completely and/or accurately report the wastewater constituents and for characteristics of the industrial user's discharge, 2) Fail to report significant changes in the industrial user's operations or wastewater constitutents and: or characteristics:

3) Refuse reasonable access to the industrial user's premises or waste discharge for the purpose of inspection or monitoring. 4) Fail to comply with any condition or requirement of the industrial user's wastewater discharge

5) Fail to copmly with any limitation, prohibition, or requirement of this ordinance including any rule, regulation, or order issued hereunder, however, if an industrial user acts in full accordance with a compliance schedule approved and incorporated into the industrial user's wastewater discharge permit pursuant to the provisions of this ordinance, that industrial user shall be deemed to be in compliance with those requirements of this ordinance addressed by the compliance schedule. Industrial users acting in full compliance with wastewater discharge permits issued prior to the effective date of this ordinance shall be deemed to be in compliance with the requirements of this ordinance and such permits shall remain in effect and be enforceable under this ordinance until the expiration date of such permit or vittil a superseding permit is issued, whichever occurs first industrial users shall comly with National Categorical Pretreatment Standards and requirements on the date specified in

the Federal regulations, regardless of compliance schedules. b) UPSETS. An upset shall constitute an affirmative defense to an action brought for noncombiance with limits imposed under this ordinance or National Categorical Pretreatment Standards if the requirements of Paragraph (1) are met. 1) An industrial user who wishes to establish the affirmative defense shall demonstrate, through properly

signed, contemporaneous operating logs or other relevant evidence that:

A) An upset occurred and the industrial user can identify the specific cause(s) of the upset; B) The facility was at the time being operated in a prudent and workman-like manner and in compli-

ance with applicable operation and maintenance procedures; C) The industrial user has submitted the following information to the Department, or ally or in writing. within tweety-four (24) bours of becoming aware of the upset (if this information is provided orally. A written submission must be provided within five (5) days):

 A description of the discharge and cause of noncompliance;
 The period of noncombiance including exact dates and times or, if nor correctd, the anticipated time the noncomfplance is expected to continue; iii) Steps being taken and/or planned to reduce, eliminate, and prevent recurrence of the neocom

2) In any enforcement proceeding, the industrial user seeking to establish the occurrence of an upset shall have the burden of proof.

3) The industrial user shall control production of all discharges to the extent necessary to maintain comfigure with this ordinance upon reduction, loss, or failure of its treatment facility until the facility is restored or an alternative method of treatment is provided. This requirement applies in the situation where, among other things, the primary source of power of the treatment facility is reduced, fost-

c) EMERGENCY SUSPENSIONS AND ORDERS. The control authority may order suspension of the sewer or wastewater treatment service and/or a wastewater discharge permit where such suspension is necessary, in the opinion of the control authority, to stop any actual or threatened discharge which presents or may present an imminent or significant hazard to the health or welfare of persons or to the environment, interferes or may interfere with the POTW, or causes or may cause the City of Detroit to violate any condition of its NPDES permit. Any person notified of a suspension of the sewer or mastemater treatment service and/or the wastewater discharge permit shall immediately atop or eliminate the contribution. In the event of a failure of the person to comply voluntarily with the suspension or revocation order, the control authority shall take such steps as deemed necessary, including immediate severance of the sewer connection or services, to prevent or minimize damage to the POTW system or danger to any Individual or the environment. In the event such steps are taken, the Director shall Immediately notify the industrial user in writing of such action and the specific recourse available and shall provide the industrial user with an opportunity for a hearing before the Director or his designated representative within ten (10) days of such action. The control authority shall notify the City of this action within ten (10) days of such action. The control authority shall reinstate the wastewater discharge permit and/or the sewer or wastewater treatment service upon proof of the elimination of the noncomplying discharge. The industrial user shall submit a detailed written statement to the control authority within fifteen (13) days of the occurrence describing the causes of the harmful contribution and the measures taken to

prevent any future obcurronce. di NOTICE OF VIOLATION. Except in the case of an actual or threatened discharge as specified in subparagraph (b), whenever the control authority has reason to believe that any industrial user has violated or is violating this ordinance, the control anthority shall serve upon such industrial user a written notice staling the nature of the violation.

erNOTICE OF CONTROL AUTHORITY ACTION. The City or designated department thereof, shall be notified by the control authority of any enforcement activity taken within its boundaries. If ADMINISTRATIVE ACTIONS, Whenever the Director has reasonable grounds to believe that sewage,

wastes or other wastes of any kind are being or have been discharged into the wastewater system of the Board in violation of this ordinance, wastewater discharge permit or any prohibition, limitation, or requirement contained herein, the Director may, except in the case of emergency or flagrant violation, by conferences, notices, or cooperation, endeavor to the fullest extent possible to have the industrial user eliminate or remedy such violation

1) CONFERENCES. The control authority may order any person who violates this ordinance to attend a conference wherein the control authority may endeavor to eliminate or remedy the violation by establishing an enforceable comphance schedule. The notice of violation shall be served at least ten (10) days before the scheduled conference and shall set forth the date, time, and place thereof. The conference shall be conducted by a representative of the control authority. The industrial user shall present a plan and schedule for achieving compliance with this ordinance. The conference attendees may agree upon a compliance schedule which sets forth the terms and conditions and time period or schedule for full compliance. Nothing contained herein shall require the control authority to accept or agree to any proposed plan to schedule or prevent the control authority from proceeding with a show cause hearing as set forth in subsection (2) below. Should the attendees agree to a compliance schedule, the industrial user's wastewater discharge permit shall be modified accordingly. An industrial user must exhibit good faith and expeditious efforts to comply with this ordinance and any procedures. requirements, and agreements bereunder.

2) SHOW CAUSE HEARING. The control authority may order any industrial user who violates proposed enforcement action should not be taken. A notice shall be served on the industrial user specifying the time and place of a hearing before the control authority regarding the violation, the reasons why the action is to be taken, the proposed enforcement action, and directing the industrial user to show cause before the control authority why any proposed enforcement action should not be taken. The ootice of the bearing shall be served personally or by registered or certified mail, return receipt requested, at least ten (10) days before the bearing, with copies sent to the City. Service may be made on any agent or officer of a corporation or authorized representative.

ATHEARING PROCEEDING. A representative of the control authority shall conduct the show cause hearing and take the evidence, and may: trissue, in the name of the Board, notices of bearings requesting the attendance and testimony of the witnesses and the production of evidence relevant to any matter involved in such hearings ii) transmit a report of the evidence and hearing, including transcripts and other evidence, together

At any show cause bearing held pursuant to this ordinance, testimony taken must be under oath and

with recommendations to the Director for action thereon.

3) ACTIONS. After a show cause hearing has been conducted, an order may be issued to the industrial user by the control authority directing any of the following actions: A) immediate combiance with the industrial user's wastewater discharge permit or with any applica-

ble limitation, condition, restriction, or requirement of this ordinance or applicable Local, State, or Federal Law or Regulation: Bi That pretreatment of waste by installation of adequate treatment equipment or propor operation

and maintenance of existing treatment equipment be accomfished within a specified time period. Sewer or wastewater treatment service may be discontinued upon failure to comply; C) Submission of compliance reports on effluent quality and quantity as determined by self-monitoring

and analysis during a specified time period: D) Submission of periodic reports on effluent quality and quantity determined by self-monitoring analysis throughout the final period set by a compliance date;

E) Control of discharge quantities, F) Payment of costs for reasonable and necessary inspection, monitoring, and administration of the

industrial user's activities by the control authority during compliance efforts; and/or G) Any such other orders as are appropriate, including, but not limited to, immediate termination of sewer or wastewater treatment services or revocation of a wastewater discharge permit or orders directing that following a specified time period, sewer or wastewater treatment service will be discontinued unless adequate treatment facilities, devices, or operation and maintenance practices

4) PUBLIC PARTICIPATION. A list of all industrial useres which were the subject of enforcement proceedings pursuant to Sec. Eleven of this ordinance during the twelve (12) previous months shall be annually published by the control authority in the largest daily newspaper, published in the municipality in which the POTW is located, summarizing the enforcement actions taken against the industrial users during the same twelve (12) months whose violations remained uncorrected (orty-five (45) or more days after notification of non-compliance over that twelve (12) month period, or which involve failure to accurately report non-compliance, or required the control authority to use its emergency authorities. All industrial users identified in a proposed publication shall be provided a copy of that proposed notice at least thirty (30) days before publication and provided with an opportunity to comment as to its accuracy.

i) Any user who violates any provision of this ordinance, including the failure to pay any fees, charges, or surcharges imposed hereby or any condition or limitation of a permit issued pursuant thereto or who knowingly makes any false statements, representations, or certification in any application, record, report, plan, or other document filed or required to be maintained pursuant to this ordinance or wastewater discharge permit or who tampers with, or knowingly renders inaccurate any monitoring device required under this ordinance is guilty of a misdemeanor and shall, upon conviction, be punished by a fine not to exceed five hundred (\$500.00) dollars per day for each violation or by imprisonment for not more than ninety (90) days or by both. The control authority is hereby authorized to seek. through its counsel, prosecution of criminal charges against any person violating any provision of this

2) If any person discharges sewage, industrial wastes, or other wastes into the POTW contrary to the provisions of this ordinance, permit or order issued thereunder, the City or the control authority may commence a Civil action to enjoin such discharge or to enforce compliance with its ordinance, permit or order issued thereunder, in the Circuit Court for the County of Wayne or other appropriate court. Upon a proper showing of a violation of its ordinance, permit, or order issued thereunder, a permanent or temporary injunction may be granted without bood. The control authority or the City may also seek additional legal and/or equitable relief. Instituting suit in this Circuit Court does not constitute an exclusive election of remedies and does not prohibit the control authority or the City from commencing action in Federal Court for discharges believed to be in violation of this ordinance. State and Federal requirements pursuant to the Clean Water Act, the City of Detroit's NPDES permit. or other applicable laws or requirements. The control authority and the City may also recover reasonable attorney free, court costs, court reporters' free, and other unusual expenses related to enforcement activities or litigation against the person found to have violated this ordinance or the orders. rules, regulations, and permits issued bereunder.

Sec. 54.13 REVIEW AND APPEAL. The following procedures control the course of reconsideration and appeal to the control authority with respect to the construction, application, or enforcement of this ordi-

nance and may be used if informal methods do not achieve satisfication. a) Any permit applicant, permit holder, authorized industrial wastewater discharger, or other discharger adversely affected by any decision, act or determination made by or on behalf of the control authority by the Director or his authorized representative in interpreting or implementing the provisions of this ordinance or any permit issued thereunder, with the exception of any decision, determination, or order made following a show cause hearing pursuant to this ordinance may file with the control authority a written request for reconsideration. Such request shall be received at the control authority's General Offices within twenty (20) days of the date of the occurrence of the control authority's action or decision to dispute. All requests shall set forth the requestor's name and address, along with a brief statement of the reasons it is requesting and the factual basis for the request. Requests shall be filed in triplicate and

sent by certified mail to the Ocheral Offices of the control authority. b) The control authority shall notify the applicant within lifteen (15) days after receipt of any request for reconsideration of the time and place for hearing upon the request. The hearing shall be conducted by the Director or his authorized representative not less than ten (10) days and not more than thirty (30) days after mailing such notice. The hearing may be continued for a reasonable time for good cause shown, at the discretion of the Director. The hearing shall be held as an informal consultation and conference at which the requestor, in person or by coursel, shall present his argument, evidence, data, and proof in connection with the issue submitted. The parties shall not be bound by legal rules of evidence. The hearing shall be recorded and the requestor shall be provided with a transcript thereof upon request and upon payment of the cost thereof. The decision of the Director shall be made known to the requestor by Certified Mail within thirty (\$0) days after the hearing.

c) The requestor may appeal the ruling of the Director on the request for reconsideration or any order or decision issued following a Show Cause Hearing pursuant to this ordinance by filing a request folian appearance before the Board. The procedures for appearance before the Board will be determined by the Board, and the requestor will be notified of these procedures within thirty (80) days after such a

d) The filing of a request for reconsideration or for appeal and appearance before the Board shall stay any action by the control authority, unless such action is immediately necessary to prevent pas-through, interference, or other significant harm to the POTW. Sec. 64.14 If any provision, paragraph, word, section, or article of this cedinance is invalidated by any court of competent jurisdiction, the remaining provisions, paragraphs, words, sections, and articles shall not be

BUSINESS ON YOUR

Holding a garage sale is a fun way to do a little business on your own ... but it? takes a bit of planning.

Like you'll want to decide what to sell and how much to charge for each item. . . . and then you'll need price tags so other people will know what you're charging.

And you'll have to be able to make change for all your customers . . . so that means you should have lots of one dollar bills and an assortment of coins.

Then you'll want to advertise your sale to attract that crowd. You can do it with a sign or signs in your neighborhood . . . but you'll want all bigger crowd than that . . . so you'll run an ad in Classified which tells the time and place of your sale to a host of potential buyers.

Have fun with your little business adventure!

House OKs increase for 1990 Congressional budget

Beautify your living spaces with the

distinctive elegance of genuine rattan.

area members of Congress were recorded on major roll call votes in the week ending Aug. 4.

HOUSE:

THE BUDGET FOR CONGRESS By a vote of 291 for and 123 akainst, the House approved a fiscal 1990 budget of \$1.6 billion for itself and congressional support agencies. That is an increase of 14 percent over the comparable fiscal 1989 bill. After the Senate adds its budget of more than \$400 million, the cost of operating the legislative branch in 1990 will top \$2 billion. Members' salaries of nearly \$50 million are

funded separately. Among items in the House-passed bill are \$188 million for the salaries of House members' personal staffs (up 5 percent from the comparable 1989 figure), \$118 million for committee operations including staff salaries (up 7 percent) and \$123 million for House members' and senators' free-mail privileges. The postage

resisted therapy that should work.

You do to avoid a flare.

Arthritis Today

loseph J. Weiss, M.D. Rheumatology

18829 Farmington Road Livonia, Michigan 48152 Phone: 478-7860

HAVING AN ARTHRITIS THAT DOESN'T FIT

When your doctor says: "you have an unusual arthritis,"

There are over 100 types of arthritis, each differentiated by joints involved, treatment indicated, and outcome anticipated. Still, arthritis occurs that doesn't fit any known condition. In most cases treatment is possible.

inflammation is common to nearly all types, and anti-inflammatory drugs such as aspirin are available. If your arthritis cannot be classified then your physician

cannot answer questions such as: how long will the arthritis last, or what can

The problem is different if you have a known arthritis, but your joints don't

Improve despite appropriate therapy. Still, your physician can advise you on

the long term outlook and your chances of returning to previous activities. His

counsel is based on the experience of seeing the common arthritic conditions, overcome an eccentric initial course, and eventually settle into time-honored

Do not be discouraged if your arthritis falls to fit into accepted patterns or

This number could save

your life.

usual responses. Treatment is possible and outcome foreseeable.

the means your Joint condition can't be classified, or it has

Here's how Observer & Eccentric sum is open-ended and likely to be increased, despite new language reducing from six to four the number of mass mailings House members can send to constituents each year.

Supporter Vic Fazio, D-Calif., said "this is a very tight, austere budget." Opponent Hank Brown, R-Colo., said Congress has "a staff that is 10 times as big as any other government in the world for its deliberative body." Members voting yes supported the sponsor Bill Frenzel, R-Minn.

were Carl Pursell, R-Plymouth; some items that are very fundamen-Dennis Hertel, D-Harper Woods, William Ford, D-Taylor and Sander to work around this place." Levin, D-Southfield.

Orion, voted no.

TO CUT CONGRESSIONAL BUDGET — By a vote of 167 for and 246 against, the House rejected an amendment cutting nearly all areas of the 1990 legislative branch budget (above) by 6.25 percent, for a savings of \$97 million.

Roll Call Report

"What used to be called the \$1 Billion Congress' has become the '\$2 Billion Congress," said amendment

Opponent Jerry Lewis, R-Calif., Michigan members voting yes said the amendment "would cut tal in terms of the members' ability

Members voting yes supported a William Broomfield, R-Lake 6.25 percent cut in the fiscal 1990 legislative branch budget.

Michigan members voting yes were Pursell and Broomfield. Hertel, Ford and Levin voted no.

TO RAISE THE DEBT LIMIT -The House voted 231 for and 185 against to raise the national debt ceiling by \$70 billion to about \$2.87 trillion. The new limit (HR 3024), which was sent to the Senate, will enable the government to pay its bills while awaiting congressional approval of a separate measure putting the federal borrowing limit at \$3.123 trillion.

Supporter Bill Archer, R-Texas, said: "As distasteful as any increase in the federal debt may be to me personally and to many others in this chamber, we should adopt this measure."

Opponent Paul Henry, R-Mich., said: "By allowing this short-term hike of the debt limit. . . we are absolving ourselves of our responsibility to face some very fundamental questions" about America's economic health.

higher debt ceiling.

Michigan members Ford and Levin voted yes. Pursell, Hertel and Broomfield voted no.

SENATE:

MX MISSILE - By a vote of 62 for and 38 against, the House tabled (killed) an amendment stripping the fiscal 1990 defense authorization bill of nearly half of its funding for establishing a rail-based MX missile system. The amendment sought to

WATERFORD

remove \$502 million in procurement money while retaining \$600 million in the bill for continued research into transferring the multi-warhead MX from stationary silos to moving railroad cars.

The vote occurred as the Senate sent a \$305 billion military spending bill (S 1352) for fiscal 1990 to conference with the House. It preserved an administration pact with many Democratic leaders in Congress to fund a mobile missile system consisting of both the rail-garrisoned MX and the truck-borne, single-warhead Midgetman. The House version

of the bill decimates that agreement. Senators voting yes supported full funding for putting MX missiles on railroad cars.

Members voting yes supported the Carl Levin and Donald Riegle voted.

CUBA AND DRUGS — By a vote of 73 for and 27 against, the Senate tabled (killed) an amendment to the yes.

1990 defense bill (above) seeking to curb what intelligence sources say is Cuban Premier Fidel Castro's contribution to America's drug problem. The measure sought to get at Cubathrough its provider the Soviet-

The amendment called for deny; ing American ald to any Soviet state. until President George Bush certifles Cuba is not a transit point for illegal drug shipments to the United States. American aid reaches the Soviet Union through world development banks and other channels.

John Warner, R-Va., who voted to kill the amendment, said it could upset U.S. Soviet relations in such areas as arms control.

Amendment sponsor William Michigan Democratic Senators Armstrong, R-Colo., accused Cuba of "sending in the poisonous substances, which are killing and rulning the lives of our young people."

Michigan Levin and Riggle voted

Like far out, man

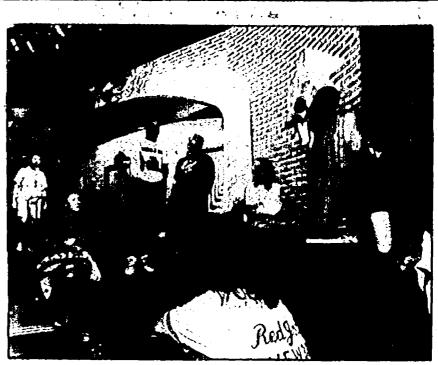

The English band Happy Mondays is part of a large Acid House scene in Great Britian, bringing back '70s culture with all the vices. Except theirs is simply not a trip down the farout lane. Find out how this group has incorporated the music of the '70s into a new whirlwind of a sound on Page 6D.

The Observer & Eccentric Newspapers

photos by JERRY ZOLYNSKY/staff photographer

The pedestrian rush hour in Chicago's Loop peaks around 8:30 a.m. as Reebok-clad office workers clog the sidewalks and intersections of the financial district.

Members of the Second City Theater - Tim O'Malley (from left), Christina Dunn, Michael Franco, Ian Gomez, Maureen Kelley, Aaron Freeman, Rob Colson and Faith Soloway - rehearse a musical number for this summer's road show in Atlantic City.

In search of a 'hot time' in Chitown

By Tedd Schnelder staff writer

I first knew it on the ride in from Midway, when the 20-minute conversation with our chauffeur - Melvin Stewart, City Cab Number 2316 - ranged from the Pistons ("They'll miss Mahorn") to life as a Windy City hack ("Retire? never . . . Ask me again tomorrow") to his police record ("So I hit him in the mouth with the gun. I had to pay the fine and

his dentist bill"). Chicago was definitely going to be my kind of town . . . for the

next 12 hours anyway. You can have the skyscrapers and museums, the restaurants and night spots that usually dominate these tourist excursions. Oh, I'll make them part of my itinery. But for my vacation memories I'll take the people whose paths cross mine along the way, thank

Those impressions are more vivid and tend to hold up better over time.

That's why Melvin Stewart, City Cab Number 2316, became the first Chicago snapshot in my personal album.

The idea was to cram as much of Chitown down our throats as possible in one day. Sort of a Reader's Digest version of the typical weekend tour package, with help from Southwest Airlines and the newspaper's expense account, of course.

A summer drizzle in Detroit gave way to sunshine and a promised high of 80 degrees as the 737 touched down at Midway.

We were off and running, Chicago-style:

MORNING:

We were supposed to take the bus from Midway to the Loop (the city's financial district) for our first round of stops. But the buses apparently don't start running until long after our 7 a.m. flight arrived, so we hailed Stewart, who was parked by the terminal curb. looking for an early morning fare. The cab ride cost \$17 including tip, or only about \$2 more than two bus tickets.

First stop, the Sears Tower. Even with Sears about to take a hike to the suburbs (relocating its corporate headquarters to Hoffman Estates in a move that will leave the building half empty), the 110-story glass and steel monument will easily fulfill Personal Travel Rule Number 117: When going to a big city, always go to the top of one - and only one — tall building.

Unfortunately, to get to the top of the Sears Tower, we have to wade through some garbage at the bottom - namely, a shlocky "multi-media" presentation hosted (on tape) by a bubbly Oprah Winfrey, who goes on and on about the wonderfulness of her hometown. Mercifully, it ends in 15 minutes and we're whisked to the Sky Deck on the 103rd floor.

And on this slightly hazy morning, the view is spectacular. The

Finding that life really does imitate art, Myrna comes face to face with the Texas Chainsaw Manicure.

Chicago: A foodaholic's delight

By Larry Janes special writer

The assignment read: "Get to Chicago and interview famed Italian chef and cookbook author Guliano Bugialli."

At first, I had thought of taking Amtrack - round-trip train fare for under \$55. I could finish that paperback book I started on last summer's vacation. I could leave... Detroit and five hours later, arrive in the Windy City, only to do an interview and then spend another five hours coming home . . . Maybe next time,

I could drive and spend about \$30 for gas. Then I realized it would cost a hundred bucks to park downtown.

So, as luck would have, while watching "The Real Ghostbusters," an ad for Southwest Airlines \$29 one-way airfare to Chicago caught my eye. In the 48 hours that evolved between placing my reservation and picking up my ticket at the travel agency, the price had jumped an extra 10 bucks. But hey, I leave Metro at 10:45 a.m. and arrive in Chicago

at 10:45 a.m. Who could beat

The flight was late, but then again, so was I. It gave me just enough time to get a red-hot, diet Coke and bag of chips at the airport. I nearly chocked when the tab totaled a little over \$5. (Take it from me, skip airport food.)

Metro could easily wise up and do something about the shoddy service and poor quality of food. If it tasted good and the person working the counter would smile occasionally, the hurried traveler wouldn't mind plunking down that kind of money. But in it's present state, the food and service stink.

Alf, BUT ON to Chicago

My interview and luncheon took me to the beginning of the "Magnificent Mile" as the Windy City calls it. A huge, glitzy building with the restaurant Spiaggla discretely placed on the second floor, The interview and press conference was in the private dining room and since the flight ran late, I entered while Chef Bugialli was giving his spiel for the Italian

JERRY ZOLYNSKY/statt photographer

Spiaggia offers elegant italian food and a sweeping view of the Magnificent Mile's north end.

olive oil industry.

Little did I know I sat next to the restaurant critic for the Chicago Tribuno and directly across from me was a hefty, bearded fellow who called himself Chicago's

MOVING PICTURES

Todd Graff, (from left) Mary Elizabeth Mastrantonio and Ed Harris are among a team of civilian divers pressed into reluctant service by the U.S. Navy on a seemingly routine rescue mission in "The Abyss."

'The Abyss': It's so close to being abysmally bad

"The Abyss" (D-, PG-13, 135 minutes) is a strange movie. It strains credulity with an unbelievable plot, containing just about everything under the sun (and water), but still manages to keep your attention.

There's a Rambo-style U.S. Navy Seal lieutenant, underwater butterfly-like creatures from outer-space, a terrific submersible oil-rig and all kinds of slick underwater equipment and footage.

Then there's an imminent divorce that turns into a love story and a record dive as the hero goes down 18,000 or so feet in a slick diving suit while breathing liquid oxygen.

Oh yes, the extra-terresterial butterflies have a several-mile wide space ship . . . that swims . . . and the heroine drowns in freezing water but is resurrected 10 or so minutes later. I thought it was all over when you didn't get oxygen to the brain,

but what do I know? But then again the scenarists and the 20th Century Fox story editor didn't have oxygen in their brains when they decided audiences would believe two guys could swim 1,500 feet below the surface without equipment, that a gal could be resurrected and that benevolent allens with fantastic technology would start all this

trouble by accident. The film opens with some strange, unknown mechanism creating enough underwater turbulence to crash a U.S. nuclear sub in deep water. There just happens to be an experimental submersible oil-rig in the area and their corporate owners agree to cooperate with the Navy's rescue mission.

The rig is commanded by Ed Harris whose soon-to-be ex-wife (Mary Elizabeth Mastrontonio) apparently is the engineer who developed the rig in the first place. Naturally, she comes down to investigate the crash and help rescue nuclear warheads.

It gets even more complicated with Russian trawlers from Cuba, great storms at sea and the beserk Seal lieutenant.

The film fails because there are just too many plot threads, even for

the movies

Dan Greenberg

such a long film. The film's a real bummer and we never do find out what the aliens were doing there in the first place.

The strangest thing about "The Abyss," however, is that it is photographed and edited well enough to keep your attention, despite its total lack of credulity. Even when you know better, you'll find yourself swept up in these crazy events. I guess that qualifies "The Abyss" as a good/bad movie.

On the bad/bad side of the ledger, Freddy is back for the fifth time. This time he aftempts to invade the soul of an infant. "Nightmare on Elm Street V: The Dream Child" (R) is there for them what like that stuff.

ALTERNATIVE VIEWING

Cannes winner opens at DFT

By John Monaghan special writer

When "sex, lies and videotape" took first prize at the Cannes Film Festival this year, critics were falling all over themselves with praise. You may wonder what all the fuss was about after seeing this clever but minor film when it opens the Detroit Film Theatre's 32nd season this weekend.

Don't get me wrong. Many of my favorite films are claustrophobic character studies full of talk. And at its best, "sex, lies and videotape" features a sparkling four-person cast in a biting, witty exploration of intimacy in the '80s.

Ann (Andie MacDowell) likes the security of marriage but shrinks from the touch of her handsome husband John (Peter Gallagher). He, meanwhile, carries on an affair with Ann's hard-edged sister Cynthia (Laura San Giacomo). Nothing really revolutionary here.

old college friend of John's. He's the movie's wild card - a likeably screwed up, sleepy-eyed hero who rocks them all out of their complacent lies.

It's obvious that the friendship between John and Graham has weakened. John is a weaselly manipulator both as a lawyer and husband. Graham openly believes that liars are the second lowest form of human

beings. First are lawyers.

ADMITTEDLY impotent, Graham reaches sexual fulfillment through videotaping women as they discuss their sexual experiences. Ann is at first appalled, but then succumbs. Cynthia jumps into it from the start. Both grow closer to Graham and farther away from John.

Produced for just over \$1 million, "sex, lies and videotape" is a success story for 26-year-old writer/director Steven Soderbergh. There's an occasional tricky camera angle, but the film works mostly in a naturalistic

Enter Graham (James Spader), an way, presenting us with stifling normalcy and bizarre behavior that's not always easy to relate to.

Soderbergh believes that the film's title sums up its message.

"Sex, lies and videotape are what a lot of this country revolves around - the selling of sex, the telling of lies and the inundation of video," he says.

Fine, but again nothing startlingly original. Gogard was ranting about sex and the media more than 20 years ago. How hard is it to lampoon a yuppie lawyer? And Graham -even with his bizarre attitude toward sex - isn't the first screen seeker who isolates himself behind a

movie camera. Still, "sex, lies and videotape" opens at a time when audiences are probably tired of mindless summer movies. The film will definitely provoke some discussion - if nothing else to answer the question of why the film has achieved such great ac-

DEO VIEWING

By Dan Greenberg special writer

Give top grades to two of Hollywood's finest movies now available for home video viewing - Danny Kay's marvelous performance in "The Secret Life of Walter Mitty" (1947, color, 110 minutes) and Gary Cocoper in "The Pride of the Yankees" (1942, black and white, 128 min-

utes). Neither are rated - and they don't need to be. Both reflect the public morality of an earlier era that insisted its entertainment be fresh and pure, no matter how unrealistic, and no matter how much "truth" had to swept under the rug.

Some say "Walter Mitty" was Danny Kaye's finest role. Whether or not that argument carries, this film will delight and entertain everyone. Kaye is masterful in the multiple roles of mild, meek Walter Mitty and the many dashing characters which inhabit his imagination.

My favorite is the RAF fighter-pilot who set the bone in his own broken arm and passed the feat off casually as he entered the bar. There's lots more, of course, as Kaye thwarts the villian (Boris Karloff), gets the girl (Virginia Mayo), survives his nagging mother (Fay Bainter) and grapples with numerous other unhelpful people and

Kaye, noted for his tongue-twisting songs, manages to work in a few of those as well in this, one of Hollywood's best productions.

Lou Gehrig was, indeed, "The Pride of the Yankees" and Gary Cooper was a perfect choice for this biopic in tribute to that great Yankee ballplayer.

NOT ONLY WAS Gehrig a fine athlete but, as well, he was a man of good character. That moral life, his exemplary conduct, fine athletic accomplishments and his courage in the face of an illness that led to an early death provide the ingredients for an inspirational film in the darkest days of World War II.

/ Filmed shortly after Gehrig's death in 1941 from amyotrophic lateral sclerosis, a degenerative muscular disease now known as Lou Gehrig's Disease, "The Pride of the Yankees" is a major production with certainly hangs together effectively. excellence in every department.

The film opens with a parallel drawn between Gehrig's courage and that of the U.S. Armed Forces then struggling in the early stages of World War II.

The script was by Jo Swerling and Herman Mankiewicz, the latter having not too long before received an Oscar for the script to Orson Welles "Citizen Kane." The music includes Irving Berlin's "Always," as is to be expected "Take Me Out to the Ballgame," and an appearance by Ray Noble and his Orchestra, one of the era's big bands.

The opening credits thank the New York Yankees and Mrs. Gehrig, among others. Clearly a major production, the film features four major sports names as "themselves" with Babe Ruth at the top of the list followed by Bill Dickey, Robert Meusel and sportscaster Bill Stern.

Walter Brennan is sportswriter Sam Blake, Elsa Janssen and Ludwig Stossel are Gehrig's parents while Teresa Wright is luminous as his wife, Eleanor, but clearly Cooper shines above this talented crowd. The role, seemingly made for the Coooper persona, is one of his finest.

OF COURSE that may be a judgment filtered through the fine lens of hindsight. I don't know how accurate the film is insofar as Gehrig's life and character are concerned - Cooper's either for that matter - but it

No question but the film is sentimental and, by today's standards, somewhat saccharine but that's part of its charm. Despite its naivete and wonderment about the marvelous potentials of life and the almost unreal courage with which Gehrig/ Cooper face death, "The Pride of the Yankees" is touching and inspira-

Lou Gehrig was a shining white knight and Gary Cooper perfectly fits that role as he grows from shy, naive rookie to mature, accomplished star, one who learned well from life and is able, with equanimity to face happiness as well as tragedy in a sensible, prudent manner.

The English band Happy Mondays is a band that doesn't write down any lyrics. They get into the studio and jam, picking out the best in the lot.

Happy Mondays: '70s music with '80s twist

By Larry O'Connor staff writer

Happy Mondays make for hungover Tuesdays.

"We're still partying from last night," said Shaun Ryder, lead singer with the English band Happy Mondays in a Tuesday afternoon telephone interview. "In fact, we just finished an hour ago."

Night clubs are not the only target of Happy Mondays' assault on this country; so, too, are the ears of alternative music listeners.

Happy Mondays has just released its second album, "Bummed" (Elektra), a neo-psychedelic collection of sound designed to make your head

The group is part of a large Acid House scene in Great Britian, bringing back '70s culture with all the vices. Yes, folks, time to pull out those purple bell-bottoms and platform shoes again.

Except theirs is simply not a trip down the far-out lane. What Happy Mondays has done is incorporated the music of the '70s, including acid rock, funk and even dance (not disco), into a new whirlwind of a sound. You can dance to it, arm wrestle to it or change the oil in the

car to it. The latest album is exceptional work, especially considering the lack experience in the Happy Mondays'

"ON THE first album, none of us knew what we were doing," said Ryder, whose band will perform tonight at Rick's Cafe in Ann Arbor. "We had some ideas of what we wanted to do, but we didn't how to get them out through to our instruments or on plastic."

Enter Martin Hannet, the guy whose past production work includes Joy Division and U2. On vinyl, Hannet ("He's a good bloke," Ryder said of the well-known producer.) brought out the fuller elements of Happy Mondays' sound.

A tough task. Happy Mondays is a band that doesn't write down any lyrics. They get into the studio and jam, picking out the best in an as-

sorted lot. Ryder said some of his best lines have been forgotten in late nights at the pub. Those who have seen Happy Mondays live find them unforgett-

able. The same throw-caution-in-thecan attitude exists onstage. Sometimes forgetting the lyrics, Ryder

said he will make them up as he goes along. The band has also made great copy offstage as well, like the time when Ryder walked into the wrong

"Our gig was 25 yards from the Simply Red gig," said Ryder, who is, from Manchester, England. "We

seen all these people lined up and we said, 'Wow man, top gig.' We get inside and we see all these people and we said, 'Get outta the way. Get outta the way. We're the band," to all the bouncers and security.

"We made our way to the stage and said, 'Wow, the warm-up band has a top drum kit.' Here to find out, Simply Red was in the dressing room. Everyone thought it was fun-

AMERICAN AUDIENCES are getting their first glimpses of Happy Mondays. The group performed two years ago at the New Music Seminar in New York, but this is the first major U.S. tour.

In eight short days, the band has found America quite to their liking. Bez, another maraca toting member of Happy Mondays, talks about how the group didn't have anything to do after returning from a show at 5 a.m. So, Happy Mondays walked the streets of New York City until the sun came up.

"I enjoy all of it," said Bez about the music business. "If you're going to make any money, this is the best way to do it. We're all lazy. We never worked. If you're going to be lazy, this is the best way to do it."

Happy Mondays will perform Monday, Aug. 14, at Rick's Cafe in Ann Arbor. For information,

9. "Codine," Ultra Vivid Scene, 10. "Electricity," Mesculine Ritual.

REVIEWS

CYCLES

- Doobie **Brothers**

Everybody who made hit records in the 1970s seems to be taking another stab at stardom, including the Dooble Brothers. And they couldn't are several worthy songs, including have picked a better title for their comeback album - "Cycles."

After all, the pulsating intro to the Capitol LP's opening track, "The Pat Simmons. Doctor," sounds suspiciously close to

that long-ago hit "China Grove." The similarity shouldn't surprise anyone who has followed the Doobles since those days. "Cycles" is driven by the rough-edged vocals of original singer Tom Johnston, who once upon a time was replaced by slick-croon-"What A Fool Believes?").

Back to earth for a moment. It's great for these veterans to be of mine. back in the music business. But the stars in the Dooble Brothers' sky aren't quite as bright as they once enough to make sure there are a few

were. That's because, despite whatever burn, for the Doobles. promise is yielded by "The Doctor," most of the music contained on this uneven set, frankly, falls to follow

the title's "we're back" theme. However, this group still manages to glitter from time to time. There the slow-cooking "Need a Little Taste Of Love," spiced just right with some tasteful guitar riffs from

"South of the Border" conveys the free and easy spirit prevalent in the

Doobies glory days. Another mentionable is the introspective anthem "Time Is Here And Gone," with lyrics describing someone with a late appreciation for life: "What used to worry me, well it ing Michael McDonald (remember don't worry me/Who knows the reason or the rhyme/The years that I got left, you know I'll make the most

And "Cycles," although clearly not

earth-shaltering, may just be good

more days, and perhaps another al-

THE OCEAN BLUE - The Ocean Blue

This eponymously titled LP on Sire Records is the debut album from this band who hall from Hershey, Pa.

The band, a four-piece, is essentially guitar-based, but they do include keyboards and saxophone in their instrumentation line-up. Mistake No. 1.

Actually, track one, side one, their first single "Between Something and Nothing," is quite considerable. Starting with a fresh, bouncy guitar riff, leading into a catchy verse/chorus combination, split with an attractive guitar solo. It is very exciting on first listen. This album is going to be great, me thinks.

Mistake No. 2. It becomes obvious very quickly that this track is the most notable standout of the album. Although on

repeated listens, it does bear re-

markable similarity to Echo & The By this time, the third song, "Drifting, Falling," airs itself the comparisons are spewing forth, fast and furious. Yes - there's a Lloyd Cole, oops, almost tripped on an

Echo & Bunnymen. But get this for

obscurist influences - "Circus Ani-

mals" onward the light keyboard

drone in the background and the

'cchoed" vocals remind me of Aha (remember them?).

With their record 'company's claims that Ocean Blue are "a group whose musical explorations have resulted in some dazzling innovations with a sound that matched fervant spontanelly with technical sophistication."

They obviously chose to ignore a band called The Connells from North Carolina. Why I mention this is that Ocean Blue's songs are operating in the same arena with similarly styled rhythm acoustic gultar, lead and backing vocals and song structures.

Unfortunately, it is to Ocean Blue's detriment that The Connells were around first and have stronger material. Of course, a case may be made that sounding similar to a band who is still relatively unknown is not something to be concerned

_Cormac Wright

THE END OF THE **INNOCENCE**

— Don Henley

With five years of water under the bridge since "Building the Perfect Beast" (and what a beast it was!), you would think that Don Henley might have had enough time to put together a decent follow-up.

Well, you are right.

It seems that this ex-Eagle has been spending so much time crafting the music on his new LP that he has. forgotten to cut his hair (see cover). But hey, if the man keeps producing the kind of material that made "Beast" a monster success, he can do what he wants with the mop on

Working with his longtime friend and collaborator Danny Kortchmar. Henley has concentrated more on the lyrics and message of each on "Innocense," while maintaining a strong instrumental presence that often eludes his more preachy contemporaries (like Jackson Browne). While this album does have a none too-subtle lyrical bite to it in spots, it still has its share of the rock'n'roll we've come to expect from Henley.

The title track opens things up with a collaboration between Henley. and Bruce Hornsby that sounds more

like a Hornsby single than a Henley original. "How Bad Do You Want It?" is this album's answer to "All She Wants to Do is Dance," with its raucous rock/dance beat. W. Axl Rose of Guns N' Roses steps in on backing vocals on "I Will Not Go-Quietly"; the song falters.

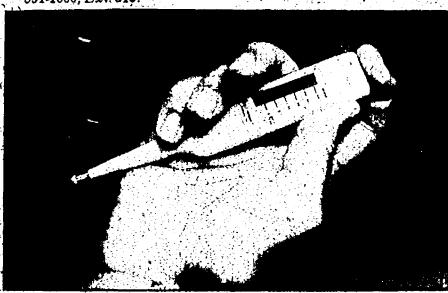

The real highlights on this one are a ballad ("The Last Worthless Evening"), a satire about television' ("Little Tin God"), a discourse on the greed ridden '80s ("Gimmie What You Got"), a chronicle of the range of American excess ("If Dirt Were Dollars") and a gem on how fast things can change ("New York Min-

If that sounds like a lot of highlights, you may want to pick this one up because this old Eagle ain't balding, and he keeps on flying.

Don't get discouraged

Dear Barbara.

I am recently separated from my husband of 20 years. I am in my 40s. I went out on my first date a few weeks ago. When the check came after dinner, my companion said to me, "I'm sure you'll want to share this."

I was surprised and I am sad to say, a little depressed. I am comfortable financially and could well afford to pay the bill, possibly better than my date, but I continue to feel that I would like to be courted by a man.

Is it old-fashioned for me to expect such treatment? Do I have to declare my financial expectations each time a man asks me out? Do you think I should be prepared for a lot of this type of treatment?

Ellei

Dear Ellen,

Maybe you need Miss Manners, not me. But I will try to answer in the best of her tradition.

ne best of her tradition.

Unfortunately, there are men like

by complying. It was inappropriate for you to pay half. It is bad enough to be insulted by the request without the bad taste left by allowing yourself to be manipulated.

Let's hope that you are not dis-

this. You should not encourage them

Let's hope that you are not discouraged by this incident and that on your next date you meet a man with good taste.

Dear Barbara,

I have a good friend who was recently devastated by a divorce. She still has unrealistic fantasies that her former husband will return to her. Yesterday, I heard through the grapevine that the new wife is pregnant.

Through mutual friends I also know that my girlfriend's daughter is aware that her stepmother is pregnant. She has not been able to tell her mother and in general seems quieter than usual.

My question is: Should I tell her? At least then it will be in a controlled atmosphere and if she breaks

CHARLE REPRESENTATION OF THE PROPERTY OF THE P

down, I'll be there to console her.

Dear Vicki.

I hesitate to answer your letter for a reason that may not apply to you at all. The reason is that I have seen so many people, who, with all good intentions to help others, end up creating havoc and bad feelings. Please understand then why I am unable to answer your question directly.

Dear Fathers NOW, M.F. and G.P.,

Chicago: Pasta to pastry boards

Continued from Page 1

"Gourmet on the Go." (I knew I had made the right decision to take the last flight back to Detroit.)

Lunch at Spiaggia, prepared under the watchful eye of guest Chef Bugialli (Tony Martin is Spiaggia's resident chef), was splendid. Too bad everyone else I talked with that day thought Spiaggia was "overpriced and overblown," Of course, it's going to be good for me, I'm a food writer and they kney I was coming.

After lumes and a few too many refills of Italian chardonnay, I felt the need to walk off the buzz, so I instructed my driver to drop me at Crate and Barrel. Anyone who does anything with food will go bonkers at this high-tech bargain basement-priced gourmet and tableware shop, just down the street and in the middle of the "Magnificant Mile."

Thirty minutes was all it took to run the American Express card almost to its limit with purchases of 16- by 20-inch marble pastry boards at \$16.95 (I bought two), dishes shaped like fish (I bought a dozen), Belgian waffle irons and the neatest martini glasses I have ever seen.

THEN IT was off to have cocktails

at Ditka's. The restaurant critic at Spiaggia said a stop here was warranted, just to see and feel Chitown's best jock bar and to savor what was the best oysters on the half shell I have ever swallowed.

All fresh oysters are good, but what set these apart was the tongue-tingling horseradish sauce that accompanied the little gems. And it had the best drink values with rock glasses that are truly "jock size" and not some scrawny wimpy little glasses.

This place is owned by the famed and legendary Chicago Bears coach, Mike Ditka.

After buying a menu (I always ask first and NEVER steal), Craig Koresian, the afternoon manager, offered to have Coach Ditka himself sign it. How could I resist?

The only resisting I had to encounter was to resist not eating more of those great oysters. I didn't want to spoil my pre-dinner reservations at one of Chicago's hottest eateries, The Fronteria.

Owned by Chef Rick Bayless (of local Ann Arbor fame) and his wife Donna, a marguerita and an order of the \$4.75 sopas sampler was all I needed. But a friend couldn't resist the border-style split game hen,

marinated in garlic and sweet spices at \$11.

This is primo southwest cuisine and since they don't take reservations for less than six, it's a crowded and fun place to stop.

Chef Rick is right there in the open-styled kitchen and you can find this fabulous eatery at 445 N. Clark.

TELLING MYSELF I need another hit of oysters from Ditka's, but reminding myself of 7:30 reservations at another of the Windy City's premier eateries, Prarie, I asked the driver to deliver me to 500 N. Dearborn, home of the Omni Hotel and what easily can be touted as one of the best restaurants in town.

I was disappointed to hear that the classic prairie dog stew was 89'd for the evening, but my waitress said that I would not be disappointed with the warm apple sausage and sage turnover. And I wasn't.

The Prairie touts itself as serving the quinessential heartland favorites. I wholeheartedly agree. Not to be outdone with the appetizer, my waitress almost ordered me to try the tossed salad consisting of fried coho and toasted pumpkin seeds. This woman can bend my arm with any recommendation and I'll take it.

Unlike Ditka's and Fronteria, this place was a tad pricey, so keeping in mind try excessive purchases at Crate and Barrel and also knowing that my waistline was beginning to show signs of contractual expansion, I opted for a light dinner of a dish, called Burgoo, that I tried on my last trip to Kentucky.

This was a thick soup, almost stew like, filled with rabbit, pork and a mish-mash of vegetables, with a tangy tease to the broth.

For a second there, I thought I had died and gone to heaven. Three winning restaurants in as many hours. Three dishes at each and all were winners.

A QUICK glance at my watch beckoned me to a waiting car and it was off to the airport.

Running to catch what was the last plane out, carrying a briefcase, camera bag, 60 pounds of marble pastry boards and assorted other goods found me waking the next morning with shin splints and a craving for a good workout and sauna at Vic Tanny's.

So, if you're planning a trip to Chicago and are lucky enough to have your income tax refund in tote.

Bon Appetit!

SCREEN SCENE

ANN ARBOR. SILENT FILM SOCI-ETY, Berkshire Hilton, I-94 at State, Ann Arbor. Call 761-8286 for information. Starting at 3 p.m. Aug. 20. (\$2.50 general, \$1.50 members)

The society continues its salute to silent foreign films. "Ecstacy" (Czechoslovakla — 1932) gained international recognition not for the cloddy love story, but for its shocking nude shots with actress Hedy Lamarr. With "Leaves from Satan's Book" (Denmark — 1919) by master director Carl Dreyer, about Satan's influence through the ages.

DETROIT FILM THEATRE, Detroit Institute of Arts, 5200 Woodward Ave. Detroit. Call 832-2730 for information. (\$5)

(\$5)
"Sex, Lies and Videotape" (USA —
1989), Aug. 18-27 (call for show times).
The winner at this year's Cannes Film
Festival is a clever — if a bit overrated
— look at a quartet of people and their
bizarre problems.

HENRY FORD CENTENNIAL LI-

BRARY, 16301 Michigan, Dearborn. Call 943-2330 for information. (Free)

"Feet First" (USA - 930), 7 p.m. Aug.

14. Bespectacled Harold Lloyd tries to avoid discovery when he sneaks aboard a steamship. A feature-length sound effort from one of the silent era's greatest co-medians

LIVONIA MALL CINEMA, 29415 Seven Mile, Livonia. Call 476-1166 for information. (Free)

"No Time for Comedy" (USA — 1940), 10 a.m. Aug. 15. Rosiland Russell desperately tries to keep her playwright husband Jimmy Stewart from taking himself too seriously in this hit-and-miss comedy. Part of the mall's continuing tribute to actor Jimmy Stewart.

MICHIGAN THEATRE, 16301 E. Liberty, Ann Arbor. For information, call 669-8397. (\$4 regular and \$3.25 students and senior citizens)

"Tampopo" (Japan - 1987), 7 p.m. Aug. 14. Director Juzo Itami's popular comedy about love and noodles. "Cold Feet" (USA - 1989), Aug. 15-19 (call for show times). Misfire western comedy about a trio of hapless diamond smugglers, played with typical quirkiness by Keith Carradine, Tom Waits and Sally Kirkland.

"Once Upon a Time in the West" (Italy/USA — 1969), 9:15 p.m. Aug. 15-16. Sergio Leone's operatic "spaghetti western" about a woman trying to save her land from the encroaching railroad company and the various men either out to help or kill her. With Charles Bronson, Jason Robards and Henry Fonda as a most despicable blue-eyed villain. A must on the big screen.

on the big screen.
"Silverado" (USA — 1985), 6:30 p.m.
Aug. 17 and 9:45 p.m. Aug. 18. Lawrence

"Low Winter Season Rates Available"

Kasdan's fast-paced but failed attempt at making a new mainstream Western. Kevin Kline, Scott Glenn, Kevin Costner, Rosanna Arquette only scratch the surface of a sprawling, but misguided cast.

"Sadanah" Journey to the Source" (1986), 5:30 p.m. Aug. 19 and 5:15 p.m. Aug. 20. Unusual docu-drama about a young Western seeker who finds enlightenment in India and the Himalayas.

"Scandal" (Britain — 1989), 9:45 p.m. Aug. 19 and 7:10 p.m. Aug. 20. Unexploitive look at the fall of Britain's war secretary John Profumo in a scandalous affair with showgirl Christine Keeler. The film really focuses on Dr. Stephen Ward (John Hurt), who introduced them and becomes the affair's tragic fall guy.

STREET CRACKS

10 years and still joking

Lilly finds club work a challenge

By Larry O'Connor staff writer -----

The comedic boom of late has spawned several Johnny-Come-Latelys on the scene while the Tim Lillys of the world chuckle along.

For 10 years. Lilly has been a comedian. He's seen more clubs than Jack Nicklaus, more roadside restaurants than a trucker.

Lilly's resigned himself to the fact that might not change anytime soon. He believes a lack of television exposure is perhaps his biggest stumbling block to big time notoriety.

"I know what these guys (in television) want and I'm not it," said Lilly, who will perform Thursday through Sunday at Joey's Comedy Club in Livonia. "They want the Ken Doll look. It's not so much what you say, it's how you look. I'm 50 pounds overweight, balding and wear glasses. Those are strikes against you in television.'

Yet, he can still swing for the big laugh. His humor is suburban, recalling times such as cruising down Woodward Avenue and growing up in Ferndale.

People in the audience can relate to such things as being a stepfather, having a child for the first time and trying to support a family of five on a comedian's wages.

The latter is becoming increasingly difficult. With comedy clubs sprouting, several would-be comedians are taking a shot.

"THAT'S THE Catch-22," Lilly said. "There are more clubs, but there's 35 to 40 people in Detroit who fancy themselves as comedians. The clubs use that to their advantage. They say, 'OK, Tim Lilly doesn't want to work for \$50 a night, we'll get another comedic act.'

"Fortunately, there are clubs like the Looney Bin in Walled Lake and Joey's in (Livonia) who will give a local guy a chance to headline." Lilly has gone beyond the inner

Tim Lilly's humor is suburban, and the audience can relate to such things as being a stepfather, having a child for the first time and trying to support a family of five on a comedian's

circle of Detroit area clubs, performing at the Comedy Store in Hollywood and The Improv in Los Ange-

He prefers Great Lakes region, though. He feels people here can relate to the urban Midwestern humor. His start in the business certainly has Midwestern roots.

Lilly was a drama student in high school and had aspirations of going to Eastern Michigan University. Personal setbacks, including the death of his mother, stalled those

While working at a "9 to 5 hamand-egger," Lilly noticed the Delta Lady Club in Ferndale had an open mike night. He tried it. He liked it.

Lilly's jokes used to be spiked with "pot-smoking" fare, but he's cleaned

things up. Instead, Lilly's more likely to discuss some of his encounters of con- "Let's head to the beach." stantly being on the road.

"I got stuck behind a driver's cation car and I noticed the kid has his hands in the 10-and-2 position on the wheel," he said. "They're teaching these kids the wrong things. "Instead, they should be learning

how to get on the expressway without spilling their McDonald's Super Size. Or say, 'OK, put it in drive. Now open the Whooper box.'

LILLY HAS joined the ranks of the recently married. His wife had three children of her own, daughters 12 and 10 and a son 6. They also have a seven-week old daughter.

The responsibilities have increased with fatherhood. And, with it, have come some harsh realities.

"I realized that I'm .old; - I'm square," he said. "My daughter mentioned her favorite band is Guy. I said, 'Guy who?' I imagine that's what it was like when I was young and my parents were asking. 'Who is this Led Zeppelin fellow?

"At that point, I put on my Bermuda shorts and black socks and said.

Tim Lilly will perform Thursday through Sunday, Aug. 17-20, at Joey's Comedy Club, 36071 Plymouth Road, between Wayne and Levan roads, Livonia. For information, call 261-0555.

Short-order cooks at the Billy Goat Tavern take a break after handling the noontime crunch.

A whirlwind tour

Continued from Page 1

city, reduced to the size of a glance in each direction, unfolds like an architectural blanket.

This is almost spoiled though by the cacophony of sound cascading down upon our ears. Taped sightseeing narration blasts from the speakers in front of each window. Standing in the middle of the observatory, it all blends together and the only thing I'm able to pick out clearly is an odd bit of trivia that seems to catch my ear each time one tape repeats:

"THE WRIGLEY family (their namesake building can be seen from the north window) originally started in the soap business. They switched from manufacturing to chewing gum when they discovered it's popularity after giving it away with boxes of soap."

The lone human being at the top of the Sears Tower, excluding visitors, is Brad Stephenson, a traffic reporter for radio station WBBM-AM. Stephenson, 31, Is employed by AAA. He's been up here in a computerfilled room not much larger than a closet every weekday morning for 15 months. He's from downstate Illi-

I ask him what it's like working 1,353 feet above the ciţy.

"It's not that big of a deal when you do it every day," he said. "Besides, it's easy to spot fires from here and it makes sense for a traffic reporter."

Robyn Michaels offers a different perspective on the giant building. We find her sitting on the sidewalk at the base tower, using a clicker to count of the people as they pass by. Michaels has been hired by the city's economic development department to conduct a study on pedestrian traffic patterns. The study may be used to adjust bus and train schedules to benefit com-

Michaels, a grad student and dog trimmer, will work 10 hours a day and be paid \$7 per hour for click-

In her first hour on the job that day, she's clicked 876 times. I ask her how people react to being

"One guy turned around and told me 'It's nice to be counted for something in my life,'. " she said.

FROM THE Sears Tower we head to the Chicago Board of Trade on Jackson Boulevard in the financial

To describe the Board of Trade as a commodities exchange is a grave injustice. This is like going to an auction in the "Twilight Zone." There's one fast-talking auctioneer for every bidder on the floor. And from our spot on the mezzanine above the trading floor, it looks like they've all ingested large quantities of

amphetamines before getting off the "L" and heading

in to work. The buyers, sellers, price reporters and other functionaries are distinguished by their brightly colored coats. There are more hand signals given (five fingers straight up means sell, tilted to the right means buy) than in your average, 9-inning baseball game.

The employees who stalk the trading floor are very secretive about what they do. Two young men representing high-powered conglomerates turn me down for

Andy Warhol is next on our agenda. Or rather the Warhol exhibit at the Art Institute of Chicago in Grant Park. The exhibit, organized by the Museum of Modern Art in New York, ran through Aug. 13 in Chicago. After that, it headed across the Atlantic to London.

As we begin our glide through the more than 250 examples of Campbell's soup cans, Marilyn Monroes, purple cows and floating pillows, I debate the merits of Warhol's modern techniques with my photographer. I hold out for "groundbreaking art," while he maintains the "nothing more than popular garbage" view.

We emerge an hour or so later, calling a truce and

AFTERNOON:

Lunch is at the Billy Goat Tavern, under (yes, under) the street at 430 N. Michigan Ave. This is the place John Belushi and the rest of the old Saturday Nigh Live crew used as their inspiration for the "Cheezborger, Cheezborger, No Coke, Pepsi" sketch. One look and it's clear Belushi and company didn't have to change much for television.

The tavern is jammed at the noon hour and the pace is frenetic. People are gathered around the no-nonsense bar in one corner, while order takers call back to the kitchen from a horseshoe-shaped counter in the

We dine on (what else) cheezbo-er-uh-cheeseburgers, double patties served on a hard roll bun. They are, sald owner Sam Sianis, the house specialty. Self-serve con-

diments are at the adjacent counter. Sianis has owned the place for 19 years. He bought it from his uncle, who opened it back in 1934 after emi-

grating from Greece. "He had a pet goat and that's how he named it," Sianis said, anticipating my question.

I ask whether he was upset about the place being the

butt of a late-night television joke. "No," he said, "I was actually flattered. And it hasn't been too bad for business either."

Appetites satisfied, we take a cab to 1816 N. Wells,

the home of the Second City Theater. Before taking a peak at the rehearsal, we get a run-

down on Second City from producer Joyce Sloan, who

has been around since the year after the improvisational troupe was formed in 1959. Sloan's discourse on the group's history is like a walking tour thorough the Henry Ford Museum of modern comedy.

The theater alumni - in addition to Saturday Night Live and SCTV regulars - include comedians like Avery Schreiber (of Burns and Schrieber) and actress

Betty Thomas, formerly of "Hill Street Blues." Today, one of the improvisational troupes is rehearsing for a road show they will take to Atlantic

City later this summer. Having been socially enlightened during the first part of our afternoon, it can only be time for one thing.

We take a walking tour of the Magnificent Mile, a mile-long stretch of Michigan Avenue devoted to pleasing all tastes and credit cards. Marshall Fields, I. Magnin, Saks Fifth Avenue, Bonwit Teller's, Tiffany's and a host of smaller, but equally pricey shops abound.

WE STOP IN at Burberrys, or, to use the proper name Burberrys Limited. What reporter worth his salt hasn't dreamed of going out on assignment in a trench coat supplied by the world famous United Kingdom clothier?

When I clue store general manager Cary McIlvoy in on my fantasy - to try on Burberrys' top-of-the-line model - she smiles. It turns out the anchors and top reporters from Chicago's television stations are regular customers.

I guess we're all trying to look like Humphrey Bogart, who wore a Burberry coat in "Deadline U.S.A."

Bernard Daggers, manager of men's clothing and outerwear, helps me pull the coat over my shoulders and adjusts the belt. The coat features a shell made from 100 percent imported cotton and a full lining that is mended all the way into the sleeves. It is truly dash-

At \$995, it should last a lifetime, right?

"Well, not quite," said Daggers, in his clipped, South London accent. "You can expect many years of wear, but it may have to be reconditioned or you might eventually need a new one."

And, he said, the store's "bargain basement" model is priced at \$320.

My American Express card starts to tingle, but stays in the pocket.

Next on our agenda is the "Here's Chicago" exhibit. This show in the old pumping station on Michigan Avenue promises to give us a little bit of the town's history, specifically the Chicago Fire of 1908 and the 1920s Gangster era. No vacation is complete, I reason, without getting a little local history. After all, we could have gone to Somerset Mall, if all we wanted was an exotic shopping extravaganza.

THIS TURNED out to be a mistake. What we got was another hokey "multi-media" presentation and a separate tour through a room filled with manequins and a perky tour guide. All that for \$4.75 a head.

Next time, I think I'll run to the library before heading out of town in order to satisfy my lust for vacation background material.

EARLY EVENING:

Before dinner, we decide to head over to Rush Street to check out the local bar scene. Only Rush Street, we discover, isn't the hot spot that all the tour books tout

It used to be, according to an informal poll of several pedestrians, but now the best bars and nightclubs are a short hop away of State and Division streets. Oh

For a check of what's going on musically (and since our plane leaves before most clubs get going for the evening), I talk to Shawn Johnson, co-manager of the Music World store on State.

"There's the 'Batman' soundtrack by Prince, that's our top selling album," he said. "And in the clubs, House Music (An urban, post rap sound) has come out from underground and is getting a lot of attention."

Dinner is at Gino's East, 160 E. Superior, home of Chicago-style pizza. Gino's, with its graffiti-etched tables and high-backed wooden booths is reminiscent of a campus hangout.

We're talking real pizza pie here. The pan pizza is a good 21/2 inches thick. (A hint for Detroiters: Order double cheese if you want it like you get it at home. For some reason, Detroit's pizza makers go heavy on the cheese while the rest of the world goes big on the tomato sauce.) AFTER DINNER and before heading back to the

airport we have one more stop — the subway. Being from Motown, where mass transit is only a pipe dream, I have this odd desire to prove a viable mass transit system can indeed exist. Chicago's "People Mover" combines below ground

subway cars with an above ground elevated railway system, or "L." It's actually possible to go from downtown out to Northwestern University in suburban Evanston (some 30 miles) and beyond.

For our purposes, we ride from the north end of Michigan Avenue back to the Loop. The fare is \$1. The stations are well marked and relatively clean. There are security guards in each car.

Well, what do you know, it works.

For information on places to visit in Chicago call the Chicago Tourism Council, (312) 280-5740. For flight schedules and fares, call Southwest Airlines, 562-1221.

Step back to colonial Mexico at San Miguel

By Iris Sanderson Jones contributing travel editor

Q: My wife has been trying to drag me to Mexico for a long time. I hate touristy beaches, so I won't go to places like Acapulco, but I told her I would consider it, if, you could recommend a place where we can enjoy Mexican life without being overrun by American heach lovers. Definitely, not Mexico City.

R.M., West Bloomfield

A: I don't have to think twice to answer that question! Fly into Mexico City and either rent a car or reserve a seat on one of the first-class buses - desti-, nation San Miguel de Allende. It is a two-hour drive northwest of Mexico City in the general direction of Guadalajara, but you won't find either sand or bikinis. The whole town of San Miguel is a national historic monument, so designated to preserve its authentic coionial character. That is what makes San Miguel and the surrounding towns of Mexico's independence coun-

try so attractive to the insiders who travel here. You can live like a Spanish aristocract while enjoy-The the artists and campesinos who are the heart and foul of Mexico. There are no beaches and no high-rise hotels here, only flowered terraces overlooking cob-

blestone streets. As you turn down the Little Alley of Allende you get

your first real glimpse of the Patroquia, the parish

church on the main plaza. It looks like the cathedral in Cologne, Germany, because it was designed and built by an local Indian architect from postcards of Europe-

There is a small plaque on the house at the corner of the plaza - "Hic Natus Ubique Notus (Somebody of note was born here)." That somebody was Ignacio Allende who held secret meetings in this house until the September day in 1810 when he rode out of town with his fellow rebels to begin the revolution that finally gained Mexico its freedom from Spain in 1821.

The town was renamed San Miguel de Allende. The mayor still shouts "Grito! (freedom)" from the balcony of the city hall across the treed plaza on Independence

THERE ARE plazas like this all over colonial Mexiico, created by Carlotta, wife of Emperor Maximillan, who converted all the old military marching grounds into treed plazas. On Sunday, everybody is here. Young men in blue Jeans, campesinos in straw cowboy hats, peasant women in colorful shawls, carpets and basket sellers, mothers with bables, men and women in fash-

On the far side of the plaza, people move in and out of the courtyard of Posada San Francisco, once a beautiful Spanish home, now a beautiful inn, considered to be one of the most authentic colonial posadas in Mexico.

A famous local name, Canal, is found on a street

The public market in San Miguel de Allende is awash in colorful fruits and vegetables.

running west out of the plaza and on the house of the Counts of Canal on the northwest corner of the square. The name of this old silver mining family ties modern San Miguel to its Spanish colonial past, its centuriesold reputation as an art center.

Prehistoric Indians lived in this area, but it was Franciscan Father Juan de San Miguel who organized them into villages and taught them the old European crafts after he arrived from Spain in 1530.

The Canal family came two centuries later; their estates on the edge of town are now the site of the Instituto Allende, an important part of the art explosion which revitalized San Miguel for both artists and

tourists after World War II. The Institito, in an old converted haclenda, attracts artists and art students from throughout North America to both visual and performing arts classess. All classes are taught in English. More than 1,500 American and Canadian students attend. These artists sell their work side by side with the weavers; tinware artists and other craftsmen on Canal Street.

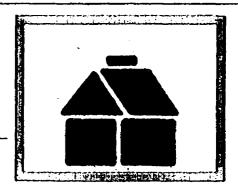

A SECOND well-known art center, the Centro Cultural Ignacio Ramirez, a branch of the Insituto de Bellas Artes of Mexico City, is in the old Convent of the Concepcion and includes both contemporary art and a lovely courtyard garden.

Casa Maxwell, a shop in the center of Canal Street between the plaza and the towers of the Church of the Concepcion, is known throughout Mexico for its varied local crafts and contemporary art work.

None of the shops are open on Sunday, of course. On weekdays, the craft shops along Canal Street are busy and the market brings color and sound to the streets around the Church of San Francisco, but on Sunday the activity is in the plaza and in favorite dining places like Posado San Francisco.

There are several wonderful hotels set in the homes of former Spanish aristocrats. Ask your travel agent if the Casa do Sierra Nevada is still there. You'll love the rooms in the main house or the small suites, with their own terraces, in the houses (owned by the hotel) across the street. Last time I was there, they had a fine dining : room and delivered breakfast on your own sunny terrace. It's only one block from the plaza,

condo queries

Robert M. Melsner

Q. Simply put, can a landlord be responsible for assaults which occur within the leased premises to a tenant?

A. In the Michigan case of Wiliams v Cunningham's Drug Stores, the Supreme Court held that a landlord has more control in his relationship with his tenants than does a merchant in his relationship with his invitees. The court reasoned that when a dangerous condition exists in the common areas of a building which tenants must necessarily use, the tenants can voice their complaints to the landlord.

The court went on to say that a landlord has a duty to investigate and to take available preventative measures when informed by his tenants that a possible dangerous condition exists in the common areas of the building, even though the landlords duty might be slight. In short, the courts of this state have held that an award of money damages for an assault can be had when it is determined by the trier of fact that the landlord knew or should have known of the dangerous propensities of persons entering the building.

Q. We are sick and tired of paying city taxes for garbage removal and the like, and fall to get adequate services from the city at our condo. Is there anything we can do about this injustice?

A. Some municipalities are more enlightened than others regarding the responsibilities and the attendant services which they provide to condo associations. I would recommend, that in your case, that you contact the supervisor or mayor of your municipality and invite him or her to meet with you with the board of director's of your association to discuss why you're not receiving the same services as other members of the community.

Assuming that you get a negative response, I believe that you should mobilize he community associations in your vicinity to bring political pressure upon the powers that be in your community regarding the services to which you believe your association are entitled. Also consider the prospect of commencing legal proceedings against the municipality on the basis that you are being denied fair and equal treatment in re-

gard to the expenditure of your tax dollar. This is a common problem among many associations and mobilization on the part of community associations is needed to correct this apparent injustice.

Q. Can you please explain the recent Court of Appeals decision concerning size limitations on animals more clearly, as our condominium lawyer has been somewhat ambiguous in doing so.

A. A Macomb County Circuit judge ruled that an arbitrary size limitation on dogs was not a reasonable restriction. This decision was upheld by the Michigan Court of Appeals, which reasoned that the size of a dog does not necessarily have a relationship to the propriety of keeping the dog in a con-

The court further indicated that a total prohibition on dogs was probably permissible and that a small pit bull could be more dangerous that a large sheep dog. Accordingly, you should have reviewed the pet restrictions of your documents to insure they are in compliance with recent court rulings and are otherwise enforceable.

Robert M. Meisner is a Birmingham attorney specializing in condominiums, real estate and corporate law. You are invited to submit topics which you would like to see discussed in this column, including questions about condominiums, by writing Robert M. Meisner, 30200 Telegraph Road, Suite 467, Birmingham 48010. This column provides general information and should not be construed as legal opinion.

READERS ASK:

By Andy Lang special writer

Q. We are getting a squeak from the steps going from our first floor to the second. A careful examination shows an up and down movement when someone stands on the front tread where it goes out a bit over the riser. Will putting powdered graphite on that area stop the squeak?

A. Probably. But it will be only temporary. The loose tread should be fastened down by driving two or three nails into it near the edge. The nails should be hammered in at an angle so they form a V in the wood. Be sure the nalls go into the top of the riser, but also be careful they do not miss the riser entirely. Screws also can be used for the repair, but they will have to be countersunk and the indentations plugged or filled. If the stairs are made of oak or similar hardwood, drill pilot holes for either the nails or the screws.

(Andy Lang is a special writer for Associated Press.)

On vacation

Organizing columnist Dorothy Lehmkuhl is on vacation. Her column will resume next week.

On the move

Family health tips during relocation

HE KITCHEN is often called the "heart of the home," traditionally serving as a gathering place for families and friends. It's a special place that transforms daily to meet the disparate activities of a family. At one moment, the kitchen is a quiet spot where friends share dreams over warm coffee. Later in the day, the room is bustling with activity as family members recount the day's events while busily preparing the evening meal.

For most families, the kitchen also seconds as a work area where youngsters grudgingly complete their homework. Interestingly, studies indicate that a person's sense of smell is the sense most closely tied to memory; as a result, the kitchen frequently represents an emotional tie to the treasured aromas of one's past.

Of the estimated 47 million Americans who will move this year, many families will be temporarily thrown off balance when the security of their kitchen routine is disrupted. Thankfully, this stress is easily reduced if the family follows some practical guidelines when transplanting the "heart" of their home.

Toni Lindenberger, a professional home economist and director of the Bette Malone Relocation Service for United Van Lines Inc. offers tips for moving food products and kitchen appliances and for settling into a new home. These guidelines are helpful whether the family is using the services of a professional mover or renting a trailer and moving it-

- To guard against damage that can be caused by combustion, leakage or explosion, dispose of aerosol cans of all kinds; liquids, such as furniture polish or bleach in bottles that could leak, matches; food in glass jars. If it is absolutely essential to pack a liquid, such as a medical prescription, the lid or cap should be fastened tightly and taped. The container should then be placed in a tightly sealed plastic bag.
- Take only those items you are sure will travel well. Do not take anything perishable. Temperature extremes are harmful to canned goods. High temperatures increase the chance of spoilage and freezing temperatures may cause swelling, which, in turn, may rust the seams of a can. Storing canned goods in a cool, dry clean place is best, preferably with temperatures below 85 de-
- Be wary of badly dented or bulging cans since this may indicate the presence of botulism, a rare and often deadly food polsoning bacteria (Clostridium botulinum).
- Open boxes of dried or powdered foods such as rice, macaroni and cereals should be discarded since they may attract bugs. For a cross-town move, though, boxes may be sealed with tape. Small containers of condiments, bouillon cubes, gelatin, etc., should be placed together in a small box before packing in a large carton. Be sure to cover holes of shaker tupe containers and seal with tape.
- Since spices are expensive, you can tape those which still have a tightly fitting cap. However, if the bottles or cans do not have a cap, it is best to discard the spice.
- If you are moving to a part of the country troubled by pests and insects, it is wise to have your new home treated by a pest service — preferably before your arrival.

WIEN PREPARING KITCHEN appliances for a move, Lindenberger recommends thorough cleaning and drying of the products, ecspecially the refrigerator, freezer and range. This is especially important if the appliance will be in storage for any length of time. The slightest bit of moisture in a warm, enclosed space is enough to cause the growth of mold and mildew with a resultant musty odor and stains difficult, if not impossible, to eradicate. Grease left on a range will turn rancid and gummy, catch dirt and dust, and leave

spots on any items that touch it. Cleaning instructions for appliances are included in the owner's use and care manual which generally accompanies new appliances. If

1;

no manual is available, use a mild can make some sensible selections. detergent solution or a good commercial freshener, following the manufacturer's instruction for its use. Or use a solution of three tablespoons of baking soda dissolved in a quart of warm water to which one tablespoon of vinegar has been added. Do not use harsh abrasives that will scratch or mar porcelain finishes. A soft brush or vacuum cleaner will remove excess dust. Soft rags make excellent drying and polishing cloths.

In order to clean the kitchen range, remove the grids, grates, burner knobs, reflector pans, broiler pans, oven racks and other removable parts and clean them thoroughly. A degreaser (used according to the manufacturer's directions) and a stiff brush will do a good job of grease removal.

Steel wool and a wire brush are helpful in removing grease from the oven and broiler rack. While a wide variety of oven cleaner is available, an excessively greasy oven can be easily cleaner if one half-cup of ammonia in a sauce dish is placed in the closed oven overnight. Use a mild detergent or the baking soda-vinegar-water solution on the porcelain finish. Wipe out and dry the drawers and storage compartments, then replace the clean dry parts.

THE SAME CARE must be given to the cleaning of your refrigerator and freezer. According to Lindenberger, it's well worth a little extra time preparing your appliances for a move when you consider the monetary investment they represent. First, empty the appliance, then disconnect and defrost it. Once it has defrosted, remove all movable parts and wash. Wash the interior of the appliance thoroughly, giving special attention to cleaning cracks, crevices, drawer and shelf slides, door gaskets, drain tubes and all possible places in which food particles or spilled food may be trapped. Don't forget the evaporator pan. Rinse with warm water and dry. Wash and dry the outside as well. Dust the compressor unit. Some refrigerators have a cold water dispenser or an automatic icemaker: be sure the water reservoir is empty.

After cleaning thoroughly and drying, leave the door wide open for at least 24 hours — longer if possible - so the parts you can't reach will have a chance to dry. The invisible insulation holds moisture and dampness collects under the rubber gaskets on the doors. The open doors allow moisture to evaporate so the appliance will dry completely. Then replace the cleaned dry parts. Be sure the shelves are secure.

To keep the appliance fresh during a move, use a commercial freshner according to package direction or sprinkle the inside with baking soda. Upon arrival at destination, wash the freshner from the refrigerator or freezer with a damp cloth of sponge and the appliance will emerge clean, fresh and ready for use. When it is reconnected, let it cool before placing food inside. (If moved during cold weather, be sure to let your appllances warm up to room temperature before plugging them in. Plugging in a cold appliance could destroy

When organizing for a move, decide which kitchen items will be needed immediately upon arrival at your destination, then carefully pack them into a moving box and mark this box "load last." That way, this "survival" box will be unloaded first.

ONCE YOUR FAMILY has arrived at its new home, efforts must be made so the kitchen can again assume its position as the heart of your home. To facilitate the family's emotional transition, Lindenberger recommends creating some familiar aromas by warming bread in the oven or making a batch of popcorn. These two comforting fragrances will subconsciously ease some of the anxiety of family members.

Don't overlook the importance of proper nutrition during the first few days of a move. While fast foods may be convenient, they are high in sodium and fats and can make cranky children even more irritable. Cut back on sugar, caffiene and greasy snacks, instead providing bowls of nuts, fruit and raw vegetables for your family. If you are not up to preparing food, see if the supermarket in your new neighborhood has a salad bar from which you

As another alternative to fast food, try a family restaurant or cafeteria that serves balanced meals with a minimum of fats and sugars. Careful meal planning can soothe jangled nerves and give your family members the energy they need to combat move-related stress.

The stress associated with relocation is also reduced through excercise. Lindenberger suggests the family take a break from household chores in the evening and walk through the new neighborhood. Not only is this an ideal means of relaxation, but the walk also fosters family communication.

It's a great opportunity to discuss relocation of corporate personnel.

the concerns of individual members, perhaps even solving potential problems or alleviating the fears that are a natural part of change. Besides keeping the lines of coomunication open, famiy walks also help everyone become acquainted with the new neighborhood and possibly even make some new friends.

United Van Lines' relocation service was created over 30 years ago to assist consumers with questions related to moving. It offers detailed information on more than 7,000 locations worldwide, booklets on a variety of moving-related topic and personal consultations with business executives concerned with the
